

CAMBRIDGE INTERNATIONAL EXAMINATIONS

GCE Advanced Level

MARK SCHEME for the October/November 2012 series

9705 DESIGN AND TECHNOLOGY

9705/33

Paper 3, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Page 2	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	33

Section A

Part A – Product Design

- 1 (a)** description of process
- fully detailed 3–5
 - some detail, 0–2
- quality of sketches up to 2
7 x 2 [14]
- (b)** vacuum forming
- range of colours
 - quick process
 - no finishing required
- drilling and boring
- Cylindrical material removal
 - accurate
 - single machine operation
- edged and veneered
- attractive
 - dimensionally stable
 - reduced weight/cost
 - environmentally friendlier 3 x 2 [6]
- [Total: 20]**
- 2 (a)** suitable material including:
- Aluminium/brass
 - MF, ABS
 - Appropriate hardwood 1
- Reasons including:
- Quality of finish – colour/attractive grain/texture
 - Easy to machine
 - Scratch resistant 2 x 1 [3]
- (b)** description to include:
- quality of description:
- fully detailed 3–7
 - some detail, 0–2
- quality of sketches up to 2 [9]

Page 3	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	33

- (c) explanation could include:
- change in process;
 - change in materials;
 - use of jigs, formers, moulds;
 - simplification of design.

quality of explanation:

- logical, structured
- limited detail,

quality of sketches

4–6
0–3
up to 2 [8]

[Total: 20]

- 3 (a) examples could be:
- grip – width/length
 - finger / thumb operation
 - screen clarity
 - ease of opening lid

4 x 3 [12]

- (b) Discussion could include:

- cost
- increased functionality
- materials
- size/weight

examples / evidence could be

- Specific materials/components
- Specific functions

examination of issues

quality of explanation

supporting examples / evidence

3
3
2 [8]

[Total: 20]

Page 4	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	33

Part B – Practical Design

4	(a) (i) SPST, DPDT, micro, tilt name (1 mark) application (1 mark), explanation (up to 3)		[4]
	(ii) thermistor, probe name (1 mark) application (1 mark), explanation (up to 3)		[4]
	(iii) LDR, photoresistor name (1 mark) application (1 mark), explanation (up to 3)		[4]
	(b) applications – video, audio, mechanical		
	quality of explanation		
	– logical, structured/detailed		4–6
	– limited detail,		0–3
	supporting examples mp3 player, phone, tele-printer		up to 2 [8]
			[Total: 20]
5	(a) mortice and tenon (square, sloping haunch other variation) dowel. Name (1 mark) sketch (up to 2 marks)	3 x 2	[6]
	(b) Cam lock, blocks Name (1 mark) sketch (up to 2 marks)	3 x 2	[6]
	(c) benefits could be:		
	– reduce assembly time		
	– reduce costs		
	– ease transportation/storage		
	– mix and match components		
	examples / evidence could be		
	– Specific product		3
	– Modular (mix and match) opportunities		3
	examination of issues		3
	quality of explanation		3
	supporting examples / evidence		2 [8]
			[Total: 20]

Page 5	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	33

6 (a) (i)	leaf, skeleton, egg		[1]
	(ii) building, bridge, tower		[1]
(b)	monocoque – shell structure, plane fuselage, car body frame – pylon, bridge		
	examples (1 mark)	2 x 1	
	understanding of monocoque and frame comparisons	2	
		up to 4	[8]
(c) (i)	description of strut	up to 2	
	description of tie	up to 2	[4]
(ii)	triangulation		
	ties, struts		
	gusset plates		
	quality of explanation		
	– logical, structured	4–6	
	– limited detail,	0–3	[6]
			[Total: 20]

Page 6	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	33

Part C – Graphic Products

- 7 Correct planometric / scale [2]
 detail – walls / positioning [3]
 – table [4]
 – seat [3]
 – arch [5]
 – barbecue [3]

[Total: 20]

- 8 (a) materials - high density foam, (can be fabric covered), rubber composites (open cell styrene, butadiene rubber or open cell SBR) with fabric bonded to the upper surface. Accept fabric, recycled rubber tyres, neoprene, silicone rubber, leather, glass, cork, wood, aluminum, stone and stainless steel. (1 mark)

- Reasons – friction for mouse ball,
 – takes print
 – will not scratch table, desk surface (up to 2 marks) [3]

- (b) appropriate method, offset lithography, screen, gravure, flexography, transfer
 quality of description:
 – fully detailed 3–5
 – some detail, 0–2
 quality of sketches up to 2 [7]

- (c) discussion could include:
 – waste of resources
 – throw away culture/ litter
 – costs must be covered elsewhere

- examples / evidence could be
 – Specific promotion
 – Specific environmental/issue

- examination of issues 4
 quality of explanation 4
 supporting examples / evidence 2 [10]

[Total: 20]

Page 7	Mark Scheme	Syllabus	Paper
	GCE A LEVEL – October/November 2012	9705	33

- 9 (a) correct, working development 4
correct scale 2
tabs 2
accuracy/line quality 2 [10]
- (b) quality of description:
– fully detailed 5–8
– some detail, 0–4
quality of sketches up to 2 [10]

[Total: 20]
