

Please check the examination details below before entering your candidate information

Candidate surname	Other names
Pearson BTEC Level 1/Level 2 First Certificate	Centre Number <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/>
Learner Registration Number <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/> <input style="width: 20px; height: 20px;" type="text"/>	
<h2 style="margin: 0;">Friday 17 May 2019</h2>	
Morning (Time: 1 hour)	Paper Reference 21174E
<h1 style="margin: 0;">Engineering</h1> <h2 style="margin: 0;">Unit 9: Interpreting and Using Engineering Information</h2>	
You must have: Calculator	Total Marks <input style="width: 50px; height: 30px;" type="text"/>

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and learner registration number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*

Information

- The total mark for this paper is 50.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

1/1/1

Answer ALL Questions. Write your answers in the spaces provided.

Some questions must be answered with a cross . If you change your mind about an answer, put a line through the box and then mark your new answer with a cross .

1 Engineers use drawings and documentation to show information effectively.

(a) Identify **two** pieces of information that would be found on a production plan.

(2)

- A** component costs
- B** health and safety
- C** pareto charts
- D** quality control checks
- E** accident reporting procedures

(b) Abbreviations are used on drawings to represent component features.

(i) State the meaning of the abbreviation CBORE.

(1)

(ii) State the meaning of the abbreviation EXT.

(c)

Figure 1

Identify the electronic component from the symbol shown in **Figure 1**.

(1)

- A capacitor
- B diode
- C lamp
- D transistor

(d) Tolerances are one type of dimensional detail that can be found on engineering drawings.

State **two** other types of dimensional detail that can be found on engineering drawings.

(2)

1

2

(Total for Question 1 = 7 marks)

2 Engineers refer to a range of information when carrying out manufacturing activities.

(a) Identify the correct name for each of these safe condition signs.

Draw **one** line from each safe condition sign to **one** safe condition sign name.

(2)

Safe Condition Sign

(Background is green)

(Background is green)

Safe Condition Sign Name

assembly point

drinking water

emergency eye wash

fire exit

first aid station

(b) State **one** colour that is used for mandatory health and safety signs.

(c) **Figure 2** shows a chart used for planning manufacturing activities.

Figure 2

(i) Name the type of chart shown in **Figure 2**.

(1)

(ii) Identify the latest start time, in hours, for activity L.

(1)

(Total for Question 2 = 5 marks)

P 6 1 5 5 5 A 0 5 1 6

3 (a) Identify **two** locations where engineering drawings can be stored securely. (2)

- A drawing board
- B work bench
- C ICT system
- D filing cabinet
- E PCB jig

(b) State **two** examples of circuit characteristics that can be shown on an engineering drawing. (2)

1

2

(c) State **two** reasons why engineering drawings are produced to international standards. (2)

1

4 MK02 Engineering uses mechanical components in the production of self-assembly play equipment.

(a) State **two** engineering process operations where production documentation may be used.

(2)

1

.....

2

.....

(b) Identify the correct name for each of these mechanical components.

Draw **one** line from each mechanical component symbol to **one** mechanical component name.

(2)

Mechanical Component Symbol

Mechanical Component Name

bolt

key

pin

clip

spring

(c) A bracket used in the play equipment is shown in **Figure 3**.

Figure 3

Identify the type of drawing shown in **Figure 3**.

(1)

- A** isometric
- B** oblique
- C** orthographic
- D** wiring

(d) MK02 Engineering provides customers with assembly manuals for the play equipment.

Explain **one** advantage of providing assembly manuals in this situation.

(2)

.....

.....

.....

.....

(Total for Question 4 = 7 marks)

(c) Explain **one** advantage of using standard reference charts for limits and fits when producing holes for the adjustable joint.

(2)

6 BB3 Engineering assembles electronic advertising displays that are used in shops.

(a) Explain **one** reason why BB3 Engineering would use manufacturers' data sheets for components when assembling electronic circuits.

(2)

.....

.....

.....

.....

When installing an advertising display, an engineer notices a discrepancy between the electronic components specified on two different pages of an assembly manual.

(b) Explain **two** advantages of the discrepancy being reported to BB3 Engineering.
