Mark Scheme

2007 examination - June series

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this Mark Scheme are available to download from the AQA Website: www.aqa.org.uk

General Principles

- In questions where a candidate has been required to tick an answer, no credit can be given if there are too many ticks in answer to a multiple choice question. Any ticks in addition to the maximum required will be taken from the candidate's total for the questions. For example, in a question requiring a maximum of 4 ticks, if a candidate has ticked 5 boxes and three of these are correct then a mark of $3 - 1 = 2$ will be awarded.
- In multiple choice questions where candidates must choose one letter or number, they should automatically get no mark awarded if they give more than one. If the rubric instructs them to write one letter or number in the box and they do so, but write a second letter or number outside the box too, then the answer in the box should be considered.
- Where a candidate repeats the same error within a sub-question, no further penalty should be imposed in awarding a mark for Communication (= nfp).
- In awarding marks for AO3 (Knowledge of Grammar) for answers in response to the reading passages, examiners should take into account to what extent the candidate has attempted to use his/her own words. If a candidate has entirely copied from the original then this response could not be considered when awarding marks for Quality of Language.

For answers in response to the listening passages, candidates may well rely on the original spoken text. Therefore candidates can use the same wording from the original target language they hear and score marks for AO3, although there will have to be a certain amount of accuracy in spelling, and some attempt at manipulation (eg in changing the verb endings to suit the third rather than the first person).

- English spellings are not accepted unless the word is spelt the same in both languages.
- "Rubric" should be written in margin if in wrong language and give '0' (unless numbers or place names are involved).
- Where marks are awarded for Quality of Language, the principle to be applied is that the Quality of Language marks can only be awarded for successfully conveying the required content. The following principles will therefore apply:
 1. If the maximum mark for comprehension and Quality of Language is the same, the mark awarded for Quality of Language may not exceed the mark awarded for comprehension.
 2. If the maximum marks for comprehension and Quality of Language are not the same, the maximum mark which may be awarded for Quality of Language is indicated by a table (see individual questions).

Subject Specific Principles

- t.c. = tout court
 - n f p = no further penalty.

Accents

Ignore errors of accents for comprehension/communication marks but such errors should be considered when giving quality of language marks.

AVOIR/ÊTRE confusion: Do not accept e.g. il est peur but **nfp** if the error occurs again in the same idiomatic expression.

Perfect Tense: FOR COMPREHENSION. Where a verb can be used with only ONE auxiliary. Accept AVOIR for ETRE but not ETRE for AVOIR.

The assessment objectives will be allocated in the following way:

| | | % of AS | Marks |
|-----|------------------------------|---------|-------|
| AO1 | Response to spoken language | 10 | 30 |
