

Mark Scheme (Results) January 2008

GCE

GCE Applied Information & Communication Technology (6957/01)

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Activity ANSWER		POSS. MARK	MAX		
Activity 1		Understanding the problem	- Functional specification		
	а	The tasks the database has	to perform:		
A1		Store data about customer r	eservations rides		
A2		Make a reservation			
А3		Assign Card Number			
A4		Keep points up to date			
A 5		Keep number of reservations	s up to date		
A6		Set initial points to 2000			
		Any two of above		1	
		Any four of above		1	
	b	The information the databa	ase must supply, in what format		2
B1		Customer Details	Customer (for confirmation)/Company		
B2		Ride Details	Customer		
В3		Reservation Confirmation	Customer		
B4		Reservation details	Operator of ride/Customer		
		Any two of above	'	1	
		Any three of above		1	
					2
	С	The data to be input into the where	ne database, how and from		
C1		Existing data/Import			
C2		New reservations/Internet			
C3		New Customer Details/Inter	net or Form		
		Any of the above		1	
		Any two of the above		1	
					2
