## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Level	Mark	Descriptor
	0	No rewardable material.
<b>Level 1</b>	1-2	Isolated elements of knowledge and understanding – recall based. Weak or no relevant application to business examples. Generic assertions may be presented.
<b>Level 2</b>	3-5	Accurate knowledge and understanding. Applied accurately to the business and its context. Chains of reasoning are presented, showing cause(s) and/or effect(s) but may be assertions or incomplete. An attempt at an assessment is presented that is unbalanced and unlikely to show the significance of competing arguments.
<b>Level 3</b>	6-8	Accurate and thorough knowledge and understanding, supported throughout by relevant and effective use of the business behaviour/context. Logical chains of reasoning, showing cause(s) and/or effect(s). Assessment is balanced, well contextualised, using quantitative and/or qualitative information, and shows an awareness of competing arguments/factors.

Often temporary employees receive fewer or no benefits compared to permanent staff, depending on their contract. The lack of benefits saves money for the business which can be used elsewhere to grow the business.</li> <li>• Using part-time employees may attract staff who have other commitments and do not wish to work on a full-time basis. This may improve the work life balance of staff and result in motivated and productive staff.</li> <li>• However, temporary employees, may have less knowledge and familiarity with the company. This can affect employee performance and impact the efficiency of the delivery service.</li> <li>• Recruitment costs may be higher if a business has a more flexible workforce as the turnover of staff may be high. This may reduce <i>Kapgel's</i> profit margins.</li> <li>• Some employees prefer full-time employment and a permanent contract. This may lead to a lack of commitment by workers at <i>Kapgel</i>. This may lead to <i>Kapgel</i> losing workers to competitors and facing disruption to customer service.</li> </ul>
