Leave blank

Answer ALL questions in the spaces provided.

Ali is one year old and just learning to walk. His mother Julie is 17 years of age and her boyfriend Hassim is 20 years of age. At first, Julie and Hassim lived together but now he has returned to live with his parents. This has caused arguments between Julie and Hassim.

(a) Identify the life stage of each individual in the table below.

Name of individual	Identification of life stage
Julie	
Ali	
Hassim	

(3)

(b) Puberty involves a series of physical changes which can be different in males and females. Identify **three** physical changes which are different in boys like Hassim and girls like Julie.
