Cambridge International Advanced Subsidiary and Advanced Level

## MARK SCHEME for the October/November 2014 series

# 9706 ACCOUNTING

9706/22

Paper 2 (Structured Questions – Core), maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

#### Bill and Charles

Calculation of partnership profit for the year ended 31 December 2013

Decrease in current account balances: Bill (\$17000 – 2160) Charles (\$18000 + 2800)	(14840) <b>(1cf)</b> (20800) <b>(1cf)</b> (35640)
Add: drawings (2 × \$24 000)	48 000 <b>(1 + 1)</b>
Profit for the year	12360 (1of) no aliens

Alternative answer – Profit for the year – 83 640 (4)

If calculation includes capital accounts treat as alien and no own figure marks for profit for the year.

If only one partner is considered maximum of 2 marks (opening balance and drawings). Award 2 marks for drawings irrespective of direction.

[5]

Bill's balance b/d may be shown as 120 000 + 24 000. Still award 1 mark for both partners' opening balances. Must be T account format or three column running balance.
