

A2

**GCE ART & DESIGN COMBINED ASSESSMENT GUIDANCE GRID**  
**Syllabuses 9D01/9FA01/9TD01/9TE01/9PY01/9GC01/9CC01**

All four assessment objectives must be met in each Unit. A mark out of 20 should be awarded for each assessment objective. The four assessment objective marks should then be added together to give a total mark out of 80 for each unit. Strands i) ii) and iii) of Quality of Written Communication (QWC) should be addressed wherever written content is submitted for assessment.

## HOW TO USE THE A2 COMBINED ASSESSMENT GRID AND GUIDE

### The two assessment documents have been combined to aid clarity and reduce the pieces of paper required when making assessment decisions:

- The Assessment Objectives head four columns, under which are Performance Descriptors
- The Levels of Performance are on the left.
- The total marks for each Level of Performance are on the right, with smaller numbers in grey bands, indicating performance between levels
- At the bottom of the document are spaces for centre marks, by unit number, for each Assessment Objective to form a total mark out of 80 for each unit, recorded in the appropriate unit box on the far right

### Assessment is a difficult process and must be given sufficient time for consideration, refinement and accurate final decisions:

- Start with feeling informed, by your experience over time, of the performance of present candidate(s) and knowledge gained from Edexcel training and support.
- You will already have made many interim and final assessment decisions.
- Internal and external estimates of grades/marks may have been submitted
- You have considerable knowledge of the relative performance of groups and individuals.
- It is essential to form an understanding of the Levels of Performance (Basic, Competent etc).
- It is important to consider the whole of each Assessment Objective. Although there is a shorthand title for each AO - Develop, Experiment, Record, Realise etc. It is necessary to appreciate the connections and nuances implied within each AO and not to rely entirely on the shorthand

### A recommended approach to assessment:

- Start with a middle performing candidate for your cohort
- Using the Performance Descriptors, and based on the work presented, come to a conclusion at which Level the candidate has performed; for example Confident 44 - 60 marks; which is 11 -15 marks for each Assessment Objective
- Decide if the candidate is Low, Medium or High within this Level; let's assume Medium - around 13 marks for each Assessment Objective
- Now assign marks under each AO that reflect the candidate's relative strengths and weaknesses for each AO and using 13 as a median
- Thus the candidate may have AO1 - Develop 13; AO2 - Experiment 15; AO3 - Record 12; AO4 - Realise 11; Total 52 (middle Confident)
- If as you assign marks the total is somewhat different to your initial estimate, reconsider and refine, referring to the performance descriptors and AO's
- Looking at the performance descriptors above and below your estimate can often aid decision making
- Candidates do not necessarily perform within the same level for each AO and marks either above or below the level can be awarded
- This may result in a total mark between two levels
- Find a similarly performing candidate and repeat the process as this will help to inform your judgements.
- It is important that initially all marks should be considered as provisional
- Continue by moving up a little to higher performing candidates and then down from the first candidate until all marks have been completed, constantly referring to the Grid/Guide
- Before making final decisions and the transfer of marks to the OPTEMS, make an order of merit - for each unit and, if a large centre for each endorsement. Apart from being a requirement for the visiting moderator, an order of merit highlights possible irregularities in the marking pattern and is extremely beneficial to the centre.

### It is dangerous and poor practice:

- To start with the lowest or highest candidate, as this can inflate or deflate marking
- To mark to grades; be aware of grade boundaries and use them to inform your understanding, but the use of grades alone is insufficient for sound marking
- To rely entirely on aggregate marks already awarded internally, but do use earlier marking decisions to inform your general understanding of a candidate's performance

### Internal Standardisation:

- Please be aware that poor internal standardisation can cause more problems for centres than any other errant marking pattern. Internal standardisation only applies to multiple groups/teachers/endorsements from the same centre:
  - Check that marks are consistently applied to equally performing candidates from different groups, teachers and endorsements
  - Perhaps use 'securely marked candidates' from different groups/teachers/endorsements, as benchmarks to refer to in the internal marking process
  - Use the order of merit to make comparative judgements across each endorsement/group
