

**ADVANCED SUBSIDIARY GCE**  
**INFORMATION AND COMMUNICATION TECHNOLOGY** **G061**  
Information, Systems and Applications

**Friday 27 May 2011**  
**Morning**

**Duration: 2 hours**

Candidates answer on the question paper.

**OCR supplied materials:**

None

**Other materials required:**

None

Candidate forename		Candidate surname	
-----------------------	--	----------------------	--

Centre number						Candidate number				
---------------	--	--	--	--	--	------------------	--	--	--	--

**MODIFIED LANGUAGE**

**INSTRUCTIONS TO CANDIDATES**

- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. Pencil may be used for graphs and diagrams only.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. Additional paper may be used if necessary but you must clearly show your candidate number, centre number and question number(s).
- Answer **all** the questions.
- Do **not** write in the bar codes.

**INFORMATION FOR CANDIDATES**

- The number of marks is given in brackets [ ] at the end of each question or part question.
- The total number of marks for this paper is **120**, of which marks are allocated to the assessment of the quality of written communication where an answer requires a piece of extended writing.
- This document consists of **20** pages. Any blank pages are indicated.

2 The committee will need a computer to organise the bookings.

(a) The computer will need to have applications software such as spreadsheet, database, word processor and desktop publisher installed.

Identify **two** other different types of software that could be installed. For each, give an example of its use by the committee.

1 .....

.....

.....

.....

.....

2 .....

.....

.....

.....

..... [4]

(b) The committee has graphics software installed on its computer.

Identify **two** tasks that the graphics software could be used to complete.

1 .....

.....

2 .....

..... [2]

(c) The committee wants to produce a leaflet advertising the hall.

Describe, using examples, how the following can affect the quality of information included in the leaflet.

Completeness .....

.....

.....

.....

Presentation .....

.....

.....

.....

Relevance .....

.....

.....

..... [6]

**(d)** The leaflet will contain headers, sections and frames.

Describe the characteristics of headers, sections and frames.

Headers .....

.....

.....

.....

Sections .....

.....

.....

.....

Frames .....

.....

.....

..... [6]

**(e)** The committee needs to transfer the leaflet between its members' computers so they can all help create it. The leaflet, including photographs, will be no more than 900MB.

**(i)** Identify an appropriate storage device that could be used to transfer the leaflet between different computers.

.....

..... [1]

**(ii)** Justify your choice of device.

.....

..... [1]

3 The committee has asked a company to create a database that it can use to store details about the hire of the hall.

(a) Describe, using examples, the role of referential integrity and attributes in databases.

(i) Referential Integrity

.....  
.....  
.....  
..... [2]

(ii) Attributes

.....  
.....  
.....  
..... [2]

(b) The data has been normalised.

(i) Give **two** characteristics of data in first normal form (1NF).

1 .....  
.....  
2 .....  
..... [2]

(ii) Give **two** characteristics of data in third normal form (3NF).

1 .....  
.....  
2 .....  
..... [2]

(c) Select the most appropriate data type for the following fields from the database. Give a reason for your choice:

House Number

.....  
.....  
.....  
.....

Price Per Hour

.....  
.....  
.....  
.....

HireID

.....  
.....  
.....  
.....

[6]

(d) Data entered into the database needs to be verified and validated.

(i) What is the purpose of verification?

.....  
..... [1]

(ii) Describe **two** different **validation** methods suitable for a telephone number.

1 .....

.....

.....

.....

.....

.....

2 .....

.....

.....

.....

..... [4]

(e) The database can have different styles of user interface.

Describe the following styles of user interface. For each, give an example of how it could be used in the database.

Command based .....

.....

.....

.....

Menus .....

.....

.....

..... [4]

(f) The database will have a tailored data entry screen.

Colour is one of the design considerations for the tailored data entry screen.

Describe **three** other design considerations for the tailored data entry screen.

1 .....

.....

.....

.....

.....

2 .....

.....

.....

.....

.....

3 .....

.....

.....

.....

..... [6]

5 The committee want to create a model to predict income from the hire of the hall over the next three years.

(a) Explain **three** advantages of using a spreadsheet to create the model.

1 .....

.....

.....

.....

2 .....

.....

.....

.....

3 .....

.....

.....

..... [6]

(b) Explain, using examples, how functions and formulae could be used when creating the spreadsheet model.

Functions .....

.....

.....

.....

Formulae .....

.....

.....

..... [4]

6 The committee has set up a website that can be used to give information about the village hall and be used to book the hall.

(a) The website uses static and dynamic queries.

Describe the difference between a static and a dynamic query.

.....  
.....  
.....  
..... [2]

(b) Potential visitors could use a search engine to find the village hall website.

(i) Give an example of a **simple** query that could be typed into a search engine to find the village hall website.

.....  
..... [1]

(ii) Give an example of a **complex** query that could be typed into a search engine to find the village hall website.

.....  
..... [1]

- 7 The committee wants to produce a letter to be sent to every household in the village letting them know about the new website.

Mail merge is to be used to personalise the letter for each recipient.

- (a) A wizard is going to be used to create the mail merge.

Describe **two** advantages of using the wizard to create the mail merge.

1 .....

.....

.....

.....

2 .....

.....

.....

..... [4]

- (b) Identify the steps that must be completed to create the mail merge.

.....

.....

.....

.....

.....

.....

.....

..... [4]

(c) The presentation could use automatic or manual transition.

Describe **two** advantages of using manual transition for the village hall presentation.

1 .....

.....

.....

.....

.....

.....

2 .....

.....

.....

.....

..... [4]

**PLEASE TURN OVER FOR THE NEXT QUESTION**

9 The data stored on the committee's computer has been stolen.

(a) The Computer Misuse Act (1990) (CMA) can be used to prosecute the thief.

Identify **three** provisions of the CMA. For each, give an example of an action that could be prosecuted under that provision.

1 .....

.....

.....

.....

.....

2 .....

.....

.....

.....

.....

3 .....

.....

.....

.....

..... [6]

(b) Describe **two** security methods the committee could implement to prevent data being stolen from its computer in the future.

1 .....

.....

.....

.....

.....

2 .....

.....

.....

.....

..... [4]

10 Identify **two** safety problems relating to the use of ICT.

For each safety problem give an appropriate different solution.

1 .....

.....

Solution .....

.....

2 .....

.....

Solution .....

..... [4]

**PLEASE TURN OVER FOR THE LAST QUESTION**

**PLEASE DO NOT WRITE ON THIS PAGE**

**Copyright Information**

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations, is given to all schools that receive assessment material and is freely available to download from our public website ([www.ocr.org.uk](http://www.ocr.org.uk)) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.
