Mark Scheme for June 2010

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of pupils of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, OCR Nationals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by Examiners. It does not indicate the details of the discussions which took place at an Examiners' meeting before marking commenced.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the Report on the Examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

<table>
<tr><td>Q1
(i)</td><td>Positive skewness</td><td>B1</td><td>1</td></tr>
<tr><td>(ii)</td><td>Inter-quartile range = 10.3 – 8.0 = 2.3

Lower limit 8.0 – 1.5 × 2.3 = 4.55
Upper limit 10.3 + 1.5 × 2.3 = 13.75

Lowest value is 7 so no outliers at lower end
Highest value is 17.6 so at least one outlier at upper end.</td><td>B1

M1 for 8.0 – 1.5 × 2.3
M1 for 10.3 + 1.5 × 2.3

A1
A1</td><td>5</td></tr>
<tr><td>(iii)</td><td>Any suitable answers
Eg minimum wage means no very low values

Highest wage earner may be a supervisor or manager or specialist worker or more highly trained worker</td><td>E1 one comment relating to low earners

E1 one comment relating to high earners</td><td>2</td></tr>
<tr><td></td><td></td><td>TOTAL</td><td>8</td></tr>
<tr><td>Q2
(i)</td><td>$4k + 6k + 6k + 4k = 1$
$20k = 1$
$k = 0.05$</td><td>M1

A1 NB Answer given</td><td>2</td></tr>
<tr><td>(ii)</td><td>$E(X) = 1\times0.2+2\times0.3+3\times0.3+4\times0.2=2.5$
(or by inspection)

$E(X^2) = 1\times0.2+4\times0.3+9\times0.3+16\times0.2=7.3$

$Var(X) = 7.3 - 2.5^2 = 1.05$</td><td>M1 for Σrp (at least 3 terms correct)
A1 CAO

M1 for Σr^2p (at least 3 terms correct)
M1dep for – their $E(X)^2$
A1 FT their E(X) provided $Var(X) > 0$</td><td>5</td></tr>
<tr><td></td><td></td><td>TOTAL</td><td>7</td></tr>
<tr><td>Q3
(i)</td><td>
<table>
<tr><td>Lifetime (x hours)</td><td>Frequency</td><td>Width</td><td>FD</td></tr>
<tr><td>$0 < x \le 20$</td><td>24</td><td>20</td><td>1.2</td></tr>
<tr><td>$20 < x \le 30$</td><td>13</td><td>10</td><td>1.3</td></tr>
