General Certificate of Education Advanced Level Examination January 2010

Leisure Studies

LS12

Unit 12 Lifestyle Management

Wednesday 20 January 2010 1.30 pm to 3.30 pm

You will need no other materials.	
You may use a calculator.	

Time allowed

2 hours

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Answers written in margins or on blank pages will not be marked.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 90.
- In Question 6 you will be marked on your ability to use an appropriate form and style of writing, to organise relevant information clearly and coherently, and to use specialist vocabulary where appropriate. The legibility of your handwriting and the accuracy of your spelling, punctuation and grammar will also be considered in this question.

TOTAL	

			Answer all questions in the spaces provided.
1	(a)	(i)	Outline two components of a healthy diet.
			(2 marks)
1	(a)	(ii)	Explain why the two components that you have chosen should be included as part of a healthy diet.
			(6 marks)
			(Extra Space)

)	Managing a balanced diet can be difficult for specific groups of people. Socio-economic background, ethnicity, disability and geographical location can all make diet control problematic. People in certain types of employment and some sports participants can also face problems.
	Discuss the difficulties that one specific group of people may face when attempting to maintain a balanced diet.
	(8 mark

3 Study Figure 1.

Figure 1

Alice and Jim are a couple (aged 45 and 47) with a joint income of £75 000 per annum. They have two children, a girl, 10, and a boy, 16, both at local schools. The parents have been classified as being clinically obese and the children as overweight. The adults and the boy are smokers. As a family, they would like to take positive steps towards losing weight and giving up smoking. They do not take any significant amounts of exercise.

You are a lifestyle coach and have been employed to analyse the lifestyle of the family members and then to make recommendations towards helping them to achieve their aims of losing weight and stopping smoking.

3	(a)	Describe one method that you as lifestyle coach could use to collect information about the lifestyle of the members of the family described in Figure 1 .
		(4 marks)
3	(b)	When you have collected information about the family members' lifestyle, you need to make recommendations to them.
		Describe and justify a range of practical strategies that they could follow in order to achieve their aims.

4 Study the information in **Figure 2** below.

Figure 2

The people of Great Britain have been living longer over the past few decades but the extra years have not necessarily been lived in good health. Life expectancy and healthy life expectancy (expected years of life spent in good or fairly good health) both increased between 1981 and 2001, with life expectancy increasing at a faster rate than healthy life expectancy.

4	(a)	Discuss the possible reasons for healthy life expectancy not keeping up with life expectancy in Great Britain between 1981 and 2001.

		(6 marks)
		(Extra Space)
4	(b)	Assess how society benefits when people live longer and in good health.
•	(0)	Tissess now society centeries when people nive longer and in good nearth.

	(8 marks)
	(Extra Space)
4 (c)	Evaluate the implications for individuals of healthy life expectancy not matching
	overall life expectancy.
