PHED1: Additional Sample Questions

## ADDITIONAL SAMPLE QUESTIONS

PHED 1 is the examination paper that candidates will be taking. It is anticipated that PHED 1 examination questions will be similar to PED 1 and PED 2 questions with the proviso that several topic areas are different/missing/additional, and that PHED 1 will contain a proportion of questions that relate to the candidate's ability to demonstrate knowledge and understanding in physical activity (assessment objective 01).

That being said, past examination papers for PED 1 and PED 2 will provide a rich source of suitable revision questions. A list of where suitable questions might be found is in the following table
