PAPER 1 LISTENING, READING AND WRITING

Mark scheme

V2.0

Mark schemes are prepared by the Lead Assessment Writer and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation events which all associates participate in and is the scheme which was used by them in this examination. The standardisation process ensures that the mark scheme covers the students' responses to questions and that every associate understands and applies it in the same correct way. As preparation for standardisation each associate analyses a number of students' scripts. Alternative answers not already covered by the mark scheme are discussed and legislated for. If, after the standardisation process, associates encounter unusual answers which have not been raised they are required to refer these to the Lead Assessment Writer.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of students' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this mark scheme are available from aqa.org.uk

Section A

Comprehension questions to be answered in target language but with no AO3 marks

Where the natural answer to a question consists entirely or partly of words or phrases from the recording or text, students may use that material without rephrasing it. Minor spelling errors which do not distort the meaning will be tolerated. However, the AO1 mark will not be awarded for a response in which the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the question set.

Summary questions

The marks for content (AO1) and language (AO3) are awarded independently. Long summaries will be marked for content (AO1) or language (AO3) only as far as the first natural break (usually the end of a sentence or main clause) between 70 and 80 words. Short summaries are not subject to an automatic penalty but in practice are unlikely to include all the required content points and will therefore be self-penalising.

The AO1 mark is awarded for content points which contain the required information, regardless of whether those points are expressed in the student's own words, or are partly or wholly lifted from the recording or text. However, no AO1 mark will be awarded for a content point where the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the bullet point.* 'Lifted' language will not be eligible for credit when the AO3 mark is awarded.

*Example:

1

Text includes *Après avoir fait des études elle est devenue médecin.*

Summary task includes the bullet point *Ce qu'elle a fait avant de devenir médecin.*

Correct answer is *Elle a fait des études.*

Student writes in response to that bullet point *Après avoir fait des études elle est devenue médecin.*

No credit for AO1 because the response does not match the phrasing of the bullet point. (Also no credit for AO3 because of lifting.)

2

Text includes ... *parce que les ordinateurs remplaceront les enseignants.*

Summary task includes the bullet point *Les évolutions technologiques anticipées.*

Correct answer is *Les ordinateurs remplaceront les enseignants* or, to demonstrate successful manipulation, *Les enseignants seront remplacés par les ordinateurs.*

Student writes in response to that bullet point *Parce que les ordinateurs remplaceront les enseignants.*

No credit for AO1 because the response does not match the phrasing of the bullet point. (Also no credit for AO3 because of lifting.)

Serious errors are defined as those which affect communication.

Minor errors include:

incorrect but close to correct spellings

incorrect genders and consequential errors of agreement

incorrect or missing accents unless these alter the meaning.

Serious errors include:

incorrect verb forms especially irregular forms

incorrect use of pronouns

missing or incorrect agreements of adjectives or past participles.

Q10 Acceptable quality of English in translations into English**Errors in spelling**

Where the candidate's attempted spelling is a recognisable form of the correct spelling and does not correspond to another English word, the attempted spelling is accepted e.g. *weight* mis-spelt as *waight* is acceptable but mis-spelt as *wait* gives another word and so causes ambiguity.

Alternative answers

Examiners will be provided with a range of alternative answers in mark-schemes but in the event that these do not legislate for all versions and variations which candidates might produce, the guiding principle will be that answers that convey the same intended meaning are accepted.

Successful translation

Translation will be deemed successful if an English speaker would understand the translation and if each element of the original text figures in the translation.

Example

	Accept	Reject
Ce jour-là, il pleuvait.	That day it was raining. That day it was wet. It was a rainy day, that day.	It rained all day. That day the weather was bad.
