## Mark Scheme

*2005 examination - June series*

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

## Unit 1

The assessment objectives will be allocated in the following way.

		% of AS	Marks
AO1	Response to spoken language	10	30
AO2	Response to written language	15	45
AO3	Knowledge of grammar	10	30
	<b>TOTAL</b>	35	105

The marks will be allocated in the following way

	AO1	AO2	AO3
Short listening pieces	15		
Longer listening pieces	15		10
Short reading texts		25	10
Longer reading text		20	10

## General Principles

- In questions where a candidate has been required to tick an answer, no credit can be given if there are too many ticks in answer to a multiple choice question. Any ticks in addition to the maximum required will be taken from the candidate's total for the questions. For example, in a question requiring a maximum of 4 ticks, if a candidate has ticked 5 boxes and three of these are correct then a mark of  $3 - 1 = 2$  will be awarded.
- Where a candidate repeats the same error within a question, no further penalty should be imposed in awarding a mark for Communication.
- In awarding marks for AO3 (Knowledge of Grammar) for answers in response to the reading passages examiners should take into account to what extent the candidate has attempted to use his/her own language. If a candidate has entirely copied from the original then this response could not be considered when awarding marks for Quality of Language.

For answers in response to the listening passages candidates may well rely on the original spoken text. Therefore candidates can use the same wording from the original target language they hear and score marks for AO3, although there will have to be a certain amount of accuracy in spelling, and some attempt at manipulation (eg in changing the verb endings to suit the third rather than the first person).

- English spellings are not accepted unless the word is spelt the same in both languages.
- Where marks are awarded for Quality of Language, the principle to be applied is that the Quality of Language marks can only be awarded for successfully conveying the required content. The following principles will therefore apply:
  1. If the maximum mark for comprehension and quality of language is the same, the mark awarded for Quality of Language may not exceed the mark awarded for comprehension.
  2. If the maximum marks for comprehension and quality of language are not the same, the maximum mark which may be awarded for Quality of Language is indicated by a table (see individual questions).

**Part A**

1.

		<b>Reject</b>
(a)	3-8 Nov

**15 marks (AO1) + 5 marks for Quality of Language = 20 marks**

The five marks for Quality of Language (AO3) for questions (a) to (i) will be applied as follows:

**NB. Where there is nothing of relevance in the answer to the question set, no marks will be awarded for knowledge of grammar.**

5	The manipulation of most structures is good and examples of complex language are frequently used. There are still a few inaccuracies but these tend to occur in the more complex structures.
4	The manipulation of basic structures is generally sound with some examples of more complex structures but these mostly result in increased inaccuracy.
3	There is some awareness of structure. There are still basic errors but communication is generally maintained.
2	The level of manipulation of structures and the number of errors make comprehension difficult.
0-1	Shows little or no grasp of grammatical structure. Errors are such that communication is seriously impaired.

Only answers marked correctly for comprehension can be considered for AO3.
