

**ADVANCED SUBSIDIARY GCE
CLASSICAL CIVILISATION (JACT)**

Archaeology 1

FRIDAY 23 MAY 2008

2744

Afternoon
Time: 1 hour 30 minutes

Additional materials (enclosed): None

Additional materials (required):
Answer Booklet (8 page)

INSTRUCTIONS TO CANDIDATES

- Write your name in capital letters, your Centre Number and Candidate Number in the spaces provided on the Answer Booklet.
- Read each question carefully and make sure you know what you have to do before starting your answer.
- You must answer **one** question from Section A and **one** question from Section B.
- Start your answer to each question on a new page.
- Use an 8 page answer booklet followed by a 4 page booklet if extra paper is required.

INFORMATION FOR CANDIDATES

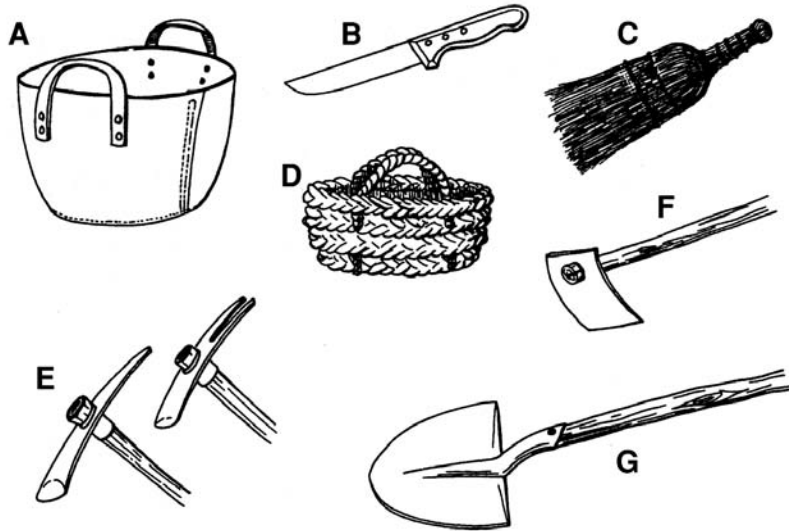

- The number of marks for each question is given in brackets [] at the end of each question or part question.
- All questions are worth 50 marks in total including 5 marks for quality of written communication.
- The total number of marks for this paper is **100**.
- In this paper you are encouraged to use sketches, diagrams etc., where appropriate, to illustrate your answers.

This document consists of **4** printed pages.

Section A

Answer **one** question from this section.

A1 Study the illustrations below and answer the questions that follow.

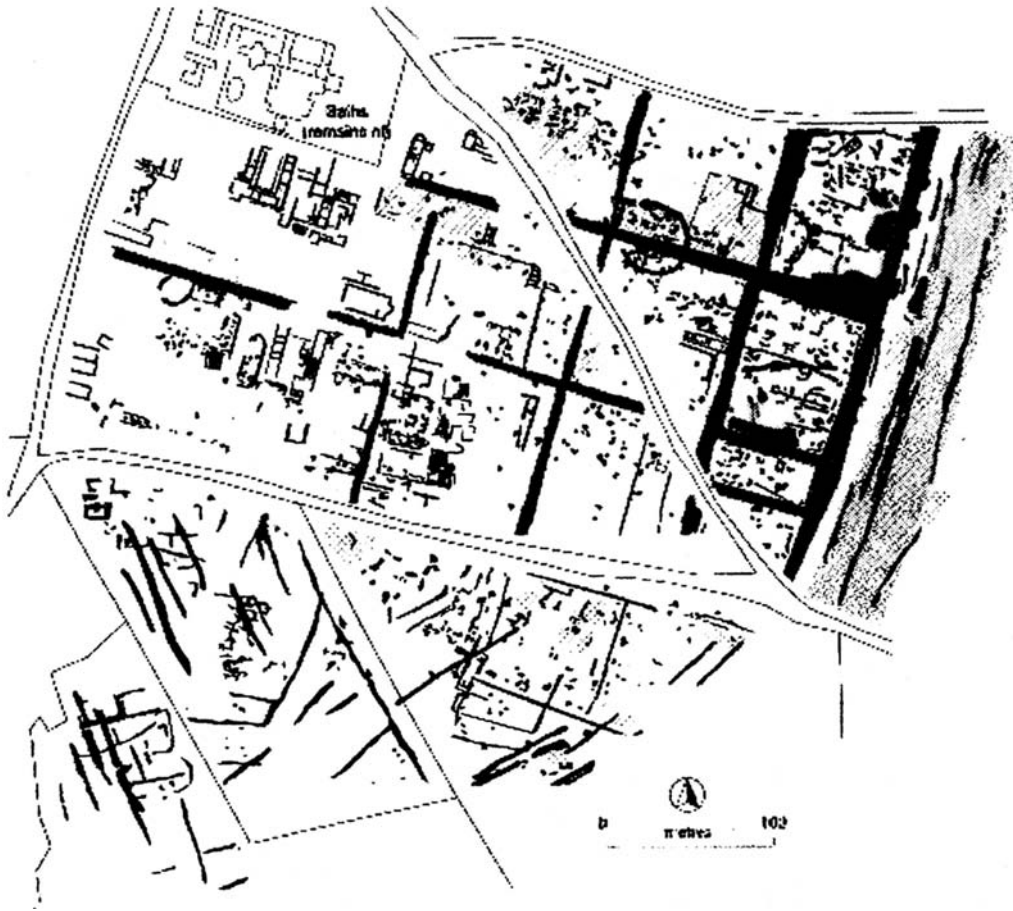

L. Bowkett, S. Hill, Diana and K. A. Wardle, *Classical Archaeology in the Field: Approaches* (BCP)

- (a) (i) Identify **object A**.
- (ii) In what part of the world would the objects shown above be used in an archaeological excavation?
- (iii) Explain why each of the objects shown above is suitable for use in that location. [10]
- (b) What different methods of excavation have been used by archaeologists on Classical sites? Explain which you think is the most useful. [15]
- (c) How useful has archaeological excavation been in teaching us about Classical civilisation? In your answer you should include detailed discussion of **at least two** Classical sites. [20]

[Quality of Written Communication: 5 marks]

[Total: 50 marks]

A2 Study the diagram below and answer the questions that follow.

© English Heritage, GSB Prospection and Birmingham University

- (a) (i) Identify the site shown in the diagram above.
- (ii) What information about the site is shown in the diagram?
- (iii) Name **five** techniques that archaeologists have used to gain this information. [10]
- (b) Explain how archaeologists can see what may be below the ground or what a site may have been used for, without excavation. Explain which is the most useful method. [15]
- (c) How useful has archaeological surveying been in teaching us about Classical civilisation? In your answer you should include detailed discussion of **at least two** Classical sites. [20]

[Quality of Written Communication: 5 marks]

[Total: 50 marks]

Section B

Answer **one** question from this section.

Start your answer on a new page.

- B3** 'Archaeologists always struggle when it comes to dates.' Explain how reliable and useful dating techniques can be. Which technique for dating artefacts do you think is the most useful? In your answer you should include discussion of **at least two** Classical sites. [50]
- B4** Explain how archaeologists can present sites and finds to the public. What do you think is the best way to allow others to see what has been discovered at a site? In your answer you should include discussion of **at least two** Classical sites. [50]
