
Teacher Support Materials: Unit 14 Developing and Creating Websites

NOTE FOR TEACHERS

Students need to be aware of the need for research into websites in order to inform the design and production of their final submission for this unit. Below are listed some suggestions which students may wish to pursue. However, it is likely that the final structure of students' written submissions in support of their website will be very similar irrespective of the topic chosen, as there are certain core elements that must be included in any work submitted for this unit.

Suggested Project Titles

- Looking after a dog/cat/pet in general
- My sports team
- Welcome to my school/college
- My band
- My hobby.
