Unit F764: Geographical Skills
INSERT

Fig. 1

Variations in the percentage coverage of different plant communities across the shingle ridge at Slapton Sands

Fig. 2
Variations in various indices across the shingle ridge succession at Slapton Sands

| Site | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Distance <br> inland $(\mathrm{m})$ | 5.5 | 11.0 | 16.5 | 22.0 | 27.5 | 33.0 | 38.5 | 44.0 | 49.5 | 55.0 |
| Plant height <br> $(\mathrm{cm})$ | 3.9 | 2.1 | 4.1 | 4.2 | 7.0 | 35.4 | 10.3 | 11.5 | 41.2 | 63.8 |
| Soil depth <br> $(\mathrm{cm})$ | 0.3 | 1.5 | 2.1 | 3.3 | 2.7 | 11.8 | 13.0 | 12.7 | 15.4 | 13.2 |
| Soil pH | 8.0 | 7.5 | 7.0 | 7.0 | 6.5 | 6.0 | 6.5 | 4.5 | 5.5 | 5.0 |

Fig. 3
Cross-section and location of sample points across the shingle ridge at Slapton Sands

Fig. 4
River cross-sections at four sites along the River Tawe

5
Fig. 5
Location of survey sites along the River Tawe
