Answer Question 1 and one other question.

SECTION A

You must answer this question.

You are advised to spend about 45 minutes on this question.

1 Study the following source material and then answer the questions which follow.

Source A Adapted from Lloyd George's defence of the National Insurance Bill in the House of Commons, December 1911

It would be more helpful to the self-respect of the worker that he should derive benefit from a scheme to which he himself was a most substantial contributor. I believe that this Bill is setting up a scheme which will be woven into the social fabric of this country and will be regarded by the working men with gratitude as something which has given them a guarantee with regard to their working lives. It is a Bill which the employers will accept as something which improves the efficiency of labour and gives stability to the existing order.

Source B Adapted from the Diary of Beatrice Webb, a Fabian, writing about National Insurance, December 1912

The plain fact is that Lloyd George has out-manoeuvred the Labour Party. The government has dealt out millions of pounds of public money. The fact that it will be wastefully collected and spent may condemn it to the thoughtful Socialist, or to the economically minded citizen. The big fault of the Act is the creation of huge vested interests in National Insurance, which will mean not only waste of public money and financial chaos, but wholesale fraudulent withholding or getting of benefit.

(a) Use Sources A and B and your own knowledge.

To what extent do these two sources agree in their view of the effects of a National Insurance scheme? (10 marks)

(b) Use Sources A, B and C and your own knowledge.

'The social reforms of the Liberals in the years 1906 to 1914 were motivated more by a fear of Labour than by a desire to improve the lives of the working class.'

Assess the validity of this view.
