### General comments

Centres wishing to submit Research Projects are directed to the Guidance on Research Projects Booklet and the advice contained in it. The Research Projects are best when the focus is narrow and there is a clearly stated aim or question to be answered. Centres are also requested to follow the administrative procedures detailed in the booklet, as this makes life easier for both CIE and the Centres. It allows problems to be corrected at an early stage and avoids candidates submitting work that does not meet the criteria.

There were a number of well-structured projects this session covering a range of different subjects. It was clear that a great deal of effort and planning had gone into the projects, and the Examiners found them enjoyable to read through.
