INSTRUCTIONS TO CANDIDATES

- Write your name in capital letters, your Centre Number and Candidate Number in the boxes above.
- Use blue or black ink. Pencil may be used for graphs and diagrams only.
- Read each question carefully and make sure that you know what you have to do before starting your answer.
- Answer all the questions.
- Do not write in the bar codes.
- Do **not** write outside the box bordering each page.
- Write your answer to each question in the space provided.

INFORMATION FOR CANDIDATES

- The number of marks for each question is given in brackets [] at the end of each question or part question.
- The total number of marks for this paper is 60.
- You will be awarded marks for the quality of written communication where an answer requires a piece of extended writing.
- Even where not specifically asked for, credit will be given for sketch maps and diagrams, provided they illustrate your answer.

2	(a)	Explain how you could make use of two different types of map in a geographica investigation.
		MO

(b)	Describe and justify the use of photographs in a geographical investigation.
	[10]
	[Total: 20]

3	(a)	The topic of a geographical investigation is the distance that shoppers travel to a city centre. Describe how you would collect the data to ensure that the sample is representative.
		[10]

(b) Study Fig. 1, which shows the results of an investigation of the distances travelled by shoppers to a city centre.

Explain how measures of central tendency can help to analyse the data shown.
