Computer Systems Development and Practical Applications

Thursday

9 JUNE 2005

Afternoon

1 hour 30 minutes

Candidate Name	Centre Number	Candidate Number												
	<table border="1" style="display: inline-table; border-collapse: collapse;"> <tr> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> </tr> </table>							<table border="1" style="display: inline-table; border-collapse: collapse;"> <tr> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> <td style="width: 15px; height: 15px;"></td> </tr> </table>						

TIME 1 hour 30 minutes

INSTRUCTIONS TO CANDIDATES

- Write your name in the space above.
- Write your centre number and candidate number in the boxes above.
- Answer **all** the questions.
- Read each question carefully and make sure you know what you have to do before starting your answer.
- If you run out of space for an answer, continue on the spare pages at the back of the booklet.
- If you use these spare pages, you must write the question number next to your answer. You can also use the spare pages for rough work.

INFORMATION FOR CANDIDATES

- The number of marks is given in brackets [] at the end of each question or part question.
- The total number of marks for this paper is 90 of which 4 marks are allocated to the assessment of the quality of written communication.
- You will be awarded marks for the quality of written communication where an answer requires a piece of extended writing.
- No marks will be awarded for using brand names of software packages or hardware.

This question paper consists of 11 printed pages, 3 lined pages and 2 blank pages.

1 The manager of a warehouse wishes to improve the current information system. The systems life cycle is used to plan this improvement.

(a) State **six** stages of the *systems life cycle*.

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.[6]

(b) Describe **four** of these stages.

1. Name of stage.....

Description

.....

.....[2]

2. Name of stage.....

Description

.....

.....[2]

3. Name of stage.....

Description

.....

.....[2]

4. Name of stage.....

Description

.....

.....[2]

As the new system is developed, user and technical documentation are produced.

(c) (i) State **four** different sections normally found in *user documentation*.

- 1.
.....
- 2.
.....
- 3.
.....
- 4.
.....[4]

(ii) State **two** purposes of *technical documentation*.

- Purpose 1
.....
- Purpose 2
.....[2]

2 State and describe a suitable method of changeover for each of the following applications.

(a) Introducing a new electronic point of sale (EPOS) system for a chain of DIY stores over a period of time.

Method of changeover.....

Description

.....

.....

.....[3]

(b) Introducing a new set of traffic lights for a major road junction.

Method of changeover.....

Description

.....

.....

.....[3]

3 A fashion design company uses a computer aided design (CAD) package to design a range of clothing.

(a) State **three** features of a CAD package and give an example of how each would be used in designing a new range of clothing.

Feature 1

.....

Use.....

.....[2]

Feature 2.....

.....

Use.....

.....[2]

Feature 3.....

.....

Use.....

.....[2]

(b) The company intends to purchase new software for administration activities.

(i) State **three** advantages to the company of purchasing off-the-shelf software.

- 1.
.....
- 2.
.....
- 3.
.....[3]

(ii) State **three** advantages to the company of purchasing custom written software.

- 1.
.....
- 2.
.....
- 3.
.....[3]

4 Products in a supermarket are bar coded.

(a) State **two** reasons for using a *bar code system* in a supermarket.

Reason 1

.....

Reason 2

.....[2]

(b) State **two** drawbacks of using a *bar code system* in a supermarket.

Drawback 1

.....

Drawback 2

.....[2]

Customers can use a loyalty card, containing a magnetic stripe to receive discounts on goods purchased. The stripe contains a customer reference number.

(c) State **three** advantages of using a magnetic stripe on a customer loyalty card instead of keying in the customer reference number.

Advantage 1

.....

Advantage 2

.....

Advantage 3

.....[3]

(d) Name and describe **three** different methods that could be used to validate the customer reference number.

Method 1
.....
.....[2]

Method 2
.....
.....[2]

Method 3
.....
.....[2]

5 Command driven and form driven are two types of user interface.

(a) State **three** features of a *command driven interface*.

Feature 1
.....
Feature 2.....
.....
Feature 3.....
.....[3]

(b) State **three** features of a *form driven interface*.

Feature 1
.....
Feature 2.....
.....
Feature 3.....
.....[3]

(c) Graphical user interfaces (GUI) are easier for users to learn quickly.
State **four** features of a GUI.

Feature 1
.....
Feature 2
.....
Feature 3
.....
Feature 4
.....[4]

6 A water company produces customer bills quarterly.

(a) Customer meters are read manually and the readings are recorded onto a turnaround document.

Explain what is meant by a turnaround document.

.....
.....
.....
.....[2]

(b) The readings are processed and bills produced by the computer system.

State and justify a suitable method of processing the bills.

.....
.....
.....
.....
.....
.....
.....
.....[4]

The doctors at the health centre are considering the installation of an expert system to aid diagnosis.

(b) Name and describe **three** components of an *expert system*.

Component 1.....

Description

.....

.....[2]

Component 2.....

Description

.....

.....[2]

Component 3.....

Description

.....

.....[2]

(c) A terminal will be provided in the waiting room to allow a patient to obtain a diagnosis of minor problems.

Describe the implications of patients using this system.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....[5]
