La familia chilena

Según un informe reciente, la familia chilena de hoy se enfrenta a varios cambios demográficos y estructurales. Se están diversificando los tipos de familias y está aumentando el número de hogares monoparentales. Muchas parejas deciden retrasar la maternidad y paternidad o simplemente no tener hijos.

La creciente incorporación de las mujeres al mercado laboral y el proceso de envejecimiento de la población han llevado a que, tanto hombres como mujeres, tengan que cuidar de la familia. Las parejas comparten cada vez más los distintos papeles tanto en el trabajo como en el hogar.

El fútbol es un deporte de tradiciones y uno de los pocos que se resisten al uso de la tecnología para arbitrar los partidos. Hay tanta pasión en este deporte que la fría tecnología no se acepta fácilmente.

El comentarista José Petón cree que la tecnología se acabará instalando en el fútbol, pero no cambiará la esencia del juego. Según Petón: "Es un deporte rápido. Aunque el uso de las cámaras lo haga un poco más lento, yo prefiero que el resultado sea un juego más justo".

Los efectos del estrés

Que las vacaciones son buenas para la salud no es ninguna novedad. Sin embargo, un estudio reciente ha asegurado que sólo cinco días de reposo disminuyen la angustia que provoca el estrés. Lo que quizá no sepas es que, además, repercuten positivamente en los genes y hasta retrasan el envejecimiento.

Según la doctora Teresa Roldán, para obtener estos beneficios antiestrés basta menos de una semana de vacaciones sin hacer otra cosa que descansar. Si se dedican estas jornadas a la meditación, tu organismo te lo agradecerá durante más tiempo.

La huelga del Metro de Madrid

En junio de 2016, los trabajadores del Metro de Madrid fueron a la huelga para manifestarse en contra de la falta de personal. Los sindicatos protestaban porque, en los últimos años, se habían perdido 330 puestos de trabajo. Para los viajeros, las mayores incomodidades fueron los retrasos y los andenes abarrotados.

Durante la huelga, muchos viajeros como Álvaro decidieron adelantar su horario habitual. "Como ayer llegué tarde, hoy no tuve más remedio que venir en coche. Fue un desastre porque había muchos atascos y tardé media hora en encontrar estacionamiento".

Predicciones para el tiempo en España

En el sur de España, este invierno será el segundo más cálido desde 1965, según la Agencia de Meteorología. En esta primavera existe una probabilidad grande de que la temperatura alcance valores superiores a los normales en Andalucía, con riesgo de sequía en algunas partes.

En cuanto a las precipitaciones, se prevé una ligera posibilidad de que sean superiores a lo normal en el norte de España. En la costa este no se apreciarán diferencias climatológicas importantes. Al contrario, en las Islas Canarias habrá vientos huracanados.
