# Introduction

This booklet contains a suggested reading list for each of the units offered for AS and A2 Classical Civilisation. Details of prescribed material can be found in the Specification.

The list is not intended to be exhaustive nor does inclusion on the list constitute a recommendation of the suitability of the resource for the specification. The list contains the most up to date information at the time of compilation. The possibility exists that more up to date texts which have been prepared for the revised GCE specifications may become available. Teachers will need to use their professional judgement in assessing the suitability of the material contained in this list.

At regular intervals this list will be updated.
