

A Level Further Mathematics (9231)

When was the last examination of the old A Level Further Mathematics syllabus?

The final examination for A Level syllabus (9221) was in November 2001.

When is the new syllabus available?

The new A Level Further Mathematics syllabus (9231) was first examined in June 2002; the examination is available in June and November.

What support materials are available?

Syllabus;

Specimen Question Papers and Mark Schemes;

Past question papers will be available following each examination session.

All the above are available from CIE Publications.

Which list of formulae do candidates use for the new A Level Further Mathematics examination?

Candidates for the new A Level Further Mathematics examination use the List of Formulae and Statistical Tables (MF10). The MF10 list is sent out to Centres as needed in a stationery despatch prior to the examination.

What calculators can be used in the new A Level Further Mathematics examination?

It is expected that candidates will have a calculator with standard 'scientific' functions for use in the examination. Graphic calculators will be permitted but candidates obtaining results solely from graphic calculators without supporting working or reasoning will not receive credit. Computers, and calculators capable of algebraic manipulation, are not permitted. All the regulations in the Handbook for Centres apply with the exception that, for examinations on this syllabus only, graphic calculators are permitted.
