# ADM 2006 

## STATEWIDE ASSESSMENT

## MATHEMATIGS TEST 2

## STUDENT DETALLS

## TEST INSTRUGTIONS

1. You must do your own work.
2. Do not speak to other students during the test.
3. Raise your hand if you need to speak to the teacher.
4. Follow all directions given to you by the teacher.
5. All questions must be answered using the pencil you have been given. If you need to change an answer, carefully erase it and write another answer.
6. You are not permitted to use a calculator.
7. To confirm you have the correct booklet, print your name below.

Print your name here:
YOU HAVE 40 MINUTES TO COMPLETE THIS TEST.

## Year 9 Mathematics - You have 40 minutes to complete this test. Students are NOT permitted to use calculators.

## Task 1 - The Games

The following information is needed for questions 1 and 2.

6000 athletes and officials will attend the 2006 Games. 4500 of these are athletes.

1 How many officials will there be? in the box

2 What percentage of the 6000 athletes and officials are athletes?
$\square$

The table below shows the costs of tickets to watch the finish of the marathon.

| Level A | Level B |
| :---: | :---: |
| $\$ 30$ | $\$ 20$ |

Kara spent a total of $\$ 240$ on nine tickets.

3 How many Level A tickets did she purchase?
$\square$ Level A tickets

## The following information is needed for questions 4 and 5.

Men's and Women's Marathon Times

| MEN'S MARATHON RECORDS |  |  | WOMEN'S MARATHON RECORDS |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Year | $\begin{gathered} \text { Time } \\ \text { (h:m:s) } \end{gathered}$ | Time (nearest min) | Year | $\begin{aligned} & \text { Time } \\ & \text { (h:m:s) } \end{aligned}$ | $\begin{gathered} \text { Time } \\ \text { (nearest min) } \end{gathered}$ |
| 1960 | 2:15:16 | 135 | 1964 | 3:19:33 | 200 |
| 1969 | 2:08:33 | 129 | 1970 | 3:02:53 | 183 |
| 1981 | 2:08:18 | 128 | 1980 | 2:25:41 | 146 |
| 1988 | 2:06:50 | 127 | 1998 | 2:20:47 | 141 |
| 1998 | 2:06:05 | 126 | 2001 | 2:18:47 | 139 |

Nine of the ten records above have been plotted on the graph below.

4 On the graph, circle the point which shows the men's marathon record for 1960.

5 One of the records is missing from this graph.
Carefully plot $(\times)$ the missing record on this graph.

6 In 2003, both the men's and women's marathon records were broken.

Write your answers in the boxes

Complete the tables below by converting both times to the nearest minute.

| MEN'S MARATHON |  |  |
| :---: | :---: | :---: |
| RECORD |  |  |\(\left|\begin{array}{c}Time <br>

(h:m:s)\end{array} \quad $$
\begin{array}{c}\text { Time } \\
\text { (nearest min) }\end{array}
$$\right|\)

| WOMEN'S MARATHON |  |  |
| :---: | :---: | :---: |
| RECORD |  |  |\(\left|\begin{array}{c}Time <br>

(h:m:s)\end{array} \quad $$
\begin{array}{c}\text { Time } \\
\text { (nearest min) }\end{array}
$$\right|\)

## The following information is needed for questions 7 and 8 .

The medal tally for the top three nations from the 2002 Games is shown in the table below.

7 The totals in the table are correct, but one of the other numbers in the table is not correct.

Write your answer in the box

| MEDAL TALLY 2002 |  |  |  |  |
| :--- | ---: | :---: | :---: | :---: |
|  | Gold | Silver | Bronze | Total |
| Australia | 82 | 62 | 63 | $\mathbf{2 0 7}$ |
| England | 54 | 51 | 60 | $\mathbf{1 6 5}$ |
| Canada | 31 | 40 | 44 | $\mathbf{1 1 6}$ |
| Total | $\mathbf{1 6 7}$ | $\mathbf{1 5 4}$ | $\mathbf{1 6 7}$ | $\mathbf{4 8 8}$ |

The incorrect number in the table is $\square$

8 Which country had a ratio closest to 4:3 of gold to silver medals in 2002 ?

- Australia
$\bigcirc$
EnglandCanada

## Task 2 - The Set Square

Harry wants to make a set square.

He starts with a piece of wood this size.

$9 \quad$ What is the area of the piece of wood?

$\square$ $\mathrm{cm}^{2}$

Harry measures one of the angles to be $37^{\circ}$ as shown.

10 What is the size of the angle marked $x$ ?

$$
x=\square^{\circ}
$$

Harry cuts a triangle out of the middle of the piece of wood.
The shaded region is a sketch of the finished set square.

11 What is the area of the shaded region?

The cut out triangle, $A B C$, is similar to the original piece of wood, $X Y Z$.

12 What is the scale factor of the enlargement of triangle $A B C$ to triangle $X Y Z$ ?
Scale factor $=1$ : $\square$

Jody thinks it might be easier to make the set square in 3 pieces.
Each piece is a trapezium.

A sketch of piece 1 is shown below.

13 What is the size of the angle marked $a$ ?

$$
a=\square^{\circ}
$$

This sketch shows some of the lengths that Jody measures on piece 1.

14 What is the size of the length marked $x \mathrm{~cm}$ ?

$\square$

15 What is the area of this trapezium?

Len is making a puzzle.
A sketch of one of the pieces is shown below.

16 What is the length of the side marked $d \mathrm{~cm}$ ?

There are 5 pieces to the puzzle.
Four are congruent triangles and the fifth is a square.
They have to be arranged to make a 13 cm square as shown below.

17 Use your answer from Q16 to calculate the area of the shaded square in the above diagram.
