Level 3 Certificate/Extended Certificate APPLIED BUSINESS

Unit 1 Financial planning and analysis

Wednesday 17 January 2018 Afternoon Time allowed: 1 hour 30 minutes

Materials

For this paper you must have:

• scientific calculator (non-programmable).

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 60. There are 40 marks for Section A and 20 marks for Section B.
- There are two sections to this paper.
- Both sections should be attempted.
- Candidates should spend approximately 60 minutes on Section A and 30 minutes on Section B.

Advice

Please read each question carefully before starting.

Dave wants to start a kitchen fitting business. He has £10 000 to invest. He has conducted market research and has estimated costs. In addition, he has decided that he needs to pay himself £1200 per month to pay his living expenses.

Dave has forecast that his profit for the first year should be £15 000.

As it is a new business, Dave thinks it is likely that he will have to pay for supplies at the time of purchase.

Customers will pay a 10% deposit before the kitchen fitting starts and the remainder one month after the work is completed.

Dave has been advised that he should also produce a cash budget before starting the business. His cash budget for the first four months of trading is shown below.

	February	March	April	Мау
	£	£	£	£
Cash in	900	8 100	10 500	12 100
Cash out	15 950	7 450	7 950	9 450
Net monthly cash flow	(15 050)	650	2 550	2 650
Opening balance	10 000	(5 050)	(4 400)	(1 850)
Closing balance	(5 050)	(4 400)	(1 850)	800

Use the information above to analyse why Dave should produce **both** a profit calculation **and** a cash budget.

Turn over for Section B

Section B

Answer the question in this section.

Total for this section: 20 marks

Read Item A and then answer question 1 1

Item A

Home Made Takeaway Ltd

Home Made Takeaway Ltd (HMT) is a successful company, making handmade frozen meals. It sells in its shops and online for 'click and collect' or delivery.

HMT's belief is "look after people and they will look after you". Employers, shareholders, customers and suppliers all benefit from this approach. The company also supports local charities and gives discounts to community groups.

HMT produces main meals, but recently started providing desserts and cakes, which it sees as a growth area. The company's factory is operating at full capacity, but still cannot meet demand.

The directors are considering two options for expansion.

Option 1:

Build a new factory to replace the existing one. This will take two years to build and cost £10 million. The new factory would provide 30 new jobs. HMT has £3 million internal finance available. It could take out a £7 million loan for the balance, repaid over five years.

Option 2:

Take over Quality Desserts Ltd (QDL) and relocate to the new factory that QDL has in another part of the country. QDL currently supplies cakes and desserts to restaurants and owns several shops that sell to the general public. HMT could buy QDL for £12 million. This would be financed by:

- HMT's internal finance of £3 million
- a £4.5 million loan repaid over five years
- the issue of new shares in HMT totalling £4.5 million.

Table 1: Selected financial information

	HMT	QDL
Return on capital employed (%)	28.27	
Gearing (long term liabilities/capital employed) (%)	34.03	
Current ratio	1.45:1	
Net assets (£millions)	8.984	9.936
Operating profit (£millions)	2.540	4.114

1 1	Considering the financial information and stakeholder perspectives de Item A , evaluate whether HMT should select option 1 or option 2.	scribed in
