### UNIT 1

#### TOPIC AREA: FOOD, DIET AND HEALTH

##### Stimulus 1: Chinese medicine

While many people in China go to Western-style hospitals when they are ill, many think that traditional Chinese medicine is good for long-term health.

In Chinese medicine eating, sleeping and exercise are equally important. Like Western doctors, a doctor of Chinese medicine will say that to keep healthy, you need to eat more vegetables and fruit, drink plenty of water and get enough sleep.

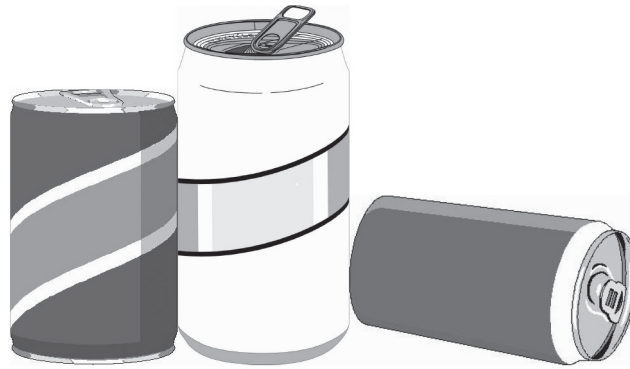

There are many small Chinese medicine shops in the UK. Western people are becoming more interested in Chinese medicine and each year thousands of foreign students study Chinese medicine in China.

Doctors say that fizzy drinks are as big a health problem as cigarettes. They believe that if fizzy drinks were sold for a higher price, it would make people choose healthier drinks like water or fruit juice.

A student says he has reduced the number of fizzy drinks that he buys, and now he feels healthier and sleeps better.

A teacher says that the problem is not just fizzy drinks. Children need to eat better food and exercise more. The important thing is that parents and schools should teach children to eat and drink healthily.
