Information Technology

Unit 1: Information Technology Systems

Monday 11 June 2018 – Morning Time: 2 hours	Paper Reference 31760H
---	----------------------------------

You do not need any other materials.	Total Marks
---	-------------

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and learner registration number.
- Answer **all** questions.
- Answer the questions in the spaces provided – *there may be more space than you need.*

Information

- The total mark for this paper is 90.
- The marks for **each** question are shown in brackets – *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Pearson

Answer ALL questions. Write your answers in the spaces provided.

1 Hardeep is a designer for a small engineering company that produces specialised machine parts.

He visits clients to discuss their requirements and to show them his designs.

He usually travels by train to visit clients.

When travelling by train Hardeep uses a laptop to work on his designs. He uses the mobile data connection on his phone to connect to the company's VPN.

(a) Explain **two** problems that Hardeep may have while using a mobile data connection when travelling by train.

2 Alpha Training is an agency that provides training courses for a range of vocational subjects.

The agency has a building with an administration office and training facilities.

There is a Local Area Network (LAN) serving all areas of the building.

The computers in the administration office are connected to the LAN using Ethernet cables.

The agency has a large number of laptops which can connect wirelessly to the LAN.

(a) The laptops are often used by students with visual impairments. The agency must make sure these learners are able to use the laptops.

(i) Explain **two** accessibility features provided by an operating system that can assist users with visual impairment.

3 PRR Sports is a chain of stores selling sports footwear.

Each in-store stock room holds a range of footwear.

Sales staff use tablet computers to communicate with staff in the in-store stock room to check the availability of stock.

The in-store stock room has a PC that is connected to the company warehouse.

Stock room staff use the PC to access the server in the main warehouse.

Electronic Point of Sale (EPOS) terminals are used by sales staff to complete sales and process customer payments.

Stock is ordered automatically to maintain appropriate stock levels within the store.

(a) Draw a diagram to show how the stock control system works.

The diagram should include:

- devices and systems that could be used
- devices to be connected and the connection type(s) used
- the flow of data through the system
- annotations indicating the information and data to be passed between systems, devices and users.

- (c) PRR Sports is considering upgrading the system used by sales staff to allow them to order goods for customers directly from the warehouse.

The sales staff will enter details of customers and their orders into their tablets.

One screen in the process will collect information about the item(s) a customer wishes to order.

The table shows part of the data dictionary for this screen.

Field name	Field length	Data type
Item ID	8	Text
Item Description 1	15	Text
Item Description 2	15	Text
Colour	10	Text
Number ordered	2	Number
Price	7	Currency

4 Ay-to-Bee travel agency offers a wide range of holidays for customers across the UK. They have high street stores in several cities and also provide an online booking service. The agency is considering moving to an online-only booking service.

(a) Before making the move to an online-only booking service Ay-to-Bee would like to gather the opinions of existing customers.

The agency has previously gathered information from customers by carrying out interviews in their stores.

The agency is considering different ways of collecting information and would like to trial online surveys and face-to-face focus groups.

Discuss the implications of using online surveys and face-to-face focus groups.
