INFORMATION AND COMMUNICATION TECHNOLOGY

Information, Systems and Communications

FRIDAY 16 MAY 2008

Morning

Time: 1 hour 30 minutes

Candidates answer on the question paper

Additional materials: No additional materials are required

| Candidate Forename | I | | | Candidate Surname | | | | | | | | | | |
|-----------------------|---|--|--|----------------------|--|--|---------------------|--|--|--|--|--|--|--|
| Centre Number | | | | | | | Candidate Number | | | | | | | |

INSTRUCTIONS TO CANDIDATES

- Write your name in capital letters, your Centre Number and Candidate Number in the boxes above.
- Use blue or black ink. Pencil may be used for graphs and diagrams only.
- Read each question carefully and make sure that you know what you have to do before starting your answer.
- Answer all the questions.
- Do **not** write in the bar codes.
- Write your answer to each question in the space provided.

INFORMATION FOR CANDIDATES

- The number of marks for each question is given in brackets [] at the end of each question or part question.
- The total number of marks for this paper is 90, of which 4 marks are allocated to the assessment of the quality of written communication where an answer requires a piece of extended writing.
- No marks will be awarded for using brand names of software packages or hardware.

| (a) | Def | ine the term data. | |
|-----|------|--|-----|
| | | | |
| | | | |
| | | | |
| | | | [2] |
| (b) | lder | ntify two different methods of representing information. | |
| | Met | hod 1 | |
| | | | |
| | Met | hod 2 | |
| | | | [2] |
| (c) | Sen | nantic and syntactic are two different aspects of information. | |
| | Stat | te what is meant by the terms: | |
| | (i) | semantic | |
| | | | |
| | | | [1] |
| | (ii) | syntactic | |
| | | | |
| | | | [1] |

| Αŀ | norse | riding school keeps data on its customers. | | | | | | | |
|-----|-------|---|--|--|--|--|--|--|--|
| (a) | | When a new customer registers, their details are entered into the computer system and then verified. | | | | | | | |
| | (i) | Give two methods of verification. | | | | | | | |
| | | Method 1 | | | | | | | |
| | | | | | | | | | |
| | | Method 2 | | | | | | | |
| | | [2] | | | | | | | |
| | (ii) | Describe why verification cannot ensure that the data is correct. | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | [2] | | | | | | | |
| (b) | The | horse riding school wants to produce a leaflet. | | | | | | | |
| | (i) | Identify two costs that the riding school will incur when using the computer to produce the leaflet. | | | | | | | |
| | | Cost 1 | | | | | | | |
| | | | | | | | | | |
| | | Cost 2 | | | | | | | |

.....[2]

2

(ii) The production of the leaflet follows the stages of input, process, output, storage and feedback.

Draw a diagram to illustrate how these stages are related.

| An | Interr | net Café has a number of computers that are not performing as fast as they used to. |
|-----|--------|---|
| (a) | | ntify two hardware upgrades that would improve the performance of the computers. For hupgrade, describe why it will improve performance. |
| | Upg | yrade 1 |
| | | |
| | | |
| | | |
| | Upg | rade 2 |
| | | |
| | | |
| | | [4] |
| (b) | The | Internet Café has a number of physically disabled customers. |
| | Ider | ntify two input devices suitable for computer users who do not have the use of their arms. |
| | Dev | ice 1 |
| | | |
| | Dev | ice 2 |
| | | [2] |
| (c) | The | Internet Café needs to back-up and archive some of its data. |
| | (i) | What is the difference between a back-up and an archive of data? |
| | | |
| | | |
| | | |
| | | [2] |
| | (ii) | Why is it necessary to back-up data? |
| | | |
| | | [1] |

| (a) | Two | different types of operating system are real-time and distributed processing. |
|-----|-------------|---|
| | (i) | Identify characteristics of a real-time operating system. |
| | | |
| | | |
| | | |
| | | [2] |
| | (::\ | |
| | (ii) | Identify characteristics of a distributed processing operating system. |
| | | |
| | | |
| | | |
| | | [2] |
| (b) | Two | different types of user interfaces are natural language and menus. |
| | (i) | Describe a natural language user interface. |
| | | |
| | | |
| | | |
| | | rol |
| | | [2] |
| | (ii) | Describe a menu user interface. |
| | | |
| | | |
| | | |
| | | [2] |
| (c) | Sys | tem software includes a range of utilities. |
| | Ider | ntify two utilities that could be included in system software. |

| A S | chool has a local area network (LAN). |
|-----|---|
| (a) | Identify two characteristics of a LAN. |
| | Characteristic 1 |
| | |
| | Characteristic 2 |
| | [2] |
| (b) | The LAN provides communications between computers. |
| | Why is communication needed between computers? |
| | |
| | [1] |
| (c) | Some of the signals coming into the network are analogue. The network is digital. The analogue signals need to be converted to digital signals. |
| | Describe how analogue signals are converted to digital signals. |
| | |
| | |
| | |
| | |
| | |
| | [3] |
| | |
| (d) | Bandwidth is an important factor in networks. |
| | Define bandwidth. |
| | |
| | [1] |

A graphics company has a large number of stand-alone computers.

|) | Describe three disadvantages, to the users, of networking the computers together. | |
|---|---|-----|
| | Disadvantage 1 | |
| | | |
| | | • • |
| | | |
| | | |
| | Disadvantage 2 | |
| | Disadvariage 2 | • |
| | | |
| | | |
| | | |
