Unit **F724**: Listening, Reading and Writing 2

Mark Scheme for January 2012

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, OCR Nationals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

Abbreviations and conventions used in the detailed Mark Scheme.

- / Alternative and acceptable answers for the same marking point
- () Words which are not essential to gain the mark
- Underlined words must be included to gain the mark

Subject-specific Marking Instructions

- You should print out a copy of the paper and work through it yourself (using the transcript for the Listening activities which you can find at the end of the Mark Scheme, if the audio version is not available on the portal.) You will need a copy of the written texts to refer to during the marking process in order to spot excessive lifting in Section B. You must have a copy of the essay titles in front of you as you mark the essays. The texts will not appear automatically on your marking screen.
- The award of marks is not necessarily dependent on the specific wording in the detailed sheets which follow. Other wordings will score the marks, provided they are semantically equivalent. If the language used by the candidate conveys meaning and also answers the question, then the mark(s) should normally be credited for comprehension (c.f. "sympathetic native speaker/sympathetic examiner"). Use your professional judgement to apply the marking principles given in this mark scheme but if you are still in doubt about the validity of any answer, then consult your Team Leader by phone, the messaging system within SCORIS or e-mail.
- Language marks: These are assessed separately – Grids C.1, C.2 and F.2 – See guidance in the detailed sheets below.
- Where candidates give alternative answers, only the first one written, or the one on the line should be marked.

Section A: Listening and Writing**Task 1:**

- Each question will be scanned individually (questions with more than one element will appear twice/three times as appropriate)
- For single mark questions no annotation is necessary – just enter 1, 0 or NR.
- There is no need to use a cross (**X**) for an answer that is clearly incorrect. Use it when you have had to think and decided not to award the mark or when a word in the response invalidates an otherwise acceptable answer.
- You may also use the highlighter tool to show harmless additions.

QoL: Read response again and assess for language.

- **Annotations:** you may use the underlining tool (--) to show language errors if you find it makes it easier to apply Grid C.2, but it is not essential.
- **Grid C.2:** Key words have been highlighted in the Grid. Remember that this grid is also used to assess accuracy at A2. Identify the band which best matches the performance. If you identified the band without hesitation you must award the higher of the two marks.

| GRID C.1 | | ACCURACY OF LANGUAGE (ACCURACY) 5 marks AO3 |
|----------|--|--|
| 5 | | Characterised by a high and consistent level of accuracy in use of complex structures, although there may be some errors. |
| 4 | | Language generally accurate. Shows a sound grasp of AS and/or A2 structures, as appropriate. Generally correct use of complex structures. Tenses and agreements good, although there may be some inconsistency and errors in more complex areas . |
| 3 | | Shows evidence of fair understanding of grammatical usage . Generally accurate use of simple sentence structures . Some correct use of complex sentence structures. The performance is likely to be patchy and inconsistent . |
| 2 | | Evidence of gaps in basic grammar . Frequent errors of an elementary kind (endings, verb forms, gender of common nouns, adjectival agreements) but evidence of correct use of simple sentence structures . Vocabulary and structures may be quite strongly influenced by the candidate's first language. |
| 0–1 | | Little evidence of grammatical awareness. Persistent , serious and elementary errors (endings, verb forms, gender of common nouns). Frequent first language interference. |

Section B: Reading and Writing

In Section B there are 5 marks for Quality of Language.

Task 3

| Question | | Answer | Marks | Guidance |

| 5 | (a) | | 14% = E | 1 | | |
| | (b) | | 26% = A | 1 | | |
| | (c) | | 38% = F | 1 | | |
| | (d) | | 96% = C | 1 | | |

Task 6**Task specific guidance**

- Each question will be scanned individually (questions with more than one element will appear twice/three times as appropriate).
- Familiarize yourself with the text and have a copy to hand so that you can easily spot instances of lifting from the original. The text will not appear on the screen.
- Go through all the responses and assess every question for **comprehension**.
 - a. Marks are awarded on a point by point basis, according to the mark scheme.
 - b. Minimal (additional) irrelevance can be ignored BUT mindless copying (often long chunks) results in no marks for comprehension or QoL
 - c. For comprehension / content, remember that you are a “sympathetic native speaker / sympathetic examiner”. If language interferes slightly but it is clear that the candidate has understood, give the mark for content / comprehension (unless there is ambiguity or it is gibberish). Limited ability to use language will be reflected in the mark awarded under grid C2. If appropriate, candidates may answer with single words / short phrases.
- **Annotations:**
 - Award 1, 0 or NR without annotation.
 - Use a tick (✓) to indicate a mark awarded on any question where the answer is more than one mark.
 - Use a cross (x) when a word in the response invalidates an otherwise acceptable answer.
 - Even if the answer is lifted verbatim from the text, **as long as it is a direct answer**, award the comprehension mark but highlight and exclude from Quality of Language assessment.

Task 7: Transfer of Meaning

Award two marks per translated section according to the grid below. The grid assesses Transfer of Meaning into English. Note that this grid integrates *Quality of Written Communication Strand (i)* descriptors.

| GRID H.2 | TRANSFER OF MEANING 10 marks AO2 |
|---------------------------|---|
| 2 | Accurate transfer of meaning. Faultless or virtually faultless grammar, punctuation and spelling in English. |
| 1 | Inconsistent transfer of meaning. Mostly accurate but there are errors and/or missed details. There are instances of error in grammar, punctuation and spelling in English. |
| 0 | Very limited transfer of meaning. A substantial number of elements misunderstood or missing. Significant error in grammar, punctuation and spelling in English. |

Notes to Grid H.2 Exceptional responses and marks to award:

1. Candidates may answer in **faultless English but may not transfer meaning accurately**. Award either **0 or 1 mark**, depending on level of inaccuracy in meaning.
2. The **transfer of meaning is accurate but contains significant spelling and/or grammar errors**. Award **0 or 1 mark**, depending on level of inaccuracy of English.

Assessing **Quality of Language** across Section B

- a. You will get a separate screen which will be the whole page for exercise 3, 5, 6, 7, 9 and 10 (unannotated). Read all the answers again. You may use the green L marking tool to highlight good language to assist you in the application of Grid C.1. but it is not essential.
- b. Apply Grid C.1 and enter the mark.
- c. PE to provide specific guidance on which exercises in Section B will provide best evidence for Quality of Language.

| GRID C.1 | | ACCURACY OF LANGUAGE (ACCURACY) 5 marks AO3 |
|-----------------|--|--|
| 5 | | Characterised by a high and consistent level of accuracy in use of complex structures, although there may be some errors. |
| 4 | | Language generally accurate. Shows a sound grasp of AS and/or A2 structures, as appropriate. Generally correct use of complex structures. Tenses and agreements good, although there may be some inconsistency and errors in more complex areas. |
| 3 | | Shows evidence of fair understanding of grammatical usage. Generally accurate use of simple sentence structures. Some correct use of complex sentence structures. The performance is likely to be patchy and inconsistent. |
| 2 | | Evidence of gaps in basic grammar. Frequent errors of an elementary kind (endings, verb forms, gender of common nouns, adjectival agreements) but evidence of correct use of simple sentence structures. Vocabulary and structures may be quite strongly influenced by the candidate's first language. |
| 0–1 | | Little evidence of grammatical awareness. Persistent, serious and elementary errors (endings, verb forms, gender of common nouns). Frequent first language interference. |

Task 11-18**Task specific guidance**

Mark one essay using the grids N, O, C.2 and F.2.

If a candidate has written more than one essay mark both essays in the normal way but enter the mark for the essay which has earned most marks over all.

Task 11-18 – Language (QoL) – Grids C.2 and F.2: [20 marks]

| Question | Answer | Marks | Guidance |
|------------|--|-------|--|
| Task 11-18 | Assess for Quality of Language using Grids C.2 and F.2 Appendix 1 | [20] | <p>Read the whole response again and assess for Range (Grid F.2) first – i.e. vocabulary and structures. Then assess for Accuracy (Grid C.2). Key words have been highlighted in the grids below. Ignore final sentence of 3-4 band in Grid C.2, because vocabulary and structures have already been assessed under Grid F.2. If you wish, you may use the underlining tool (--) to show language errors if you find it makes it easier to apply Grid C.2, but it is not essential. Enter your mark.</p> <p>Grid C.2 guidance</p> <p>0–2 – Errors ([e.g.] endings, verb forms, gender of common nouns). APPENDIX 1

| GRID N | RELEVANCE AND POINTS OF VIEW 10 marks AO2 | GRID O | STRUCTURE AND ANALYSIS 15 marks AO2 |
|--------|--|--------|--|
| 9–10 | Consistently relevant information that supports points of view and opinions. Shows genuine insight in responding to the task. | 13–15 | The response displays genuine control and clarity. A very well-developed argument. Confident ability to develop an argument, analyse and evaluate, and draw conclusions. |
| 7–8 | Relevant information that responds to the requirements of the task and is used to support points of view and opinions. Produces an imaginative and/or original response to the task. | 10–12 | Coherently structured and organised response. Points of view are linked in a logical sequence . Able to develop an argument , analyse and evaluate, and draw conclusions. |
| 5–6 | The information given is mainly relevant to the task. Points of view and opinions are generally supported by some factual evidence. May demonstrate some originality and/or imagination. | 6–9 | Structured and organised response. Points of view are mostly linked in a logical sequence . Shows some ability to develop an argument, analyse and evaluate and draw conclusions. |
| 3–4 | Includes some relevant information but does not always address the requirements of the task. May have some difficulty in expressing points of view and/or narrating events and/or communicating factual information. | 3–5 | Shows some ability to structure and organise the response. Limited ability to develop an argument , analyse and evaluate, and draw conclusions. |
| 0–2 | The response to the task is likely to be very short and/or irrelevant and/or very superficial. | 0–2 | Random organisation of the response. Limited attempt to develop an argument , analyse and evaluate, and draw conclusions. |

| GRID C.2 | QUALITY OF LANGUAGE (ACCURACY) 10 marks AO3 | GRID F.2 | QUALITY OF LANGUAGE (RANGE) 10 marks AO3 |
|----------|--|----------|--|
| 9–10 | Characterised by a high and consistent level of accuracy in use of complex structures, although there may be some errors . | 9–10 | Effective and confident use of a wide range of vocabulary and idiom with a variety of complex sentence structures . |
| 7–8 | Language generally accurate . Shows a sound grasp of AS and/or A2 structures, as appropriate. Generally correct use of complex structures . Tenses and agreements good, although there may be some inconsistency and errors in more complex areas. | 7–8 | Effective use of a range of vocabulary and structures appropriate to the task, with little repetition. A positive attempt to introduce variety and to use a range of complex sentence structures (though not always able to maintain correct usage). |
| 5–6 | Shows evidence of fair understanding of grammatical usage. Generally accurate use of simple sentence structures . Some correct use of complex sentence structures . The performance is likely to be patchy and inconsistent . | 5–6 | Attempts to extend the range of vocabulary , though still rather repetitive. Attempts to use more complex language with some success in producing a range of syntax and sentence structures appropriate to the task. |
| 3–4 | Evidence of gaps in basic grammar. Frequent errors of an elementary kind (endings, verb forms, gender of common nouns, adjectival agreements) but evidence of correct use of simple sentence structures. Vocabulary and structures may be quite strongly influenced by the candidate's first language. | 3–4 | Use of a restricted range of vocabulary and structures. Frequent repetition of the same words and phrases. Some attempt (not necessarily successful) at the use of more complex sentence structures. |
| 0–2 | Little evidence of grammatical awareness. Persistent, serious and elementary errors (endings, verb forms, gender of common nouns). Frequent first language interference. | 0–2 | Only simple sentence patterns . Very limited vocabulary . Very limited range of structures . |

APPENDIX 2**Transcripts of Listening Texts**

Note for Document production team: This section of the mark scheme must stay in Portrait format until after the standardisation meeting.

Task 1**Helping the socially disadvantaged**

(M) A la hora de comprar entradas de cine, todos somos conscientes de esas tarifas reducidas que hay para ciertos grupos, tales como niños o pensionistas. Y efectivamente hay muchos establecimientos que ofrecen esos precios interesantes a los que viven con ingresos limitados.

Para ayudar a tales personas en nuestra sociedad, tampoco me sorprende que haya varios proyectos no comerciales. Por ejemplo conozco una óptica en Madrid que proporciona gafas para pensionistas a unos precios muy asequibles.

Todo esto representa una manera bien conocida de evitar la exclusión social. Pero en Córdoba está pasando algo diferente: es que los responsables de una cadena de supermercados – sí, lo oyó Vd. bien, de una cadena de supermercados - pusieron en marcha una campaña de reducción de precios dirigida a aquellas personas o familias que no pueden hacer frente a esos gastos que son esenciales para sobrevivir.

Para informarnos más sobre el asunto, nos habla Silvia González, responsable de relaciones públicas para la cadena:

(F) Es que... se quiera o no, comer hay que comer para continuar viviendo; pero no es menos cierto que las familias españolas están recortando el presupuesto para la compra.

Por eso hemos querido establecer unos «precios sociales» en productos de primera necesidad para los parados, jubilados y familias numerosas. Claro que no basta con ser parado, jubilado o familia numerosa, hay que acreditar que se está en esta situación con la cartilla del paro, el carné de pensionista o el libro de familia numerosa. Solo entonces se aplicará el descuento del cinco por ciento.

(M) Gracias, Silvia. Y termino destacando que esta campaña tan solo se llevará a cabo en uno de los supermercados de la cadena, el que se encuentra en la avenida Buendía, al ser el que más superficie tiene con más de 2 000 metros cuadrados de tienda.

Task 2**La empresa *Jeanologia* y su tecnología revolucionaria para los pantalones vaqueros**

(F) Una pregunta para haceros pensar: ¿cuál es el impacto medioambiental de un producto tan normal como los pantalones vaqueros?

Pues cuando se analiza la producción de esta prenda de vestir, la sorpresa es que el 70% de la energía se usa durante el proceso de lavar y acabar el artículo. Lo más común es que los vaqueros pasen por un proceso manual usando piedras o arena para dar el aspecto deseado.

En las fábricas que usan estas técnicas tradicionales, los jefes llevan años aceptando que los empleados se ausenten del trabajo, y esto es la consecuencia directa de los problemas musculares y respiratorios causados por los mismos materiales que usan en su trabajo. Sin embargo se estima que muchas fábricas mantienen este método tradicional para la producción del 80 por ciento de los jeans en este momento, principalmente en países asiáticos.

Todos los especialistas comprenden ahora que es un proceso peligroso también para el medio ambiente por el uso de cantidades excesivas de energía.

Ahora, la empresa *Jeanologia*, establecida en 1994 en Valencia, se especializa en investigación y desarrollo de nuevas técnicas de producción. Esta empresa ha desarrollado innovadoras tecnologías que favorecen claramente la salud de los operarios y benefician el medioambiente de todos nosotros, y todo esto con un consumo energético reducido en la fábrica.

En las tecnologías de *Jeanologia*, cabe destacar el uso de un láser para crear el aspecto gastado de los jeans, reduciendo los tiempos de producción. Además el láser no provoca problemas musculares o respiratorios al usuario de la máquina. En suma, una tecnología más eficaz que pone fin a los problemas de salubridad.

Lo que es más, en el 2009 esta empresa valenciana lanzó al mercado su nueva tecnología G2: una eco-lavadora que permite lavar los jeans tan solo con aire, sin la utilización ni de agua ni de jabón.

Esta tecnología avanzada trae otras importantes ventajas para el medio ambiente por la falta de contaminación. La máquina transforma el aire de la atmósfera en gases que usa para obtener así el perfecto lavado de los vaqueros. Además, después del lavado esta tecnología permite que esos gases vuelvan a convertirse en aire limpio; y luego esos mismos gases se devuelven a la naturaleza sin ningún daño para el medio ambiente.

Los beneficios medioambientales son espectaculares: si toda la industria textil utilizara esta nueva tecnología se ahorrarían millones de kilovatios anuales. Y además se conservaría el equivalente de toda el agua que consumen los españoles en ocho meses. No nos sorprende entonces que *Jeanologia* cuente ya con clientes en los 5 continentes y en 42 países, ni que la exportación represente el 90% de sus ganancias.
