

G621: Analysis at Work – Sample Assignment A

Unit Name: Analysis at Work	Unit Number: G621
Assignment Title: Energy policy	Assignment: G621 Sample Assignment A
Date Set:	Due Date:
Assessment Objective(s): AO1	

Vocational Brief:

Organisations need to be concerned about their energy use. Over-use can have financial implications. Your task is to research and produce a report on the energy policy of an organisation that is a non-domestic **consumer** of energy.

Task:

Produce a report that includes:

- a description of the energy policy of your chosen organisation
- an outline of ways in which the organisation reduces its energy consumption
- the environmental effect of this reduction in energy use
(Note: Aspects of the organisation's environmental policy not related to energy saving e.g. waste disposal, are NOT required.)
- the cost savings due to this reduction in energy use.

Include reference to resources used.

[Max marks possible for this task: 19]

Resources:

Annual Report of the organisation.

(Financial Times operate a service for obtaining Annual Reports of companies.)

Website of the organisation.

Energy policy of your school or college.
