IMPORTANT INFORMATION

Accreditation period

Units 1–4: 2002–2011

Accreditation period ends 31 December 2011

Other sources of information

The *VCE Bulletin* is the only official source of changes to regulations and accredited studies. The *VCE Bulletin*, including supplements, also regularly includes advice on VCE studies. It is the responsibility of each VCE teacher to refer to each issue of the *VCE Bulletin*.

To assist teachers in assessing school-assessed coursework in Units 3 and 4 the Board of Studies will publish annually an assessment guide which will include advice on the scope of the tasks and the criteria for assessment.

The *VCE Administrative Handbook* for the current year contains essential information on assessment and other procedures.

VCE providers

Throughout this study design the term ‘school’ is intended to include both schools and other VCE providers.

Photocopying

VCE schools only may photocopy parts of this study design for use by teachers.

Introduction

THE LANGUAGE

The language to be studied and assessed is modern standard Hindi. This is the form of Hindi which has been approved by the Central Hindi Directorate (Government of India), New Delhi.

The standard grammatical description produced by the Government of India is *A Basic Grammar of Modern Hindi* by Dr Aryendra Sharma.

RATIONALE

The study of a language other than English contributes to the overall education of students, particularly in the area of communication, but also in the areas of cross-cultural understanding, cognitive development, literacy and general knowledge. It provides access to the culture of communities which use the language and promotes understanding of different attitudes and values within the wider Australian community and beyond.

The study of Hindi develops students' ability to communicate in a language that is the official language of the Republic of India, fulfils the role of a *lingua-franca* on the Indian sub-continent and is the third most widely spoken language in the world. A knowledge of modern standard Hindi also provides a foundation on which an understanding of the innumerable regional variants and various styles of spoken Hindi, found both within and outside the subcontinent, may be acquired. Hindi also shares a single grammatical structure with Urdu, the official language and *lingua-franca* in Pakistan.

The study of Hindi provides students with access to a rich and diverse cultural tradition developed over a long period of time. This tradition includes poetry, prose, philosophy, classical Indian dance, film, music, meditation and yoga.

The ability to communicate in Hindi may, in conjunction with other skills, provide students with enhanced vocational opportunities in areas such as trade, commerce, information and communication technology, tourism, administration, social services and education.

AIMS

This study is designed to enable students to:

- use Hindi to communicate with others;
- understand and appreciate the cultural contexts in which Hindi is used;
- understand their own culture(s) through the study of other cultures;
- understand language as a system;
- make connections between Hindi and English, and/or other languages;
- apply Hindi to work, further study, training or leisure.

STRUCTURE

The study is made up of four units. Each unit is designed to enable students to achieve a set of outcomes. Each outcome is described in terms of the key knowledge and skills students are required to demonstrate.

ENTRY

Hindi is designed for students who will, typically, have studied Hindi for at least 400 hours at completion of Year 12. It is possible, however, that some students with less formal experience will also be able to meet the requirements successfully.

Students must undertake Unit 3 prior to undertaking Unit 4.

DURATION

Each unit involves at least 50 hours of scheduled classroom instruction.

CHANGES TO THE STUDY DESIGN

During its period of accreditation minor changes to the study will be notified in the *VCE Bulletin*. The *VCE Bulletin* is the only source of changes to regulations and accredited studies and it is the responsibility of each VCE teacher to monitor changes or advice about VCE studies published in the *VCE Bulletin*.

MONITORING FOR QUALITY

The Board of Studies will, from time to time, undertake an audit of Hindi to ensure that the study is being taught and assessed as accredited. Teachers must ensure that all records and samples of students' work are maintained and available should the study be subject to audit. The details of the audit procedures and requirements are published annually in the *VCE Administrative Handbook*. Schools will be notified during the teaching year of schools and studies to be audited.

SAFETY

It is the responsibility of the school to ensure that duty of care is exercised in relation to the health and safety of all students undertaking this study.

USE OF INFORMATION TECHNOLOGY

In designing courses for this study teachers are encouraged to incorporate information technology in teaching and learning activities. The Advice for Teachers section provides specific examples of how information technology can be used in this study.

COMMUNITY STANDARDS

It is the responsibility of the school to ensure that all activities in this study are conducted within ethical guidelines. This is of particular concern in the use of information located on the World Wide Web.

VOCATIONAL EDUCATION AND TRAINING OPTION

Schools wishing to offer the Vocational Education and Training (VET) option should note that they will need to seek registration as a training provider, or to enter into an agreement with a registered training provider able to offer the module outcomes to students on their behalf. For further information, contact the Office of Post Compulsory Education, Training and Employment (PETE).

The school-assessed coursework component of this study is designed to allow the integration of tasks required in Modules 2A and 2B of the *National TAFE Language Course Stage One**. The outcomes for Module 2A relate most closely to Units 1 and 2; the outcomes for Module 2B relate most closely to Units 3 and 4.

The VCE coursework assessment tasks (including those required for the detailed study VET option) are sufficiently flexible for both the VCE outcomes and selected outcomes required for Modules 2A and 2B to be met. Examples of how this might be done are provided on pages 49–52.

Students who successfully meet all of the outcomes required for Module 2A will be eligible to receive from their registered provider a Certificate II in Applied Languages. Students who meet all of the outcomes required for Module 2B will be eligible to receive a Certificate III in Applied Languages.

It is important to note that there are significantly more outcomes to be met in both Modules 2A and 2B than in VCE Units 1 and 2, and in Units 3 and 4, respectively. Although there is considerable scope for several of the module outcomes to be incorporated into one VCE assessment task, it is possible that (unless the student has completed some of the module outcomes previously) a number of additional assessment tasks (beyond the eight required for VCE Units 1 and 2, and six required for VCE Units 3 and 4) will be required, if the student is to achieve them all for the purposes of VET certification.

Schools might therefore wish to consider incorporating outcomes from Module 2A into Year 10 programs as well as into VCE Unit 1, and outcomes from Module 2B into VCE Unit 2 tasks, in addition to tasks in Units 3 and 4.

**National TAFE Language Course: Stage One; Generic Curriculum*, ACTRAC Products, 1994, available from Australian Training Products (tel: 03 9630 9836)

No additional enrolment procedure is required for students wishing to follow this VET option. It is important to note, also, that students who successfully complete the outcomes for Modules 2A and/or 2B will not receive any additional credit for satisfactory completion of the VCE, or for the calculation of the ENTER.

Assessment and reporting

SATISFACTORY COMPLETION

The award of satisfactory completion for a unit is based on a decision that the student has demonstrated achievement of the set of outcomes specified for the unit. This decision will be based on the teacher's assessment of the student's overall performance on assessment tasks designated for the unit. Designated assessment tasks are provided in the details for each unit. The Board of Studies will publish annually an assessment guide which will include advice on the scope of the assessment tasks and the criteria for assessment.

Teachers must develop courses that provide opportunities for students to demonstrate achievement of outcomes. Examples of learning activities are provided in the Advice for Teachers section.

Schools will report a result for each unit to the Board of Studies as S (Satisfactory) or N (Not Satisfactory).

Completion of a unit will be reported on the Statement of Results issued by the Board of Studies as S (Satisfactory) or N (Not Satisfactory). Schools may report additional information on levels of achievement.

AUTHENTICATION

Work related to the outcomes will be accepted only if the teacher can attest that, to the best of their knowledge, all unacknowledged work is the student's own. Teachers need to refer to the current year's *VCE Administrative Handbook* for authentication procedures, and should note that all assessment tasks for Units 3 and 4 should be conducted in class time and under supervision.

LEVELS OF ACHIEVEMENT

Units 1 and 2

Procedures for the assessment of levels of achievement in Units 1 and 2 are a matter for school decision. Assessment of levels of achievement for these units will not be reported to the Board of Studies. Schools may choose to report levels of achievement using grades, descriptive statements or other indicators.

Units 3 and 4

The Board of Studies will supervise the assessment of all students undertaking Units 3 and 4.

In Hindi the student's level of achievement will be determined by school-assessed coursework and two end-of-year examinations. Percentage contributions to the final assessment are as follows:

- Unit 3 school-assessed coursework: 25 per cent
- Unit 4 school-assessed coursework: 25 per cent
- Units 3 and 4 examinations: 50 per cent.

Areas of study

Units 1–4: Common areas of study

The areas of study for Hindi comprise themes and topics, grammar, text types, vocabulary and kinds of writing. They are common to all four units of the study, and they are designed to be drawn upon in an integrated way, as appropriate to the linguistic needs of the student, and the outcomes for the unit.

The themes and topics are the vehicle through which the student will demonstrate achievement of the outcomes, in the sense that they form the subject of the activities and tasks the student undertakes.

The grammar, vocabulary, text types and kinds of writing are linked, both to each other, and to the themes and topics. Together, as common areas of study, they add a further layer of definition to the knowledge and skills required for successful achievement of the outcomes.

The common areas of study have been selected to provide the opportunity for the student to build upon what is familiar, as well as develop knowledge and skills in new and more challenging areas.

THEMES, TOPICS AND SUB-TOPICS

There are three prescribed themes:

- The individual
- The Hindi-speaking communities
- The changing world

These themes have a number of prescribed topics and suggested sub-topics. The placement of the topics under one or more of the three themes is intended to provide a particular perspective or perspectives for each of the topics. The suggested sub-topics expand on the topics, and are provided to guide the student and teacher as to how topics may be treated.

It is not expected that all topics will require the same amount of study time. The length of time and depth of treatment devoted to each topic will vary according to the outcomes being addressed, as well as the linguistic needs and interests of the student.

UNITS 1–4

As well as acquiring the linguistic resources to function effectively as a non-specialist within all three themes, the student is required to undertake a detailed study in Units 3 and 4. This detailed study should relate to the prescribed themes and topics and be based on a selected sub-topic. For further details refer to pages 26 and 27.

TEXT TYPES

The student will be expected to be familiar with the following text types. Text types indicated with an asterisk (*) are those which the student may be expected to produce in the external examination. Teachers may introduce the student to a wider range of text types in the course of their teaching and learning program.

Students should be encouraged to use dictionaries. It is expected that teachers will assist students to develop the necessary skills and confidence to use dictionaries effectively. Suitable editions are listed in the Resources section of this study design. Information on the use of dictionaries in the end-of-year written examination is provided on page 34.

AREAS OF STUDY

The areas of study common to Units 1–4 are detailed on pages 13–19 of this study design.

OUTCOMES

For this unit students are required to demonstrate achievement of three outcomes.

Outcome 1

On completion of this unit the student should be able to establish and maintain a spoken or written exchange related to personal areas of experience.

Key knowledge and skills

To achieve this outcome the student should demonstrate the knowledge and skills to:

- use structures related to describing, explaining and commenting on past, present or future events or experiences, both real and imaginary;
- initiate, maintain and close an exchange;
- use a range of question and answer forms;
- link and sequence ideas and information;
- recognise and respond to cues for turn taking;
- self-correct/rephrase or use fillers to maintain communication;
- communicate in a range of text types, for example letter, fax, email, face to face or by telephone;
- use appropriate intonation, stress, pitch/spelling and punctuation;
- use appropriate non-verbal forms of communication, such as eye contact and handshake.

Outcome 2

On completion of this unit the student should be able to listen to, read and obtain information from written and spoken texts.

Key knowledge and skills

To achieve this outcome the student should demonstrate the knowledge and skills to:

- apply knowledge of conventions of text types;
- identify key words, main points and supporting ideas;
- order, classify and link items from various parts of the text;
- apply knowledge of vocabulary and structures related to the topics studied;
- recognise common patterns of word formation, cognates, grammatical markers, and use these to infer meaning;
- convey gist and global understanding as well as items of specific detail;
- establish and confirm meaning through re-reading, using headings and diagrams, and referring to dictionaries.

Outcome 3

On completion of this unit the student should be able to produce a personal response to a text focusing on real or imaginary experience.

Key knowledge and skills

To achieve this outcome the student should demonstrate the knowledge and skills to:

- apply the conventions of relevant text types, for example review, article;
- use structures related to explaining, describing, comparing and commenting on past, present and future events or experiences;
- use stylistic features, such as repetition and contrast;
- identify main ideas, events and sequences of action;
- link ideas, events and characters;
- summarise, explain, compare and contrast experiences, opinions, ideas, feelings and reactions;
- select and make use of relevant reference materials;
- provide personal comment/perspective on aspects of texts;
- respond appropriately for the context, purpose and audience described.

ASSESSMENT

The award of satisfactory completion for a unit is based on a decision that the student has demonstrated achievement of the set of outcomes specified for the unit. This decision will be based on the teacher's assessment of the student's overall performance on assessment tasks designated for the unit. The Board of Studies will publish annually an assessment guide which will include advice on the scope of the assessment tasks and the criteria for assessment.

The key knowledge and skills listed for each outcome should be used as a guide to course design and the development of learning activities. The key knowledge and skills do not

UNIT 1

constitute a checklist and such an approach is not necessary or desirable for determining achievement of outcomes. The elements of key knowledge and skills should not be assessed separately.

Assessment tasks must be a part of the regular teaching and learning program and must not unduly add to the workload associated with that program. They must be completed in class and under supervision.

Demonstration of achievement of Outcomes 1, 2 and 3 must be based on the student's performance on a selection of assessment tasks. Teachers must ensure that tasks selected are of comparable scope and demand, and that over the course of the unit, all three outcomes are addressed. Tasks should also be selected to ensure that, over the course of the unit, both oral and written skills in Hindi are assessed. Therefore, if an oral task is selected to address Outcome 1, a written task should be selected to address Outcome 3, and vice versa.

A total of four tasks should be selected from those listed below.

Outcome 1:

- informal conversation

or

- reply to personal letter/email/fax.

Outcome 2:

- listen to spoken texts (e.g. conversations, interviews, broadcasts) to obtain information to complete notes, charts or tables in Hindi or English

and

- read written texts (e.g. extracts, advertisements, letters) to obtain information to complete notes, charts or tables in Hindi or English.

Outcome 3:

- oral presentation

or

- review

or

- article.

It is expected that the student responds in Hindi to all assessment tasks that are selected to address Outcomes 1 and 3. Of the two tasks required for Outcome 2, one should require a response in Hindi, and the other a response in English.

Unit 2

AREAS OF STUDY

The areas of study common to Units 1–4 are detailed on pages 13–19 of this study design.

OUTCOMES

For this unit students are required to demonstrate achievement of three outcomes.

Outcome 1

On completion of this unit the student should be able to participate in a spoken or written exchange related to making arrangements and completing transactions.

Key knowledge and skills

To achieve this outcome the student should demonstrate the knowledge and skills to:

- use structures related to asking for or giving assistance or advice, suggesting, explaining, agreeing and disagreeing;
- use fillers, affirming phrases and formulaic expressions related to negotiation/transaction;
- make arrangements, come to agreement and reach decisions;
- obtain and provide goods, services and public information;
- initiate, maintain, direct as appropriate, and close an exchange;
- use examples and reasons to support arguments and evidence;
- use gesture, stance and facial expression to enhance meaning and persuade.

Outcome 2

On completion of this unit the student should be able to listen to, read, and extract and use information and ideas from spoken and written texts.

Key knowledge and skills

To achieve this outcome the student should demonstrate the knowledge and skills to:

- use vocabulary, structures and content related to topics studied;
- apply the conventions of relevant text types;
- infer points of view, opinions and ideas;
- classify, compare and explain arguments and ideas.

UNIT 2**Outcome 3**

On completion of this unit the student should be able to give expression to real or imaginary experience in written or spoken form.

Key knowledge and skills

To achieve this outcome the student should demonstrate the knowledge and skills to:

- apply the conventions of the relevant text types, for example journal entry, short story or letter;
- use structures related to describing, recounting, narrating and reflecting on events or experiences;
- use simple stylistic techniques such as repetition, questions and exclamations;
- structure writing to sequence main ideas/events logically.

ASSESSMENT

The award of satisfactory completion for a unit is based on a decision that the student has demonstrated achievement of the set of outcomes specified for the unit. This decision will be based on the teacher's assessment of the student's overall performance on assessment tasks designated for the unit. The Board of Studies will publish annually an assessment guide which will include advice on the scope of the assessment tasks and the criteria for assessment.

The key knowledge and skills listed for each outcome should be used as a guide to course design and the development of learning activities. A total of four tasks should be selected from those listed below.

Outcome 1:

- formal letter, or fax, or email

or

- role-play

or

- interview.

Outcome 2:

- listen to spoken texts (e.g. conversations, interviews, broadcasts) and reorganise information and ideas in a different text type

and

- read written texts (e.g. extracts, advertisements, letters) and reorganise information and ideas in a different text type.

Outcome 3:

- journal entry

or

- personal account

or

- short story.

It is expected that the student responds in Hindi to all assessment tasks selected.

Units 3 and 4

AREAS OF STUDY

The areas of study common to Units 1–4 are detailed on pages 13–19 of this study design.

DETAILED STUDY

The student is required to undertake a detailed study during Units 3 and 4.

There are two options for detailed study: Language and culture through texts; Language and culture through VET.

The student will be expected to discuss their detailed study in Section 2, Discussion, of the Oral Examination.

Over the course of Units 3 and 4, approximately 15 hours of scheduled class time should be devoted to the detailed study.

The detailed study should be based on a sub-topic related to one or more of the prescribed topics listed in the table on page 14. The sub-topic may be drawn from this table, or a different sub-topic may be selected.

One sub-topic may be selected for a whole class or different sub-topics may be selected for individuals or groups of students. In the former case, it will be important to select a sub-topic that is sufficiently broad to accommodate a range of interests and perspectives, so that each student can provide an individual response to the coursework assessment task(s) set, as well as in the Discussion in Section 2 of the Oral Examination.

At least one and no more than two of the six coursework assessment tasks for school-assessed coursework should focus on the detailed study. The detailed study assessment task(s) should be designed to assess the student's understanding of the language and culture of the Hindi-speaking community and should be selected from those required to assess achievement of Outcome 2, Unit 4 (detailed on page 33). The sub-topics and texts should also be selected to ensure the student is able to focus on the knowledge and skills associated with Outcome 2, Unit 4.

Language and culture through texts

The detailed study should enable the student to explore and compare aspects of the language and culture of the Hindi-speaking community through a range of oral and written texts related to the selected sub-topic. This will enable the student to develop knowledge and understanding of, for example, historical issues, aspects of contemporary

society or the literary or artistic heritage of the community. The texts which form the basis of this study might include feature films, short films, short stories, songs, newspaper articles, electronic texts, documentaries, music, painting and oral histories. The length of texts selected will vary depending on the type of text, its density and level of complexity. In order for the student to be able to explore their sub-topic in sufficient depth to meet the relevant outcomes, it is suggested that a range of at least three different kinds of text are selected. These might include aural and visual, as well as written texts.

Language and culture through VET

This detailed study allows the student to explore and compare aspects of the language and culture of the Hindi community through the study of outcomes drawn from Module 2B of the National TAFE Language Course, Stage One.

The sub-topic selected for this detailed study must allow for the incorporation of study related to Outcomes 14, 15, and one or more of Outcomes 2, 5 and 13 from module 2B of the National TAFE Language Course, Stage One. For further details of this course, refer to page 9.

This decision will be based on the teacher's assessment of the student's overall performance on assessment tasks designated for the unit. The Board of Studies will publish annually an assessment guide which will include advice on the scope of the assessment tasks and the criteria for assessment.

The key knowledge and skills listed for each outcome should be used as a guide to course design and the development of learning activities. The key knowledge and skills do not constitute a checklist and such an approach is not necessary or desirable for determining achievement of outcomes. The elements of key knowledge and skills should not be assessed separately.

Assessment of levels of achievement

The student's level of achievement for Unit 3 will be determined by school-assessed coursework and two end-of-year examinations.

Contributions to final assessment

School-assessed coursework for Unit 3 will contribute 25 per cent to the final assessment.

The level of achievement for Units 3 and 4 will also be assessed by two end-of-year examinations, which will contribute 50 per cent to the final assessment.

School-assessed coursework

Teachers will provide to the Board of Studies a score representing an assessment of the student's level of achievement.

The score must be based on the teacher's rating of performance of each student on the tasks set out in the following table and in accordance with an assessment guide published

UNIT 3

annually by the Board of Studies. The assessment guide will also include advice on the scope of the tasks and the criteria for assessment.

Assessment tasks must be a part of the regular teaching and learning program and must not unduly add to the workload associated with that program. They must be completed in class time and under supervision.

Advice for teachers

DEVELOPING A COURSE

A course outlines the nature and sequence of teaching and learning necessary for students to demonstrate achievement of the set of outcomes for a unit. Outcomes are introduced by summary statements and are followed by the key knowledge and skills which relate to the outcomes.

It is recognised that the four macroskills of listening, reading, writing and speaking are elements that generally operate in an integrated way. Nevertheless, it is usually possible to identify a focus skill, or combination of skills that predominate in the performance of a particular task or activity. This approach is reflected in the organisation of the outcomes, and the key knowledge and skills associated with them. The overall balance of emphasis across the macroskills in assessment tasks is indicated in the table on page 38.

Teachers must develop courses that include appropriate learning activities to enable students to develop the knowledge and skills identified in the outcome statements in each unit. For Units 1 and 2, teachers must select assessment tasks from those provided. Tasks do not have to be lengthy to make a decision about student demonstration of achievement of an outcome.

In Units 3 and 4, assessment is more structured. For school-assessed coursework, assessment tasks are prescribed. The contribution that each task makes to the total school-assessed coursework is also stipulated.

METHODS

Any communicative teaching method or combination of methods which allows students to demonstrate achievement of the outcomes of the course is appropriate. Since the aims and outcomes emphasise communication, teaching methods should ensure that students are provided with a high level of appropriate input in the language, and are involved in activities which encourage purposeful language use.

Teachers should note, however, that the listing of vocabulary, grammatical structures, and other elements of language indicates that a focus on these is also a necessary part of students' preparation. Teachers themselves will judge at what points in their course such instruction will be needed.

STRUCTURE AND ORGANISATION

The idea of an organisational focus may be helpful in planning and sequencing learning activities and assessment tasks, and the content associated with them. Themes and topics can serve as effective organisational focuses for activities, as can a discourse form, a skill or a text.

USE OF INFORMATION TECHNOLOGY

In designing courses and developing learning activities for Hindi, teachers are encouraged to make use of applications of information technology and new learning technologies, such as computer-based learning, multimedia and the World Wide Web.

EXAMPLE OUTLINES

The example outlines which follow are not intended to represent fully worked courses, but illustrate one way of integrating areas of study, outcomes, learning activities and assessment tasks. MAIN CHARACTERISTICS OF DIFFERENT KINDS OF WRITING

The following descriptions outline the main characteristics of five different kinds of writing. They are intended as a guide only; students would not be expected to include all aspects in their writing.

Personal writing:

- Creates a sense of person/personality for the writer in the reader's mind.
- Establishes a relationship/intimacy/empathy between the writer and the reader.
- Usually employs first and/or second person; subjective; informal, familiar style/register; often includes emotive language.
- Emphasises ideas, opinions, feelings and impressions, rather than factual, objective information.
- Uses, in reflective writing, the act of writing to help the author understand and unravel his/her own feelings or ideas.
- May, in certain contexts, use contracted language, such as is used in speech.

Imaginative writing:

- Manipulates the reader’s response to the piece to create the desired impression or response; visual and/or emotional appeal.
- Usually creates a strong sense of context (physical surroundings and atmosphere) and situation.
- Normally includes description (person, place, emotion, atmosphere), so careful selection of language such as adjectives and adverbs (or their equivalents) are important.
- Uses techniques such as variation in sentence length, juxtaposition of different sentence lengths, careful control of structure and sequencing, to add to the overall effect by creating the desired atmosphere or conveying the required emotion.
- May break normal sequencing for added impact, such as in a flashback or in a final disclosure which puts a different interpretation on preceding passages.

Persuasive writing:

- Manipulates the reader’s emotions and opinions in order to achieve a specific purpose, that is, to achieve a desired outcome or effect which is important to and selected by the writer.
- Is strongly influenced by the nature of the target audience in choosing the persuasive techniques to adopt; that is, the language (vocabulary, sentence structures, style/register), structure and sequencing of the piece are framed with the particular audience and purpose in mind.
- Requires choice of the best word (with the precise shade of meaning and overtones of approval/disapproval, virtue/vice etc.), so range of vocabulary and dictionary technique are important.
- Aims in certain instances (for example, advertisements) to keep the target audience unaware of being manipulated and adopts an appearance of objectivity and rationality by using indirect, subtle, secretive techniques; confidential, intimate, collaborative style and register.
- Sometimes uses exaggeration, extravagant language, and humour to create a conspiratorial relationship between the writer and the reader.
- Often uses the second person for direct address and appeal.
- Sometimes employs direct speech and questions to intensify the relationship with the audience.
- May use techniques such as the use of technical or scientific language and superlatives or quantitative statements to lend authority to the content.

Informative writing:

- Aims to convey information from the writer to the reader as clearly, comprehensively and accurately as possible.
- Usually uses objective style and impersonal expressions, although the writer may use an informal style to establish a relationship of ‘friendly helper’ with the reader.

- Normally has no particular point of view to convey; if a point of view is involved, the writing becomes either persuasive (aiming to convert the reader to a particular point of view or attitude in order to convince him or her to act or respond in a certain way) or evaluative (aiming to weigh two or more items/ideas in order to convince the reader rationally and objectively that a particular point of view is correct).
- Generally uses facts, examples, explanations, analogies and sometimes statistical information, quotations and references as evidence.
- Chooses language, structure and sequence to make the message clear and unambiguous, so the sequencing of information is usually logical and predictable.
- Probably uses few adjectives, adverbs and images, except as examples or analogies in explanation.

Evaluative writing:

- Aims to reach a conclusion acceptable to an intelligent, unbiased reader through the logical presentation and discussion of facts and ideas.
- Presents two or more important aspects of an issue or sides of an argument and discusses these rationally and objectively; using evidence to support the contrasting sides or alternatives.
- Uses objective style; appeals to reason not emotion; creation of an impression of balance and impartiality is essential.
- Often includes expressions of cause, consequence, opposition and concession.
