# Taxation – Vietnam (VNM)(F6) June 2008

This syllabus and study guide is designed to help with planning study and to provide detailed information on what could be assessed in any examination session.

# THE STRUCTURE OF THE SYLLABUS AND STUDY GUIDE

### Relational diagram of paper with other papers

This diagram shows where any direct and indirect links between this paper and other papers preceding or following it. Some papers are directly underpinned by other papers such as Advanced Performance Management by Performance Management. These links are shown as solid line arrows. Other papers only have indirect relationships with each other, such as links existing between the accounting and auditing papers. The links between these are shown as dotted line arrows. This diagram indicates where you are expected to have underpinning knowledge and where it would be useful to review previous learning before undertaking study.

# Overall aim of the syllabus

This explains briefly the overall objective of the paper and indicates in the broadest sense the capabilities to be developed within the paper

## Main capabilities

This paper's aim is broken down into several main capabilities which divide the syllabus and study guide into discrete sections.

# Relational diagram of the main capabilities

This diagram illustrates the flows and links between the main capabilities (sections) of the syllabus and should be used as an aid to planning teaching and learning in a structured way.

# Syllabus rationale

This is a narrative explaining how the syllabus is structured and how the main capabilities are linked. The rationale also explains in further detail what the examination intends to assess and why.

#### **Detailed syllabus**

This shows the breakdown of the main capabilities (sections) of the syllabus into subject areas. This is the blueprint for the detailed study guide.

#### Approach to examining the syllabus

This section briefly explains the structure of the examination and how it is assessed.

# Study Guide

This is the main document that students, tuition providers and publishers should use as the basis of their studies, instruction and materials. Examinations will be based on the detail of the study guide which comprehensively identifies what could be assessed in any examination session. The study guide is a precise reflection and breakdown of the syllabus. It is divided into sections based on the main capabilities identified in the syllabus. These sections are divided into subject areas which relate to the sub-capabilities included in the detailed syllabus. Subject areas are broken down into subheadings which describe the detailed outcomes that could be assessed in examinations. These outcomes are described using verbs indicating what exams may require students to demonstrate and the broad intellectual level at which these may need to be demonstrated (\*See intellectual levels below)

# **Reading lists**

ACCA examiners will recommend study texts and text books where these are available, which students may read as part of their preparation for the exam. Relevant articles will also be published in student accountant.

#### **INTELLECTUAL LEVELS**

The syllabus is designed to progressively broaden and deepen the knowledge, skills and professional values demonstrated by the student on their way through the qualification. The specific capabilities within the detailed syllabuses and study guides are assessed at one of three intellectual or cognitive levels:

Level 1: Knowledge and comprehension

Level 2: Application and analysis

Level 3: Synthesis and evaluation

Very broadly, these intellectual levels relate to the three cognitive levels at which the Knowledge module, the Skills module and the Professional level are assessed.

Each subject area in the detailed study guide included in this document is given a 1, 2, or 3 superscript, denoting intellectual level, marked at the end of each relevant line. This gives an indication of the intellectual depth at which an area could be assessed within the examination. However, while level 1 broadly equates with the Knowledge module, level 2 equates to the Skills module and level 3 to the Professional level, some lower level skills can continue to be assessed as the student progresses through each module and level. This reflects that at each stage of study there will be a requirement to broaden as well as deepen capabilities. It is also possible that occasionally some higher level capabilities may be assessed at lower levels.

#### **LEARNING HOURS**

The ACCA qualification does not prescribe or recommend any particular number of learning hours because increasingly study and learning patterns and styles vary greatly between people and organisations and in different personal, professional and educational circumstances.

Each syllabus contains between 23 and 35 main subject area headings depending on the nature of the subject and how these areas have been broken down in those particular papers.

# **GUIDE TO EXAM STRUCTURE**

The structure of examinations varies within and between modules and levels.

The Fundamentals level examinations contain 100% compulsory questions to encourage candidates to study across the breadth of each syllabus.

The Knowledge module is assessed by equivalent two-hour paper based and computer based examinations.

The Skills module examinations are all paper based three-hour papers. The structure of papers varies from ten questions in the *Corporate and Business Law* (F4) paper to four 25 mark questions in *Performance Management* (F5) and *Financial Management* (F9). Individual questions within all Skills module papers will attract between 10 and 30 marks.

The Professional level papers are all three-hour paper based examinations, all containing two sections. Section A is compulsory, but there will be some choice offered in Section B.

For all three hour examination papers, ACCA has introduced 15 minutes reading and planning time.

This additional time is allowed at the beginning of each three-hour examination to allow candidates to read the questions and to begin planning their answers before they start writing in their answer books. This time should be used to ensure that all the information and exam requirements are properly read and understood.

During reading and planning time candidates may only annotate their question paper. They may not write anything in their answer booklets until told to do so by the invigilator.

The Essentials module papers all have a Section A containing a major case study question with all requirements totalling 50 marks relating to this case. Section B gives students a choice of two from three 25 mark questions.

Section A of each of the Options papers contains 50-70 compulsory marks from two questions, each attracting between 25 and 40 marks. Section B will offer a choice of two from three questions totalling 30-50 marks, with each question attracting between 15 and 25 marks.

The pass mark for all ACCA Qualification examination papers is 50%.

#### **GUIDE TO EXAMINATION ASSESSMENT**

ACCA reserves the right to examine anything contained within the study guide at any examination session. This includes knowledge, techniques, principles, theories, and concepts as specified.

For the financial accounting, audit and assurance, law and tax papers, ACCA will publish *examinable documents* every six months to indicate exactly what regulations and legislation could potentially be assessed at the following examination session.

Knowledge of new examinable regulations will not be assessed until at least six calendar months after the last day of the month in which documents are issued or legislation is passed. The relevant cut-off date for the June examinations is 30 November of the previous year, and for the December examinations, it is 31 May of the same year.

The study guide offers more detailed guidance on the depth and level at which the examinable documents will be examined. The study guide should therefore be read in conjunction with the examinable documents list.

# Syllabus

F6 VNM

#### AIM

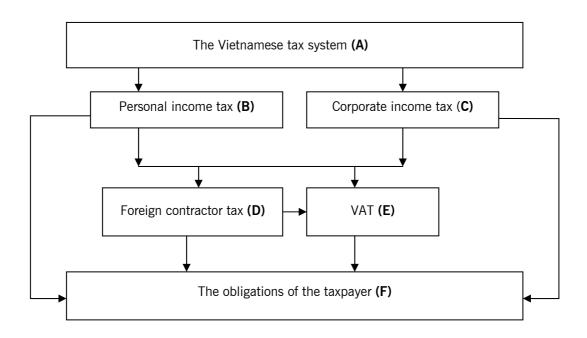

To develop knowledge and skills relating to the tax system as applicable to individuals and businesses (domestic and foreign owned) operating in Vietnam.

## **MAIN CAPABILITIES**

After completing this examination paper students should be able to:

- A Explain the operation and scope of the Vietnamese tax system
- **B** Explain and compute the personal income tax liabilities of individuals
- **C** Explain and compute the corporate income tax liabilities of both domestic and foreign owned companies
- D Explain and compute the tax liabilities arising under the regime applicable to foreign contractors
- **E** Explain and compute the effects of value added tax on businesses
- **F** Identify and explain the obligations of tax payers and the implications of non-compliance.

#### **RELATIONAL DIAGRAM OF MAIN CAPABILITIES**

#### **RATIONALE**

This syllabus introduces candidates to the subject of taxation and provides the core knowledge of the underlying principles and major technical areas of taxation, as they affect the activities of individuals and businesses.

In this syllabus, candidates are introduced to the rationale behind and the functions of the tax system. The syllabus then considers the separate taxes that an accountant would need to have a detailed knowledge of, such as personal income tax; corporate income tax; foreign contractor tax; and value added tax.

Having covered the core areas of the basic taxes, the candidate should be able to compute tax liabilities, explain the basis of their calculations, apply tax planning techniques for individuals and companies and identify the compliance issues for each major tax through a variety of business and personal scenarios and situations.

#### **DETAILED SYLLABUS**

## A The Vietnamese tax system

- 1. The overall function and purpose of taxation in a modern economy
- 2. Different types of taxes
- 3. Principal sources of revenue law and practice
- 4. Tax avoidance and tax evasion

# B Personal income tax

- 1. The scope of personal income tax (PIT)
- 2. Income subject to PIT
- 3. The comprehensive computation of monthly and annual taxable income and tax liabilities
- 4. The use of exemptions and reliefs in deferring and minimising PIT liabilities

# C Corporate income tax

- 1. The scope of corporate income tax (CIT)
- 2. Profits subject to CIT
- 3. The comprehensive computation of CIT liabilities
- 4. The use of exemptions and reliefs in deferring and minimising CIT liabilities

#### D Taxation of foreign contractors

- 1. The scope of the foreign contractor tax (FCT) regime
- 2. The computation of FCT liabilities
- 3. The administration of the FCT regime

#### E Value added tax

- 1. The scope of value added tax (VAT)
- 2. Bases and methods of calculation
- 3. The administration of VAT

#### F The obligations of taxpayers

- The systems of registration and the making of returns
- 2. The submission of information and claims and the payment of tax liabilities
- 3. The procedures relating to enquiries, appeals and disputes
- 4. Penalties for non-compliance

#### APPROACH TO EXAMINING THE SYLLABUS

The paper will be mainly computational and will have five questions, all of which will be compulsory.

- Questions one and two will be for a total of 55 marks with one of the questions being for 30 marks and the other for 25 marks. One of these two questions will focus on personal income tax and the other question will focus on corporate income tax.
- Question three will be for 20 marks, and will focus on foreign contractors.
- Questions four and five will be on any area of the syllabus and will be for 15 marks and 10 marks respectively.

There will always be a minimum of 10 marks on value added tax on any paper. These marks might be included as part of a question or there might be a separate question on value added tax.

Any of the five questions might include the consideration of issues relating to the minimisation or deferral of tax liabilities.

# Study Guide

#### A THE VIETNAMESE TAX SYSTEM

# 1. The overall function and purpose of taxation in a modern economy

a) Describe the purpose (economic, social etc) of taxation in a modern economy. [2]

# 2. Different types of taxes

- a) Identify the different types of taxes.[1]
- b) Explain the difference between direct and indirect taxation. [2]

# 3. Principal sources of revenue law and practice

- a) Describe the overall structure of the Vietnamese tax system. [1]
- b) State the different sources of revenue law.[1]
- c) Appreciate the interaction of the Vietnamese tax system with that of other tax jurisdictions.<sup>[2]</sup>

#### 4. Tax avoidance and tax evasion

- a) Explain the difference between tax avoidance and tax evasion.<sup>[1]</sup>
- b) Explain the need for an ethical and professional approach. [2]

#### **Excluded topics**

- Law on Foreign Investment
- Enterprise Law
- Intellectual property and technology transfer regulations (except as detailed in the Study Guide)
- Anti avoidance legislation (except as detailed in the Study Guide)

#### **B** PERSONAL INCOME TAX

# 1. The scope of personal income tax (PIT)

a) Identify the individuals, Vietnamese and foreign, liable to pay PIT. [2]

- b) Explain how the tax residence of an individual is determined. [2]
- c) Recognise the difference in the tax treatment of a resident individual and a non-resident individual.<sup>[2]</sup>
- d) Recognise the difference in the tax treatment of Vietnamese, overseas Vietnamese and foreign individuals.<sup>[2]</sup>
- e) Understand how a double taxation agreement can affect the liability to taxation of certain classes of individual and of different types of income.<sup>[2]</sup>

# 2. Income subject to PIT

- a) Explain the basis of assessment for income derived by an individual. [2]
- b) Define 'regular income' and 'irregular income'.[1]
- c) Identify exempt income, allowances and receipts not subject to PIT. [2]
- d) Distinguish between income which is subject to CIT and income which is subject to PIT. [2]
- e) Explain how the attribution of employment income is determined. [2]
- f) Explain how the income of individuals in the capacity of producers and traders is determined. [2]
- g) Explain how rental and leasing income is determined. [2]
- h) Explain the treatment of investment (savings) income, including securities purchase/sale differences. [2]
- i) Explain the treatment of the assignment of land use rights and land lease rights by private individuals.<sup>[2]</sup>

#### **Excluded topics**

Agricultural income of small scale producers

# 3. The comprehensive computation of monthly and annual taxable income and tax liabilities

- a) Compute regular income, including the assessment of employment benefits in kind. [2]
- b) Compute irregular income and distinguish its treatment from that of regular income.<sup>[2]</sup>
- State the expenses and apply the deductions (if any) that can be used to reduce taxable income.<sup>[2]</sup>
- d) Recognise the income subject to withholding tax as the final tax and as a prepayment and compute the tax to be withheld.<sup>[2]</sup>
- e) Compute the monthly and annual tax liabilities of Vietnamese citizens, Vietnamese residents and non-residents with regard to:
  - regular income (including the regular income of Vietnamese citizens with periods working overseas); and
  - irregular income.[2]
- f) Compute any available double taxation relief in respect of foreign taxes and withholding taxes. [2]
- g) Compute the tax payable on transfers of property, including land use rights and land lease rights made by private individuals. [2]
- 4. The use of exemptions and reliefs in deferring and minimising PIT liabilities
- Identify, compute and apply the right reduction/relief in given circumstances.<sup>[2]</sup>
- b) Explain how alternative remuneration packages can result in different amounts of taxable income and tax liability.<sup>[2]</sup>

# **Excluded topics**

Detailed provisions of individual tax treaties

#### C CORPORATE INCOME TAX

- 1. The scope of corporate income tax
- a) Explain and apply the territorial scope of corporate income taxation in Vietnam. [2]
- b) Identify the business establishments (domestic and foreign owned) liable to CIT.[2]
- c) Explain how the tax residence of a company is determined. [2]
- d) Recognise the difference in the tax treatment of a resident company from that of a non-resident company. [2]
- e) Understand how a double taxation agreement can affect the liability to taxation of different types of income. [2]
- f) Understand how securities companies and securities investment fund management companies are taxed.<sup>[2]</sup>

#### **Excluded topics**

- Taxation of state owned enterprises
- Taxation of cooperatives

## 2. Profits subject to CIT

- Explain the basis of assessment for CIT, including on the commencement and cessation of an enterprise.
- b) Define the terms 'taxable income' and 'tax period'.[1]
- c) Explain and compute 'turnover' for business establishments using both methods of paying value added tax and for specific industries (as set out in Article 4 para 3).<sup>[2]</sup>
- d) Recognise and compute 'reasonable deductible expenses'. [2]
- e) Recognise the items that do not constitute reasonable deductible expenses.<sup>[2]</sup>
- f) Explain and compute the 'other income' that should be included in taxable income. [2]

- g) Depreciation and amortisation of assets
  - State the conditions that must be satisfied for depreciation of a fixed asset to be included in reasonable expenses [1]
  - ii) Explain and compute the eligible cost of tangible fixed assets, intangible fixed assets and leased assets [2]
  - iii) Compute the allowable depreciation expense in accordance with Ministry of Finance decisions (Decision 206) [2]
  - iv) Distinguish between repairs and improvements and determine the effect of improvements on the calculation of depreciation [2]
  - v) Explain the treatment of a disposal or part disposal of depreciable assets. [2]

#### h) Transactions in securities

- i) Explain the treatment of transfers of shares, bonds and other securities by business enterprises [2]
- ii) Explain and apply the reliefs available to a foreign investor transferring the whole or part of their capital investment to a third party.
- Taxation of the assignment of land-use rights and land lease rights
  - i) Explain the circumstances in which the assignment of land use rights and land lease rights is liable to corporate income tax [2]
  - ii) Compute the taxable income (turnover less expenses) on the assignment of land use rights and land lease rights. [2]

# j) Relief for losses

- i) Explain and apply the relief available for losses against income in the year of loss (current year) and in subsequent years [2]
- ii) Explain the application of group relief and compute relevant amounts. [2]

## k) Transfer pricing

- i) State when companies are 'associated' [1]
- ii) Explain the powers of the tax office to determine income according to market prices [1]
- iii) Describe the methodologies used to determine market price.<sup>[1]</sup>

 Understand the implications of capital versus debt financing in the case of foreign invested enterprises and compute relevant amounts.<sup>[2]</sup>

# 3. The comprehensive computation of CIT liabilities

- a) Prepare a CIT computation, taking into account the tax regulations.<sup>[2]</sup>
- b) Compute the CIT liability at non-reduced rates. [2]
- c) Compute the CIT and additional tax payable on the assignment of land use rights and land lease rights. [2]
- d) Tax incentive exemptions and reductions
  - i) Describe the general application of CIT incentives applicable to investment in prescribed industries and sectors under the tax regulations [1]
  - ii) Explain the general qualifying conditions that must be satisfied, the nature of the incentive and the duration of application in each case [1]
  - iii) Compute the CIT liability at reduced rates (where applicable). [2]

#### e) Overseas aspects

- Business structure, representative offices, branch or subsidiary
  - Define 'resident establishment' [1]
  - Apply the concept of resident (permanent) establishment to determine the geographical source of profits [2]
  - Explain and distinguish the CIT implications of a representative office, branch and subsidiary of a foreign corporation <sup>[2]</sup>
- Recognise the circumstances in which foreign income is regarded as having been received in Vietnam [2]
- iii) Double taxation relief
  - Explain and apply the available forms of double taxation relief:
  - treaty relief (of DTAs as provided); and
  - unilateral tax credit relief [2]
  - Compute the double taxation relief available in respect of foreign withholding and underlying taxes. [2]

# **Excluded topics**

- Detailed lists of provinces or geographical locations etc for the purposes of tax incentives
- Detailed provisions of individual tax treaties

# 4. The use of exemptions and reliefs in deferring and minimising CIT liabilities

a) Identify, compute and apply the right reduction/relief in given circumstances. [2]

#### D TAXATION OF FOREIGN CONTRACTORS

# 1. The scope of the foreign contractor tax (FCT) regime

- a) Identify applicable and non-applicable subjects/transactions.<sup>[2]</sup>
- b) Explain the inter-relationship between the FCT regime and CIT, VAT and PIT.<sup>[2]</sup>
- c) Define the terms 'foreign contractor'; subcontractor'; 'Vietnamese party'; 'contractors' contract'; 'sub-contractors' contract'; 'income generated in Vietnam'; 'royalty'; and 'loan interest'.<sup>[1]</sup>

#### **Excluded topics**

 Definition of intellectual property rights and technology transfer in accordance with the Civil Code

### 2. The computation of FCT liabilities

- Compute the VAT and CIT liabilities for foreign contractors adopting the Vietnamese accounting system (VAS).<sup>[2]</sup>
- Compute the VAT and CIT liabilities for foreign contractors not adopting the Vietnamese accounting system (VAS).<sup>[2]</sup>
- c) Compute the VAT and CIT liabilities under the third method available to foreign contractors under Circular 55 (dated 26 June 2002). [2]
- d) Apply the double taxation relief provisions in the context of the FCT regime. [2]

# 3. The administration of the FCT regime

- Describe the procedures by which contractors adopting and not adopting VAS, register with the tax authorities.<sup>[1]</sup>
- b) Describe the procedures by which VAT and CIT is declared, paid and finalised under each of the three calculation methods, clearly distinguishing the obligations of the contractor and the Vietnamese party.<sup>[2]</sup>
- c) Explain the consequences for the Vietnamese party of non-compliance with the FCT regime. [2]

#### **E VALUE ADDED TAX**

## 1. The scope of value added tax (VAT)

- a) Describe the scope of value added tax. [2]
- b) State who is and who is not a VAT taxpayer. [2]
- c) Identify the taxable and non-taxable (exempt) objects. [2]
- d) List the principal zero-rated and reduced (5%) rate supplies.<sup>[1]</sup>

# 2. Bases and methods of tax calculation

- a) Explain the principles that apply to the valuation of supplies and imports. [2]
- b) Explain and apply the accepted methods of tax calculation:
  - tax credit; and
  - directly on the basis of added value.[2]
- c) Explain and apply the time of supply rules. [2]
- d) Explain and apply the place of supply rules. [2]
- e) Explain the relief that is available for bad debts. [2]
- f) Explain the treatment of credit services, including interest fees and other financial supplies. [2]
- g) Explain the treatment of free goods and internally consumed goods. [2]

 State the circumstances in which input VAT may be carried forward as a tax credit and/or refunded.<sup>[1]</sup>

#### 3. The administration of VAT

- Describe the procedures by which business establishments register with the tax authorities.<sup>[1]</sup>
- Explain how VAT is accounted for, including the regime of invoices and receipts.
- c) List the information that must be given on a valid VAT invoice. [1]
- d) Describe the procedures by which registered taxpayers submit returns and declare, amend and pay their VAT liabilities, including the procedures for annual finalisation.<sup>[2]</sup>
- e) Describe the procedures by which eligible taxpayers apply for a VAT refund.<sup>[1]</sup>
- State the penalties for non-compliance, underdeclaration and late payment.<sup>[1]</sup>
- Explain the rights and obligations of taxpayers with respect to VAT complaints.<sup>[1]</sup>
- Explain the duties, powers and responsibilities of the tax authorities with regard to the declaration and collection/recovery of VAT and VAT complaints.<sup>[1]</sup>

### F THE OBLIGATIONS OF TAXPAYERS

# 1. The systems of registration and the making of returns

- Describe the procedures by which individuals and business establishments register with the tax authorities.<sup>[1]</sup>
- b) Describe the procedures by which registered taxpayers submit returns and declare and amend their tax liabilities.<sup>[1]</sup>
- c) Explain the obligation of businesses to keep proper books of account and the consequences of failing to do so.<sup>[1]</sup>

# 2. The submission of information and claims and the payment of tax liabilities

- Describe the procedures by which registered taxpayers pay and finalise their CIT liabilities, including the additional tax payable on the assignment of land use rights and land lease rights.<sup>[2]</sup>
- b) Explain the CIT provisional tax payment system, including the methods of calculation, amendment, payment dates and system of credits.<sup>[2]</sup>
- Describe the procedures for the monthly deduction and payment of PIT, clearly distinguishing the responsibilities of each of the following:
  - bodies paying income;
  - individual taxpayers; and
  - the tax authorities.[2]
- d) Describe the procedures for PIT tax finalisation in the case of Vietnamese citizens, Vietnamese residents and foreign individuals.<sup>[2]</sup>
- e) Explain how relief is given in respect of taxpayer error. [1]
- e) Describe the procedures by which eligible taxpayers may apply for a tax refund. [1]

# 3. The procedures relating to enquiries, appeals and disputes

- Explain the rights and obligations of taxpayers with respect to tax complaints.<sup>[1]</sup>
- b) Explain the duties, powers and responsibilities of the tax authorities with regard to tax declarations, the calculation, assessment and collection/recovery of tax due, tax complaints and tax audit.<sup>[1]</sup>

# 4. Penalties for non-compliance

 State the penalties for non-compliance, underdeclaration and late tax payment.<sup>[1]</sup>

# **READING LIST**

Vietnam Laws Online Database, Phillips Fox (English Versions) (including: Decision 206, Circular 55 and Circular 133).

OECD Model Tax Convention on double taxation.

The study of relevant articles in the ACCA's *student* accountant magazine is also recommended.

Note: Whenever the word "regulations" is used, it refers to the Law, Decrees and Circulars of the particular tax.
