

AS/A Level Art and Design: **Textile Design**

(Available for teaching from September 2008)

If you are already teaching Art: Textiles this specification gives candidates a rounded exposure to different aspects of textile design, allowing them to display their abilities in a variety of disciplines and demonstrate their understanding of these contexts.

What are the benefits to me and my students of delivering this OCR specification?

- Supports breadth and depth of study by building on the strengths of the previous specification.
- It cuts the assessment burden on candidates with just two units at AS and two units at A2 – in each case one is coursework, one is examined.
- With both endorsed and unendorsed routes on offer, candidates can take more than one as a qualification.
- Inclusive, accessible exam papers for all routes.
- Thorough and transparent moderation process.
- This new specification is excellent preparation for candidates wishing to progress to art college or to engage in careers involving the visual arts, with new technology involved where appropriate.

This endorsement covers the following five specialist areas: fashion, printed and/or dyed, constructed, fabrics, expressive textiles.

Candidates can produce work within just one specialism or choose more than one to work within.
