
Sample Assignment: Unit 11 Interactive Multimedia Products

ASSIGNMENT 2: WELCOME TO MY SCHOOL/COLLEGE

This assignment will allow you to meet all of the assessment requirements for Unit 11: *Interactive Multimedia Products*. You should look at the Assessment Evidence Grid to check what you need to demonstrate in each task to achieve each mark band.

Produce an interactive, non-linear multimedia presentation that could be used to welcome new students (either Year 7 or Year 12) to your school or college. The multimedia presentation should include text, graphics, video and sound.

Your work must include:

- (i) A report describing and evaluating the design and structure of two interactive multimedia products. This report should make it clear how each multimedia product has influenced the design of the multimedia product.
- (ii) Two clear and detailed design plans for a multimedia product along with a critical analysis of these designs. This analysis should discuss the strengths and weakness of each design.
- (iii) A multimedia product that makes effective use of design, layout and interactive features.
- (iv) A diary of how the final multimedia product was created, which identifies the range of ICT skills that have been used and how these skills had to develop whilst the product was being created.
- (v) A detailed test plan along with evidence of thorough testing of the final multimedia product in line with that test plan to confirm that the product meets the initial design specifications; showing revisions of the product if necessary.
- (vi) Detailed user guide for the final multimedia product which makes good use of graphic images and includes detailed instructions for its use.
- (vii) A well written, detailed and critical evaluation of the final multimedia product. This evaluation should explain decisions made about the structure of the final product, why certain features were included and others were not and any improvements that could be made. This report should also include feedback from initial testing of the multimedia product by sample users. The report should be in standard English with few, if any, spelling, punctuation and grammar errors.
