

**MARK SCHEME for the October/November 2012 series**

**9705 DESIGN AND TECHNOLOGY**

**9705/32**

Paper 3, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Page 2	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	32

Section A

Part A – Product Design

- 1 (a) description of process  
 – fully detailed 3 – 5  
 – some detail, 0 – 2  
 quality of sketches up to 2  
 [7 × 2]

- (b) extrusion  
 – long lengths produced  
 – regular section  
 – no wastage

- blow moulding  
 – large hollow shape  
 – very fast production rate  
 – excellent finish  
 – minimal wastage

- turning  
 – regular cylindrical shape  
 – high quality finish  
 – shape easily repeated [3 × 2]

- 2 (a) cutting action clearly described up to 3  
 quality of sketch up to 2  
 [5 × 2]

eg.

- (b) detailed description up to 3  
 quality of sketches up to 2  
 [5 × 2]

Page 3	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	32

- 3 (a) appropriate material including:
- Laminated specific hardwood
  - Acrylic/HIPS
  - Aluminium/copper
- 1
- Reasons including:
- Bend to shape easily;
  - Takes good finish
  - Easy to cut shapes out
- 2 × 1 [3]
- (b) description to include:  
quality of description:
- fully detailed
  - some detail,
- quality of sketches
- 3 – 7  
0 – 2  
up to 2 [9]
- (c) explanation could include:
- change in process;
  - change in materials;
  - use of jigs, formers, moulds;
  - simplification of design.
- quality of explanation:
- logical, structured
  - limited detail,
- quality of sketches
- 4 – 6  
0 – 3  
up to 2 [8]

### Part B – Practical Design

- 4 (a) (i)  $R = \frac{V}{I}$       $\frac{12}{3} = (1 \text{ mark})$   $4\Omega$  (1 mark)     1 [2]
- (ii)  $I = \frac{V}{R}$       $\frac{9}{40} = (1 \text{ mark})$  225 mA (2 marks)     1 [3]
- (iii)  $V = IR$       $150\mu\text{A} \times 30000$  (2 marks) 4.5 v (1 mark)     1 [3]
- (b) issues could be:
- more products, consumer choice, new potential;
  - marketing implications;
  - cost;
- examination of issues
- wide range of relevant issues
  - limited range
- quality of explanation
- logical, structured
  - limited detail
- 4 – 5  
0 – 3  
3 – 5  
0 – 2

Page 4	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	32

supporting examples / evidence:

- mobile phones,
- computing,
- media

2 [12]

5 (a) crank fully described  
Product

4  
1

(b) linkage fully described  
Product

4  
1

(c) cam fully described  
Product

4  
1

(d) worm and worm wheel fully described  
Product

4  
1

6 (a) materials, reasons and applications could be:

- |   |   |
|---|---|
| – teak<br>application – garden furniture                                  | oils reduce degradation   |
| – aluminium<br>application – buildings                                    | oxide layer forms and protects aluminium                                |
| – cedar<br>application – garden fences, sheds                             | oils reduce degradation   |
| – copper (brasses and bronzes)<br>application – sculpture, door furniture | does not oxidise quickly  |
| – lead<br>application – roof protection                                   | does oxidise quickly  |
| – PVC (uPVC)<br>application - conservatories, garden furniture            | polymer resistant to ultra violet light, does not react to water        |
| – Acrylic (PMMA)<br>Application – shop signs                              | polymer fairly resistant to ultra violet light, does not react to water |

Material      1 mark  
reason        1 mark  
application   1 mark

3 × 2 [6]

(b) quality of description

- fully detailed, well communicated
- some detail, one method described  
for one specific wood and one specific metal

3 – 4  
0 – 2  
4 × 2 [8]

(c) quality of explanation:

- logical, structured
- limited detail

4 – 6  
0 – 3 [6]

Page 5	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	32

### Part C – Graphic Products

<b>7</b>	Correct isometric scale		2	
	detail – positioning		2	
	– base		3	
	– upright		2	
	– ellipse		4	
	– recess		2	
	Quality of line/construction		3	[20]
<b>8</b>	Discussion could include:			
	Quality control			
	– no errors			
	– QC throughout operation			
	Manufacturing			
	– reduce components			
	– update			
	CAD/CAM			
	– speed up process; drawing to machine capability; research component availability			
	– 24/7 production potential			
	examination of issues			
	– wide range of relevant issues		5 – 9	
	– limited range		0 – 4	
	quality of explanation			
	– logical, structured		4 – 7	
	– limited detail,		0 – 3	
	supporting examples/evidence			
	– modifying/upgrading rather than creating new (cars, mp3, 4, phones)			
	– rapid prototyping,			
	– Dyson (injection moulding, shared components)			
	– other specific products		4	[20]
<b>9</b>	<b>(a) (i)</b> 3 <sup>rd</sup> angle (1 mark) sectional, orthographic projection (1 mark for sectional or orthographic)			[2]
	<b>(ii)</b> accurate / scaled fully dimensioned agreed standard		2 × 2	[4]
	<b>(b)</b> grip / length / width thumb / finger operation of buttons / size			
	description of example		2	
	sketch		1	
			3 × 2	[6]

Page 6	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	32

(c) discussion could include:

- research target group – advertising
- cost
- placement of product

examination of issues	3	
quality of explanation	3	
supporting examples/evidence	2	[8]

### Section B

#### Analysis

Analysis of the given situation/problem. [5]

#### Specification

Detailed written specification of the design requirements.  
At least five specification points other than those given in the question. [5]

#### Exploration

Bold sketches and brief notes to show exploration of ideas for a design solution, with reasons for selection.

- range of ideas [5]
- annotation related to specification [5]
- marketability, innovation [5]
- evaluation of ideas, selection leading to development [5]
- communication [5]

#### Development

Bold sketches and notes showing the development, reasoning and composition of ideas into a single design proposal. Details of materials, constructional and other relevant technical details.

- developments [5]
- reasoning [5]
- materials [3]
- constructional detail [7]
- communication [5]

#### Proposed solution

Produce drawing/s of an appropriate kind to show the complete solution.

- proposed solution [10]
- details/dimensions [5]

#### Evaluation

Written evaluation of the final design solution. [5]

**[Total 80]**
