## Mark Scheme

*2005 examination – June series*

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

## DISTRIBUTION OF ASSESSMENT OBJECTIVES AND WEIGHTINGS

The table below is a reminder of which Assessment Objectives will be tested by the questions and the marks available for them.

### Unit 3

Assessment Objective	AO2i	AO3i	AO4	AO5
Questions 1 - 3	25	25	25	25
Question 4	25	25		25 (x2)

### **Questions 1 - 3**

#### **Marking Procedure**

1. Assess each AO equally; use the grid to ascertain the relevant band, sub-band and then mark.
