## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

This generic mark scheme is to be used in conjunction with the question specific indicative mark schemes which follow. A response will be read to identify the band of the questions specific indicative mark scheme into which the response falls. The descriptors within the generic mark scheme will then be used to determine the precise mark for the response.

### **Assessing Quality of Written Communication**

QWC will have a bearing if the QWC is inconsistent with the communication element of the descriptor for the level in which the candidate's answer falls. If, for example, a candidate's Religious Studies response displays mid Level 3 criteria but fits the Level 2 QWC descriptors, it will require a move down within Level 3.

### Assessment Objective 1

Select and demonstrate clearly relevant knowledge and understanding through the use of evidence, examples, and correct language and terminology appropriate for the course of study. Candidates should also demonstrate knowledge and understanding of the connections between different elements of their course of study.

## Assessment Objective 2

**expressed viewpoint in relationship to religion and human experience; expressed accurately and fluently, using a range of technical vocabulary.**

**The skills needed to produce convincing extended writing in place. Good organisation and clarity. Very few syntactical and/or spelling errors may be found. Excellent organisation and planning.**

**Low Level 4: 16 marks**

a critical assessment of the viewpoint(s) expressed in the passage; supported by coherent discussion and typically based on an analysis of alternative approaches; leading to a clearly expressed point of view justified by reasoning and evidence; a consideration of some possible implications of the expressed viewpoint for religion and human experience; focused response to the task, expressed carefully with frequent use of technical language

**Mid Level 4: 17-18 marks**

a sound attempt at an evaluation of the viewpoint(s) expressed in the passage; supported by coherent and reasoned discussion; typically based on a critical analysis of alternative approaches; leading to a clearly expressed point of view justified by careful reasoning and evidence; discussion of potential consequences of the point of view for religion and human experience; extensive response to the task, expressed fluently with wide use of technical language

**High Level 4: 19-20 marks**

a comprehensive response to the task; a careful, critical evaluation of the viewpoint(s) expressed in the passage; based on a detailed analysis and reasoned discussion of alternative approaches; leading to a cogently justified point of view; an attempt to analyse potential consequences of the point of view in relation to religion and human experience; expressed clearly and concisely with skilful use of technical language

Each level descriptor above concludes with a statement about written communication.

These descriptors should be considered as indicative, rather than definitional, of a given level. Thus, most candidates whose religious understanding related to a given question suggests that they should sit in a particular level will express that understanding in ways which broadly conform to the communication descriptor appropriate to that level.

However, there will be cases in which high-order thinking is expressed relatively poorly. It follows that the religious thinking should determine the level. Indicators of written communication are best considered normatively and may be used to help decide a specific mark to be awarded within a level. Quality of written communication which fails to conform to the descriptor for the level will depress the award of marks by a sub-band within the level. Similarly, though not commonly, generalised and unfocused answers may be expressed with cogency and even elegance. In that case, quality of written communication will raise the mark by a sub-band.
