NQF BTEC Level 1/Level 2 Firsts in Creative Digital Media Production

Unit 8: Media Industry in Context (21647E)

ALWAYS LEARNING PEARSON

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications come from Pearson, the world's leading learning company. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk for our BTEC qualifications.

Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

If you have any subject specific questions about this specification that require the help of a subject specialist, you can speak directly to the subject team at Pearson. Their contact details can be found on this link: www.edexcel.com/teachingservices.

You can also use our online Ask the Expert service at www.edexcel.com/ask. You will need an Edexcel username and password to access this service.

Pearson: helping people progress, everywhere

Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your learners at: www.pearson.com/uk

General Comments on Exam

This is the second series that the Creative Digital Media Production qualification at Level 2 has been assessed externally and it is evident that teaching of the specification content has taken a balanced approach within centres with most candidates showing an understanding of the range of topics covered by this question paper.

One matter that has come to light during this exam series is the need for learners to read through questions carefully and gain a full understanding of what they are being asked. The nature of the specification means that learners are required to gain an understanding of a range of benefits and disadvantages within the Creative Digital Media Sector and their impact on different groups and individuals such as producers, consumers, employers and employees.

Learners' understanding of a range of issues is being assessed within the examinations which will contain questions and scenarios that relate to different circumstances. It is therefore important that learners understand that, for example, a benefit for an employee may not be seen as a benefit to an employer and vice versa and they therefore need to understand what the question is asking of them and who the question relates to.

Centres may wish to note the following observations which relate to each item and which should be used as guidance in future series.

Grade boundaries

Grade boundaries for all qualification can be found on this page: http://qualifications.pearson.com/content/demo/en/support/support-topics/results-certification/grade-boundaries.html/.

| Crada | Unalogaified | Level 1 | Level 2 | | |
|------------------|--------------|---------|---------|-------|-------------|
| Grade | Unclassified | Pass | Pass | Merit | Distinction |
| Boundary Mark | 0 | 19 | 25 | 31 | 38 |

Question 1

This question was generally well understood and responded to by most learners, who either knew the answer or didn't.

1 mark example:

1 The BBC is a publicly funded media organisation that relies on the licence fee as a source of income.

Give one other source of public funding for media organisations

Question 2(a)

For this question there was some indication that learners were occasionally confused between channels and companies, meaning they would give a channel name such as ITV2 or Sky1 rather than ITV or SkY.

Pass example:

- 2 Many organisations within the media industry are not publicly funded.
 - (a) Name two privately funded media companies.

1 / ± V 2 BBFC Distinction example:

| 1 | ITV |
|---|-----------|
| 2 | channel 4 |

Question 2(b)

A number of learners were confused about the difference between privately and publicly funded resulting in references being made to the BBC and public funding streams. Many learners also assumed that private funding from advertising and sponsorship meant that companies received a 'quaranteed' income rather than an 'increased' income.

Similarly, learners' responses also seemed to equate private income with a lack of need to comply with regulations, with many learners stating 'they can make/do what they want'; whilst this could also be construed to relate to editorial control (e.g. BBC charter) this is not explicit and therefore could not be rewarded.

| Pass exampl (b) Give tw | e: ro benefits for a m | edia company o | f being funde | ed privately. | | (2) |

| 4 (a) Give one benefit for the potential employee of using a CV when applying for a job in the media industry. |
| (1) |
| It shows what experience that Derson has had with Jobs and |
| also what califications they have had |
| Question 4b Most learners were able to indicate that a CV made it 'difficult to show skills/practical work compared to a show reel' and there were a number of valid responses provided. Some learner responses were limited to 'doesn't show what you have done' which showed a lack of understanding of what evidence is contained within a CV. |
| Pass example: (b) Give one drawback of using a CV when applying for a job in the media industry. (1) |
| It's boring to read. |
| Distinction example: (b) Give one drawback of using a CV when applying for a job in the media industry. (1) If Says What you can do but dosen't show You walin (as see note of a pratical job So showing the emplore you skills on paper was to get you me dob |
| Question 5 Sometimes learners had failed to understand that the question related to ethical issues and not fact that the programme was broadcast over 24 hours and therefore offered responses like 'they would have to be fit enough to work 24 hours', indicating that they believed an employee would be working a 24 hour shift. A few learners did misinterpret the word equality and instead simply stated qualities that an employer would look for in a recruit e.g. skills, ability to do job, etc. |
| Those learners that did identify equality issues provided valid responses relating to a range of protected characteristics. |
| Pass example: |
| 1 Genda egualty |
| > |
| 3000 000 100 |

| Distinction example: |
|--|
| , Religion this may be because different |
| religions have alternate bank horidays |
| religions have alternate bank horidays 2 Gender if a women way to be pregnant she would need to take time |
| off. (Total for Question 5 = 2 marks) |
| (Total for Question 5 = 2 marks) |
| Question 6 Most learners were able to respond correctly, however where errors were found they often related to learners believing that companies would have 'more money' as opposed to a regular, or secure income. |
| Pass example: 6 Give one benefit of being employed by a media organisation on a full-time permanent basis. |
| Stealy Pay |
| Distinction example: 6 Give one benefit of being employed by a media organisation on a full-time permanent basis. |
| Pay and Maternity Leave. (Total for Question 6 = 1 mark) |
| Question 7a |
| Most learners were able to offer a valid response such as 'supporting each other/ getting new ideas' and the question was generally well responded throughout. |
| other/ getting new ideas' and the question was generally well responded |
| other/ getting new ideas' and the question was generally well responded throughout. Pass example: 7 Working in the media industry means working either collaboratively or independently. (a) Give one advantage of working collaboratively in the media industry. |
| other/ getting new ideas' and the question was generally well responded throughout. Pass example: Working in the media industry means working either collaboratively or independently. |
| other/ getting new ideas' and the question was generally well responded throughout. Pass example: 7 Working in the media industry means working either collaboratively or independently. (a) Give one advantage of working collaboratively in the media industry. |

Question 7b

For this question some learners picked up a range of points across the 2 responses and were often able to offer more than 2 reasons but may have failed to offer fully developed of valid explanations.

It is important for learners to ensure that they offer an explanation when it is requested rather than a identifying a number of valid reasons as this does not effectively show the depth of their knowledge and understanding.

| Pass example: | |
|--|---|
| (b) Explain two advantages of working independently in the media industry. | (4) |
| 1 They can focus ou of their attent | Kon |
| to their prosect | |
| | 7 17 PT |

| 2 Working Independently also means that Full Credit for your work for example a designer would get credit for their Nwork were | grapnic- |
| designer would get credit for their Awork | if they |
| working independently | 1 |
| | H B+B-1-B+B B H 1414 H 5-F- 11 B+B-4 - 1414 4 H |

Question 8a

A large number of learners repeated their response but with different wording, effectively this amounted to 'the worker knows the company and the company knows the worker'.

It is important that learners show their understanding by indicating that they know why this is a benefit and providing an extended response; switching around responses is not valid and does not reflect the learner's understanding of the question or the subject matter.

| Pass example: (a) Give two advantages of this decision for the company. | (2) |
|--|---|
| 1 It Saves time. | B1 B |
| 2 They know how and he/she is at their job. | p-8-8 18 -4 18 18 14 14 14 14 17 18 18 18 18 18 18 18 18 18 18 18 18 18 |
| Distinction example: 1 Saves the company money-do have to recruit staff | n't |
| The person already knows how the business is run | Ŋ |
| Question 8b A lot of learners gave a correct answer, but did not always follow thro with an explanation or identify the impact of the initial reason given. Slearners discussed promoting a TV product within the company was a drawback and not an individual member of staff as required. Some learners took "internal promotion" to mean "internet promotion thus discussed online advertising and marketing. They did not link this question to the scenario outlined at the top "to promote a production assistant". | Some " and |
| Pass example: | |
| (b) Explain one reason why relying on internal promotion might be a drawback fo the television production company. There will be no monthly | r (2) |
| Coming in the buisness | 1 - 4 - 4 14 14 14 14 14 14 14 14 14 14 14 14 1 |

| the television production company. | |
|---|------|
| | (2) |
| They will not get someone now me | anng |
| that they may not be willing to per | 4 |
| formed ran they and they may | oct |
| They will not get someone non me that they may not be willing to put femand non they and they may no are have a frost approach to the job. | |
| Question 9(a) Whilst there was some misunderstanding from some learners regarding difference between UK companies and UK broadcasters/channels; this question received a large number of correct responses. | the |
| Pass example: | |
| 9 (a) The BBC is a national media organisation. | |
| Name one other national media organisation in the UK. | (1) |
| the sun newspaper | |
| Distinction example: 9 (a) The BBC is a national media organisation. | |
| Name one other national media organisation in the UK. | |
| / <i>TV</i> | 1) |

Distinction example:

Question 9b

Many responses recognised this scenario as horizontal integration and were able to gain marks by providing a generalised discussion, however these responses were often limited and did not offer the depth and breadth of response expected. Some learners relied on bullet pointed responses or focused solely on financial benefits or restrictions, for example, a popular response for this question related to one branch of the business going bust but the rest being able to carry on.

Some learners did understand the issue of connecting with the local audience and how this may be diminished by being owned by a national company. Lots of responses talked about the newspaper getting a wider audience as it is now distributed nationally/internationally. Similarly a number of learners appeared to interpret this as benefits of national/international papers in themselves rather than benefits of their ownership of local papers. Most responses lacked balance or clear focus.

Pass example:

| Intern | ational | newspap | er oi | qunisat. | on5 |
|----------|-------------|----------------|------------|--------------|----------|
| | r | news | | 100 | |
| Want | OY. | to who | et th | ey thin | k the |
| Public | Wa | nts to | see. | . The | big |
| Horri | lic C | rime's | etc. | | |

| Show | more | 0 | a d | Merent | Side |
| 9 | news, | altorgi von | b 9 | cours | e |
| 0 the | 4 Srill S | now | local | crime: | Ś |
| etc. | Most | 9) | the | big r | ewspaper |
| Orayanis | atons | earn | 59 | much | morey |
| that | it | begins | to e | effect | the |
| Smalle | c (1 | $\alpha(a1)$ o | raganisect | ions. T | This |
| i 5 | the | rewon | - luh | u the | re |
| are | 50 | new o | <i>Q</i> | I the | Smuller |
| bush | ryanisa 6.0 | now c | days. | <i>)</i> | |
| - | | | J | | |

Distinction example:

An advantage of being owned by a larger Company is that they help the smaller companies. They could help then with issues such as money or emphyment details. This helps the local company (un smoothly. Also, the larger organisation could spread publicity of the local newspaper, meaning mole money is made to them. A disadvantage, however is that a proportion of money made has to be shared to the larger organistion. This means the local pufer make less money for themselves. Another disadvantage is that sufficient Sattle Toward Paper haveless central of the content and management of their own company meaning they might not agree with some aspects of the larger organisations way of doing things. This could lead to further Vahlens. (Total for Ouestion 9 = 9 marks)

Question 10

Learners were able to offer a valid response of some form; many focused on the process being similar to putting a down payment on goods or services so many responses were along the lines of 'deposit' or 'pre-payment', these were given benefit of doubt as it was clear that there related to the 'advance' nature of the payment.

| Pass example: | |
|--|-----|
| 10 Writers are paid a proportion of their fee before they produce their work. | |
| Give the name of this type of payment. | |
| Pre-payment | |
| Distinction example: | |
| 10 Writers are paid a proportion of their fee before they produce their work. | |
| Give the name of this type of payment. | |
| Advanced Payment | |
| Question 11a Channels and studios were often offered up rather than conglomerates. There was a large focus on telecommunication and social networking companies rather than 'media' companies which led some learners to submit incorrect responses. | |
| This area is becoming increasingly blurred with content-providers emerging from distributors and sectors, previously not recognised as media producers, for that reason a reasonable amount of benefit of doubt was given, however it is important that learners are able to differentiate between media products, media sectors and media producers and distributors. | ng |
| Pass example: 11 (a) Name one media conglomerate. | (1) |
| BBG | |
| Distinction example: | |
| 11 (a) Name one media conglomerate. | (1) |
| News collection | |

Question 11b

Most learners had a grasp of the difference between conglomerates and independents with many responses focusing on the size of the organisation. Some responses were confused and gave contradictory responses or focused on employment within the media in terms of independence and then assumed that conglomerate meant working collaboratively.

Many learners only gave one difference, but spread those across the two question parts, for example 'a conglomerate is big' and 'Independent is small', this response was rather common and only generated one mark.

| Pass example: (b) Give two differences between a media conglomerate and an independently owned media company. | (2) | |
|--|-------|--|
| 1 one is owned by a big company | * | |
| 2 The other is owned Ega small | | |
| company. | | |
| Distinction example: (b) Give two differences between a media conglomerate and an independently owned media company. | (2) | |
| 1 A conglomerate is made up with the | | |
| Partmership from other companies and not just | - one | |
| 2 Media conglomerates tend to have great | 215 | |
| funding / support because of pooled assets. | | |

Question 12

As with the previous question most learners managed to offer a suitable response but often identified only one benefit that was then repeated in part two. Several learners did not seem to understand that a community organisation was not the same as a company selling a product or providing paid jobs.

| Pass example: |
|---|
| 12 The wider use of the internet has led to more community media organisations being set up around the country. |
| Outline two benefits for the audience of this type of organisation being based in their community. |
| 1 Social intelaction keep up-to-date with commi |
| nity news and events |
| Distinction example: Outline two benefits for the audience of this type of organisation being based in their community. |
| , The community people get totake past |
| in constructing & running the organisation. |
| in constructing & running the organisations. The people in the Community have a source of |
| easy to acces information about their local community. |
| |
| Question 13 |

A well answered question on the whole, most responses identified some form of increase in audience and learners grasped the concept of horizontal integration. Some learners focussed on the gender bias/distribution of the titles listed such as fashion and beauty for females and cycling and fishing for males. Many learners identified an advantage, but did not follow it up with an explanation, or link the fact/advantage in their answer. 'More money' was a popular response as was 'bigger audience', overall several learners identified a number of advantages, but not all were explained.

Pass example:

| 13 | A publisher | owns a | range of | magazine | titles on | subjects | including | fashion, | beauty, |
|----|-------------|----------|----------|----------|-----------|----------|-----------|----------|---------|
| | cycling and | fishing. | | | | | | | |

This type of ownership is described as 'horizontal integration'.

Explain one advantage for the publisher of this type of ownership.

| The | Puh | ister | will | Genn | a m | UCH | | |
|-------|-------|--------|-------|--------|-------|----------|-----|---------------------------------------|
| | | | | • | | | | |
| Green | bC/ | market | Shere | havi | ing ! | <i>u</i> | age | |
| or- | audle | nus n | stad | CF INC | it on | e, | | en en un les les nedechedons suco |
| | | | | | | | | |
| | | | | | | | | dd 1d 1d 1d 1o 1o 1o 1o 1o 1o 1o 1o 1 |

| Distinction example: Explain one advantage for the publisher of this type of ownership. |
|--|
| It has alot of income available to |
| the owner because of alot of magazine |
| and it appears to a roo of people |
| Decourse of even a varied type of |
| MOLOGOZIVOS (Total for Question 13 = 2 marks) |
| A good number of learners were able to identify a reasonable range of advantages and explain why these were beneficial to the movie release. Lots of candidates included the benefit of audience appeal due to credibility and previous output track record of a known major film company as well as the greater financial clout these companies could provide in terms of better resources, actors, SFX, advertising budgets and distribution networks. |
| Pass example: 14 A major film studio begins production on a mainstream movie. |
| Explain two advantages of the movie being backed by a major film studio. |
| · They have the extra |
| Well organised trained |
| Mojessionals. |
| advanced Jilming technology. |
| amana juming cemining. |
| Distinction example: |
| The movie would get more exposure |
| when realesed so would earn more and |
| get more were known/popular. The |
| mainstream movie would also get good |
| resources to use because the bigger |
| company proposaly owns good equipments |
| for them to use so creates a |
| Detter quality film for viewers |

Question 15a

The vast majority of learners were able to provide a valid response by identifying the impact on CD sales and loss of money for record companies/artists. Some learners simply restated the question in slightly different words, or identified the benefit to someone who is downloading works illegally, others tried to discuss copyright with varying degrees of success.

Pass example:

15 Music producers are concerned about illegal file sharing on the internet.

(a) Give one impact that file sharing is having on the music industry. music industry are looking money

Distinction example:

15 Music producers are concerned about illegal file sharing on the internet.

(a) Give one impact that file sharing is having on the music industry.

It is taking among revenue from the singers and song-riter because they are not getting onymorey from people getting it for

(1)

(1)

Question 15b

Many candidates were more engaged with this question and were able to find a number of positives and negatives which they attempted to explain and rationalise. Most learners focused on child protection issues, but many found it difficult to expand their discussion to see both sides, they struggled much more with arguments against stricter regulation except to assert that, on many levels, it wasn't fair to internet users and may discourage people from surfing the net.

Most learners attempted to answer this question at length, however many responses missed a mark or two by relying on identifying opposing points rather than an extended discussion of a number of valid issues. It is noted that very few learners either referred to or adequately discussed issues such as public interest, terrorism, national boundaries or propaganda; however those that did often provided more well-rounded and considered responses.

For - A Audience can't access illegal websites or things they shouldn't be looking at Children can't see things they shouldn't be seeing of any age, as it could be very disturbing.

Aprilst - Audience I consumers can find new ways to get unemaking and can make new illegal sites to worth look of Middle I have.

They can find new ways of downloading Videos / Actures they shouldn't have.

Distinction example:

(b) There is public concern about some of the content available on the internet.

This has led to calls for stricter regulation.

Discuss reasons for and against stricter regulation of the internet.

(8)

ON reason against Stricter regulations on the interes is that it is against the rights to gree speech People should be allowed to express their opinions. Another reason against Stricter regulations is that censorship covers up thutis. IF companies had the power to cover up any negative produced bounds them then People will lose faits in reliable sources. Mother reason against stricter regulations is the consortion OF history. Again this would result in resources bearing Unreliable and untrustrustry when it comes to fost events. One final reason against stricted regulations is that it would theoretically put a hadicap on what People Win be able to see on the internet or what they would be allowed too See/ do researcially removing all net neutrouity. A reason For tighter regulations would be the mount of offensive fit would filter out which many one exposed to. Another reason for would also be a crack down on Illegal File Shoring/ Piracy which Companies aim to Stop. Another reason would be that Privary would be Preserved of both the public and the cerebrities. Another would be not no defending or liber will slip inco Public view cousing media stir. (Total for Question 15 = 9 marks)
