MUSIC: SAMPLE ASSESSMENT PROCESS

Listed below are the units of competence in VCE VET Units 3–4:

CUSMPF04A	Prepare self for performance	35
CUSMPF10A	Develop and practise improvisation	35
CUSMGE01A	Maintain self or group in music	70
CUSMPF06A	Extend technical skills in performance	20
CUSMGE12A	Maintain and expand music knowledge and critical listening skills	85

CREATE THE ASSESSMENT PLAN

Identify and group appropriate units of competence after carefully considering advice in the relevant Training Package, the VCAA requirements in the relevant Assessment Guide and the work focus of the units.

The following unit of competence was selected:

CUSMGE12A Maintain and expand music knowledge and critical listening skills 85 hours

This unit represents a total of 85 hours and is within the VCAA requirement of not exceeding 100 hours within one task.

DESIGN THE ASSESSMENT TASK

MUSIC – WORK PROJECT STUDENT INFORMATION

This project requires you to describe an area of musical interest, such as Rock or Classical Music, in which you wish to focus your attention and you are to provide evidence over the duration of the project that you have demonstrated your musical skills by applying the relevant knowledge in the area of musical interest. You will be given approximately five hours to research your topic and ten hours to complete the project.

SPECIFIC REQUIREMENTS OF THE TASK

The following assessment task is part of your assessment for the VCE VET Music. You will be required to work in the role of a music critic for the entertainment section of a well known newspaper. The assessment task involves writing a critical review of an artist or artists. The review could be of a live performance, a recording of a live performance or a recent studio album release.

Part 1: Plan and research the activity

Select an artist/s within your area of interest. Choose a live performance, a recording of a live performance or a studio album which you would like to review. Organise a session with your trainer/teacher to agree on your plan before proceeding.

Attend the concert or critically listen to the recording you have selected. Collect any other information as required to prepare for the review. This may include information about the style of music or the artist/s you have selected, other reviews or articles, biographies, interviews, music scores etc.

Points to consider – this part of the task will be assessed against your ability to maintain and apply knowledge of music styles, trends, artists and repertoire to music industry work and learning. For example:

- working effectively with an instrumental or vocal tutor
- observing and listening to the performance of others
- music or score reading
- listening to a range of music
- reading about music

Part 2: The review

Write a review (approximately 1200–1500 words) analysing the performance or recording. All material used to prepare the review should be footnoted.

Critical aspects of evidence:

- critical listening.
- maintaining appropriate current music knowledge and applying to own work and learning.

The five scoring criteria for this assessment task are:

- Application of underpinning knowledge
- Expressing ideas and information
- Planning, organisation and implementation
- Collecting and analysing ideas and information
- Coherence and coverage

Note: The industry specific performance descriptors do not replace the VCAA generic performance descriptors. Assessors must use the VCE VET Scoring Criteria sheets and VET Coursework Assessment Record sheets that are provided in the VCE VET Assessment Guide.

CONDUCT THE ASSESSMENT

You need to conduct the assessment within the VCAA timeframes as prescribed in the Assessment Guide. Conducting assessment requires the assessor to inform the student about the assessment process and to ensure the student is prepared for the assessment.

To score the task, refer to the application of the industry specific scoring criteria developed in Phase 2 under 'Apply task scoring criteria in the industry specific context' as a guide to make your scoring decision on performance of the task. On completion of the assessment transfer the scores to the official VCAA documentation.

This final phase in the process is about reflecting on the entire process, which may include validation that involves reviewing, comparing and evaluating the assessment. This may involve:

- validation of the assessment process during assessment
- validation of evidence contributing to judgments made to confirm competence.
- moderation of the scoring of assessment tasks.

Think about the following:

- Was the right task type selected?
- What worked well?
- What part of the process needs to be improved?
- How can this be done?

Apply the Work Project scoring criteria in the industry specific context.
