ACCOUNTING 9706/43

Paper 4 Problem Solving (Supplementary Topics)

May/June 2013

2 hours

Additional Materials: Answer Booklet/Paper

#### **READ THESE INSTRUCTIONS FIRST**

If you have been given an Answer Booklet, follow the instructions on the front cover of the Booklet.

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

Answer all questions.

All accounting statements are to be presented in good style.

International accounting terms and formats should be used as appropriate.

Workings should be shown.

You may use a calculator.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

1 Kaunus plc was formed on 1 January 2010. On that day the company issued 200 000 ordinary shares of \$1.00 each at a premium of \$0.25 and issued 150 000 redeemable preference shares of \$1.00 at a premium of \$0.10. The company also issued \$100 000 6% debentures redeemable on 1 January 2013.

The following information is available:

- 1 The company has been trading profitably and at 1 January 2012 had retained earnings of \$80 000.
- 2 The company made a profit of \$140 000 for the year ended 31 December 2012.
- 3 The net book value of the company's non-current assets at 31 December 2012 was \$305 000. Included in this figure was land which had increased in value at 31 December 2012 by \$10 000.
- 4 At 31 December 2012 the company had net current assets made up of cash and cash equivalents of \$440 000.

On 1 January 2013 the following transactions were completed:

The 6% debentures were repaid in full at par.

The redeemable preference shares were redeemed at a premium of \$0.30 each.

A rights issue of 1 new ordinary \$1.00 share for every 2 ordinary shares held at a price of \$1.10 per share was fully subscribed.

#### **REQUIRED**

- (a) Prepare the company's statement of financial position at 1 January 2010 immediately after issuing the shares and debentures. [6]
- (b) Prepare a statement showing the movement in the company's cash and cash equivalents on 1 January 2013 after completing the above transactions. [5]
- (c) (i) Calculate the amount to be shown as a capital redemption reserve in the company's statement of financial position on 1 January 2013. [4]
  - (ii) Calculate the amount of share premium arising on the rights issue of new ordinary shares on 1 January 2013. [2]
- (d) Prepare a statement to show the changes in retained earnings for the period from 1 January 2012 to 1 January 2013 inclusive, after completing the transactions which occurred on that date.
- (e) Prepare the company's statement of financial position at 1 January 2013 after completing the above transactions. [12]
- (f) Explain for what purposes the following balances may be used:

(i) the share premium account [2]

(ii) the retained earnings. [2]

[Total: 40]

2 Winston is a sole trader. He provides the following financial information in respect of his business.

## Income statement for the year ended 31 December 2012

	\$000
Sales	3380
Cost of sales	(2000)
Expenses	<u>(1200</u> )
Profit for the year	180

## Statements of financial position at:

	31 Decei \$000	mber 2011 \$000	31 December 2012 \$000 \$000
Non-current assets Freehold land Plant and machinery at cost Less: depreciation Net book value	900 (500)	2000 <u>400</u> <u>2400</u>	3500 1020 (470) 550 4050
Current assets Inventory Trade receivables Cash and cash equivalents		310 240 <u>10</u> 560	320 210 <u>-</u> <u>530</u>
Current liabilities Trade payables Bank overdraft		200  200	160 <u>530</u> <u>690</u>
Non-current liability – loan		500	350
Net assets		<u>2260</u>	<u>3540</u>

## **Additional information**

- 1 During the year the land was revalued by a professional valuer.
- 2 During the year Winston purchased new plant at a cost of \$200 000. He also sold some plant that had a net book value of \$20 000 and had been depreciated by \$60 000. This resulted in a loss on disposal of \$2000.

#### **REQUIRED**

(a) Calculate Winston's drawings for the year ended 31 December 2012. [4]

**(b)** Prepare a statement of cash flows for the year ended 31 December 2012. [16]

(c) Explain why Winston has an overdraft at the end of 2012, despite making a profit for the year. [5]

Winston has been given \$250 000 in cash by his uncle. He is considering investing the money and has two options:

- 1 To invest the money in a bank deposit account which currently pays interest at 3% per annum.
- 2 To purchase shares in either company A or company B.

He has calculated the following ratios for company B:

Gearing 40% Interest cover 2 times Dividend yield 5%

He has obtained the following financial information regarding company A:

Share capital 1 million ordinary shares of \$1 each Total equity \$2 625 000 10% debenture \$500 000 Profit for the year before tax \$200 000 Dividends for the year \$150 000 Current market price of the share \$4.00

#### **REQUIRED**

(d) Calculate the same ratios for company A from the information provided. [9]

(e) Advise Winston how he should invest the \$250 000. [6]

[Total: 40]

3 Gladwall Ltd makes one product. Budgeted information is as follows:

Per unit

Selling price \$55

Direct materials 4 kilos at \$5 per kilo Direct labour 2 hours at \$9 per hour

During April 10 000 units were produced and sold. The following variances arose from the production and sales:

	\$	
Sales price variance	20 000	favourable
Materials price variance	8 400	favourable
Materials usage variance	10 000	adverse
Labour rate variance	2 050	adverse
Labour efficiency variance	4 500	adverse

#### **REQUIRED**

(a) State the formula used to calculate **each** of these **five** variances. [5]

(b) Calculate, for April, the actual:

- (i) selling price per unit [2]
- (ii) quantity of materials used in total [2]
- (iii) material price per kilo [3]
- (iv) number of labour hours worked in total [2]
- (v) labour rate paid per hour. [3]
- (c) Starting with the original total budgeted contribution, calculate the actual total contribution for the month.
- (d) For each event listed below identify which variance would be affected and give **one** example of a variance which might arise. State whether the effect would be favourable or adverse.
  - (i) Theft of raw materials
  - (ii) Changing suppliers making raw materials more expensive
  - (iii) Giving sales discounts for bulk buying
  - (iv) Investment in more reliable machinery
  - (v) Use of higher grade raw materials
  - (vi) Decrease in overtime hours. [12]

IAS 2 defines cost as cost of purchase or cost of conversion.

# **REQUIRED**

(e) Give two examples of cost of purchase and two examples of cost of conversion. [4]

[Total: 40]
