UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

GCE Advanced Subsidiary Level and GCE Advanced Level

MARK SCHEME for the May/June 2010 question paper for the guidance of teachers

9700 BIOLOGY

9700/35

Paper 31 (Advanced Practical Skills 1), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	GCE AS/A LEVEL – May/June 2010	9700	35

Question	Expected Answers		Additional Guidance	Marks
	e sentences: If the plant tissue . so that it becomesdense.	water then the sucrose	solution will become more dilute. TI	nis will change
ACE conclusion 1	loses and less;			[1]
(ii) Show clearly	on the diagrams below how yo	ou would expect to see the o	drop move.	
ACE conclusion 2	(same concentration/middle to drop stays at same height/no			[1]
	(more concentrated/left tube) shows drops/sinks/falls	(less concentrated/right tube) AND rises;		[1]
	e concentrations of sucrose so .0 mol dm ⁻³ sucrose solution; v		elow to show concentrations of sucr	ose solution;
MMO	three concentrations;			[1]
decisions 3	even range;			[1]
	correct volumes to make 50 cm ³	AND correct molarity;		[1]

Page 3	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2010	9700	35

Question	Expected Answers		Additional Guidance	Marks
(iv) Prepare	the space below to record your	observations.		·
PDO recording 3	table with cells drawn no outer boundary	(heading to top/left) AND conc(entration)/mol dm ⁻³ ;		[1]
	(headings) (syringe) A	AND (syringe) B;		[1]
	(records) description or ke	(records) description or key to show movement;		[1]
MMO	A (0.7 mol dm ⁻³) moves u	p and down;		[1]
collection 2	B (0.25 mol dm ⁻³) moves down in others;	B (0.25 mol dm ⁻³) moves up in molarities more than 3 and down in others;		[1]
MMO decision 1	records more than one dr	op for each concentration;		[1]
(v) Use you	r results to estimate the sucros	e concentration.		
ACE	(A) correct with their resul	(A) correct with their results;		[1]
interpretation	(B) correct with results;	(B) correct with results;		[1]

Page 4	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2010	9700	35

Questi	Question Expected Answers					Additional Guidance	Marks
(b)	(i) Plot	t a graph of	the	data shown in Table 1.1.			1
PDO layout 4	1	1	0	x-axis [sucrose] or conc mol dm ⁻³ /M/molar	y-axis AND water potential/Ψ kPa x10²;	Must have units	[1]
0.15 0.35 0.55	-5.0 -12.0 -19.0	-	S	scale as 0.2 to 2 cm (allow no 0) ECF if no labels or incorrect on axes for O	AND negative 0 at top -10 to 2 cm;	Reject if awkward scale	[1]
0.75	-26.0		Р	correct plotting using crosses or dot in circle;	Intersection of cross must be clear to show plot	Reject plotting if scale is awkward or if only blobs/dots/blobs in circles	[1]
1.00	-35.0		L	ruled/straight line through points;	Quality – not thick, not feathery for the complete line Joining plots – • Ruled lines plot to plot • Straight line through most plots • Straight line extrapolated to 0 Extrapolation not beyond x- or y-axis	Reject if not five plots	[1]

Page 5	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2010	9700	35

Question	Expected Answers		Additional Guidance	Marks
(ii) Using your re	esults and your graph estimate	the water potential of samp	le A (0.70).	
MMO collection 1	(using their result for A) shows clearly on graph how o	ne water potential obtained;	Allow any indication but must be estimate of A	[1]
ACE interpretation 1	any correct reading of water potential(s)	AND kPa x10 ² ;	If A between and reads off two water potentials allow any correct Allow if correct with result and reading from graph	[1]
(iii) Describe how	you would improve the invest	tigation to obtain a more acc	urate estimate of the water potential of samp	ole A.
ACE	more (sucrose) solutions of kr	nown water potential;		[max 3]
improvement 3	two further examples of conce describes more around where			
	more sucrose solutions or cor	ncentrations to estimate A;		
standardise the volume of the methylene blue of OR suggests method for controlling volume of drop				
	method to introduce drop OR measure time to rise or sink;			
	Total			[23]

	GCE AS/A LEVEL – May/June 2010	9700	35

Question	Expected Answers	S		Additional Guidance	Marks
2 (a) (i) Draw a large plan diagram of half of the trachea showing the ends of the cartilage ring. Label the diagram. Reject all marks except label if only 1 line.					
PDO layout 1	clear, sharp, unbroken lines	AND no shading	AND large; Minimum of three lines	Reject if overlaps text in question	[1]
MMO collection 2	no cells	no cells AND drawn only half; Minimum of two lines.			[1]
	(in half section) has at least two ends of cartilage ring;				[1]
MMO	at least 6 lines for la	ayers;			[1]
decision 2	Reject if any label is biologically incorrect e.g. cell wall Reject if any labels from other tissues e.g. arteries, veins, plant tissues and named cells unless described as a layer Accept any one label with label line correct cartilage epithelium (smooth) muscle layer of Goblet/mucus cells lumen;			Reject if any writing on drawing	[1]

	GCE AS/A LEVEL – May/June 2010	9700	35

Question	Expected Answer	s		Additional Guidance	Marks
(ii) Prepare t	the space below so that i	t is suitable for you	to compare and cor	ntrast the specimens on slide L1 and in Fig	. 2.1.
PDO recording 1	organised as AND table/venn diagram/ruled connected boxes	correctly headed AND	comparative statements opposite each other;	<u>L1</u> Fig 2.2	[1]
MMO collection 1	lumen clearly ident	ified as present in bo	oth;		[1]
ACE interpretation 3	feature:	L1 (trachea):	Fig. 2.1: (bronchiole)	Ticks and crosses requires a key	[max 3]
	then three of:				
	1.lumen shape or lining	regular/circular not folded/no villi	irregular/not circular folded/villi;		
	2. cilia or brush border microvilli	present cilia/brush border	absent or not visible microvilli;	Reject 3D, disc or spherical or arbitrary or random Reject negatives e.g. not circular	
	3. cartilage	present	absent;	Reject opposites e.g. regular	
	4. surrounding cells/air sacs/spaces	absent or no(ne)	present or have;		
	5. epithelium	thinner/narrower	thicker/wider;		
	6. goblet or mucus cells	present or visible	absent or not visible;		
	7. size	wider/larger	narrower/smaller;		
	8. whole shape similarities: smooth muscle	oval/triangular (whole shape) round/circular	round/circular;

	GCE AS/A LEVEL – May/June 2010	9700	35	

Question	Expected Answers	Additional Guidance		
(iii) Calculate the actual distance across the lumen of the structure shown by line X in Fig. 2.1.				
MMO collection 1	measures line X correctly in mm or cm Reject m	mm/cm 28/2.8	[1]	
PDO display 2	shows their measurement divided by or / or ÷ 70 AND × 1000 or 10 ³ (mm) or 10000 or 10 ⁴ (cm) or × 10 × 1000;	28.5/2.85 29/2.9 29.5/2.95 30/3	[1]	
	figure to no more than three sig. figs.;	Reject use or conversion to metres Reject if no units	[1]	

Page 9	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2010	9700	35

	ge drawing of three of thes around each of the structu			omplete, to show the differences between them. C)raw a circle
MMO collection 1	circles 3 complete structures on Fig 2		AND draws three;	Reject if overlaps text of question	[1]
PDO layout 1	clear, sharp, unbroken lines	AND no shac	large;		[1]
MMO decisions 2	two of six structure	s match th	nose drawn for shape;	;	[1]
	one enclosure matches any one structure shape	AND	position;	Reject if more detail	[1]
	Total				[17]
