Answer ALL questions in the spaces provided.

1.

Lara is 17 years of age and has started an Applied GCE in Health and Social Care at her local Further Education College. She hopes to become a nurse specialising in midwifery. Her closest friends are Emma, Gillian and Simone. They spend much of their time together and are often found in the college library studying and researching for their assignment work. The girls plan to live together when they go to university. Lara's parents want her to succeed. Her father owns his own business and hopes to retire after Lara has graduated.

2.

Sandra works for a health promotion agency. Her work involves going into schools and work places. She promotes a more positive attitude to health by encouraging individuals to adopt a healthier lifestyle.

One of Sandra's current projects is the Fresh Fruit in Schools campaign. The campaign aims to provide fresh fruit for all primary school children between 4–7 years of age. Sandra uses different models of health promotion. She has designed a range of activities to make the campaign more appealing to her audiences.

Describe what is meant by the 'behavioural change' model.
Not all health promotion campaigns will be successful in achieving their aims a objectives.
Explain why this might be the case.
Explain why this inight se the case.
