HEALTH AND SOCIAL CARE

**UNIT 7: Provision of Health, Social Care and
Children's Service**

COURSEWORK ASSIGNMENT

10 hours

To be opened week beginning 3 March 2014

Teachers may give guidance from this date until the first session.

The remainder of the coursework assignment must be conducted under examination conditions.

Candidates will be allowed 10 hours to carry out the coursework assignment at the discretion of the centre.

Coursework reports must be despatched to the examiner by 15 May 2014.

UNIT 7**Provision of Health, Social Care and Children's Service****Coursework Assignment**

Choose **one** of the following assignments:

Either:

Assignment 1

Connor is a 24 year-old plumber who lives alone. In his spare time he is a keen rugby player and supporter. During a match he sustained a serious head injury which has left him with severe epilepsy.

Investigate the local health and social care provision available to support Connor immediately after his accident and to help him make as full a recovery as possible.

Or:

Assignment 2

Julie is 14 and is a looked after child. She has recently discovered she is pregnant and wants to keep the baby. Julie has no contact with her parents or the father of the child.

Investigate the local health and social care provision available to support Julie during and after her pregnancy.

On completion of your investigation you will need to submit a report. The report is limited to 2,000 words and should include:

1. (a) The aims of your chosen investigation
 (b) Investigation of:
 - The health and social care needs of the individual(s)
 - Existing services within the locality to meet the needs of the individual(s) [40]
2. Analysis of research into how the services identified meet the health and social care needs of the individual(s) with reference to:
 - Practitioner roles and how they work together to provide effective care planning
 - Quality assurance procedures
 - Effect of current national policy and legislation on service provision [35]
3. Evaluation of:
 - The effectiveness of procedures used to collect data
 - The findings of the study in relation to choice and quality of services available in the locality to meet the needs of individual(s) in terms of: demographic characteristics; access and barriers to care; national policy and funding; national and local priorities [25]

There should be evidence of primary and secondary research throughout the report. All sources of information should be referenced appropriately.
