The candidate will be assessed by her teacher according to the criteria provided and the relevant marking boundaries. The candidate will provide video evidence of her performance. The teacher in charge of the A/AS Level will also watch the candidate dance.

## **SAFETY**

The activity is fully compliant with BAALPE's safety recommendations.

## **PERSONAL PERFORMANCE PORTFOLIO**

The candidate is able to link her practice and performance sessions to each area of the course, identifying strengths and weaknesses, devising an action plan for improvement and evaluating that improvement.

The candidate's activity links with all other modules of the course.

## **AS (2564)**

### **ASSESSMENT**

The candidate is assessed on their ability to choreograph and perform a dance with a partner with the use of music as a sound stimulus lasting between two and three minutes. The dance must include the following technical elements:

- Turns/spins
- Chasse
- Walks

Candidates will produce a written programme prior to assessment. This programme must be available at moderation.

Assessment is based on performance in a conditioned competitive situation where the candidate performs the acquired and developed skills under pressure in a strategic situation. The level of success of the acquired and developed skill is measured through the movement phases identified below:

- Shape  
style and aesthetic quality  
consistency and maintaining ambience throughout  
control – movement and use of the floor  
overall efficiency
- Form  
the quality of the individual elements of the dance sequence, its accuracy as well as its conformity to regulations

- Consistency

the continuity/flow of the dance sequence

the aesthetic quality

the quality of the individual elements and the overall dance sequence in relation to amplitude, timing and spatial awareness

- Control

success in both the individual elements and the overall dance sequence as a whole.

These assessment phases are used in conjunction with the following assessment criteria for the conditioned competitive situations. The candidate is assessed out of a maximum of 30 marks.

**Dance Activities: Ballroom Dancing (Latin)****Unit 2564**

Marks	Description
25 – 30	Candidate demonstrates a very high level of acquired and developed skills that show a consistently high standard of accuracy, control and fluency. There is the successful selection and application of more advanced techniques where accuracy, control and fluency remain despite competitive pressures. The candidate has introduced appropriate strategies and demonstrated an understanding of composition and choreography. Performances in the conditioned competitive situations have been excellent and progress has allowed them to achieve their performance-based targets.
19 – 24	Candidate demonstrates a high level of acquired and developed skills that illustrates a very good standard of skill production. There is consistent success in the selection and application of advanced techniques in events. Under competitive pressure the level of technical accuracy, control and fluency is normally good. The candidate has shown a good understanding of the perceptual requirements to perform and introduce a range of successful compositional and choreographic strategies. Performances in the conditioned competitive situations have been very good and improvement has been such as to allow a high standard of learning and understanding.
13 – 18	Candidate demonstrates a good level of acquired and developed skills that allows for a sound standard of performances in the events. There is a sound level of success in the selection and application of advanced techniques in the events and under competitive pressure the level of accuracy, control and fluency is reliable. The candidate has been able to introduce and use sound compositional and choreographic strategies to show understanding of the performance requirements. Performances in the conditioned competitive situations have been good and improvement reflects satisfactory learning and understanding.
7 – 12	Candidate demonstrates an improving level of acquired and developed skills that allows for an average level of performances in the events. There is an attempt to select and apply advanced techniques in the events and under competitive pressure accuracy, control and fluency are usually achieved. The candidate has a perception of the requirements of performance and is able to introduce and use satisfactory compositional and choreographic strategies. Performances in the conditioned competitive situations have become more consistent and progress has allowed some learning and understanding.
0 -6	Candidate demonstrates a moderate level of acquired and developed skills that allows for a moderate level of performances. There is an attempt to select and apply advanced techniques and under pressure there is a level of technical accuracy, control and fluency. The candidate has been able to incorporate some compositional and choreographic strategies with a limited perception of the requirements of performance. Performances in the conditioned competitive situations have some consistency with a degree of learning and understanding.

## **A2 (2567)**

### **ASSESSMENT**

The candidate is assessed on their ability to choreograph and perform a formal dance with a partner with the use of music as a sound stimulus lasting a maximum of four minutes. The following regulations apply:

- no floor size requirements
- choreography and performance of a dance sequence with a partner for a maximum of four minutes
- use of music or sound stimulus
- the candidate will produce a written programme prior to assessment and moderation.

The formal dance with a partner should contain the following technical elements:

- Turns/spins
- Chasse
- Walks
- Back steps
- Change of hands

Assessment is based on performance in a fully choreographed dance with a partner where the candidate performs the acquired and developed skills under pressure in a strategic situation. The level of success of the acquired and developed skill is measured through the movement phases identified below:

- **Shape**  
style and aesthetic quality  
consistency and maintaining ambience throughout  
control – movement and use of the floor  
overall efficiency
- **Form**  
the quality of the individual elements of the dance sequence, its accuracy as well as its conformity to regulations
- **Consistency**  
the continuity/flow of the dance sequence  
the aesthetic quality  
the quality of the individual elements and the overall dance sequence in relation to amplitude, timing and spatial awareness
- **Control**  
success in both the individual elements and the overall dance sequence as a whole.

These assessment phases are used in conjunction with the following assessment criteria for the formal choreographed dance with a partner.

There is the successful selection and application of more advanced techniques where accuracy, control and fluency remain despite performance pressures. The candidate has introduced strategies at a high level and demonstrated an understanding of sequence composition and choreography. Performances in the formal performance situations have been excellent and progress has allowed them to achieve their performance-based targets.
