Instructions to Teachers/Tutors

This booklet must be given to learners in its entirety as soon as it is received.

Learners should undertake independent research on the set task information.

Centres must advise learners of the timetabled sessions during which they can prepare. It is expected that scheduled lessons or other timetabled slots will be used for some or all of the preparation.

The set task must be carried out under supervised conditions.

The set task will be released 6 weeks before learner outcomes need to be submitted. During this period all learners must work independently.

It is expected that learners spend up to 10 hours on applied research in order to inform their written proposal (Activity 1) and individual performance (Activity 2). This time should also be used for planning the written proposal. Research should be seen in this broadest possible context of informed and applied analysis, practice and exploration.

Learners should also spend up to a further 30 hours on the development and rehearsal of the performance.

Following the recording of the individual performance (Activity 2), it is recommended that learners spend up to 1 hour in preparation for writing up their evaluation (Activity 3).

There are **three** activities for the set task and **three** outcomes for submission. All activities must be completed under supervised conditions. The documents produced for Activities 1 and 3 must be word processed. Word processed documents must be printed out and submitted to Pearson.

It is essential that all learner evidence is completed independently, correctly referenced and authenticated before being submitted to Pearson. Please refer to the Administrative Support Guide for this unit for instructions on how to do this.

The three activities are as follows:

Activity 1: Written proposal

- The writing up of the proposal must be carried out under supervised conditions after the research phase and before development of the practical work. This document must be word processed (up to 1000 words).
- Learners may bring their own notes into the supervised assessment period. The information can contain brief bullet points or mind maps of ideas to be covered but must not include fully-formed sentences or phrases that could be used directly in their response. The notes must not exceed two sides of A4. These must be hard copies and can either be handwritten or word processed.
- Teachers/Tutors must ensure that all notes used are the learner's own work.
- Learners can only access their own work under supervision.
- Once completed, the proposal must be stored securely until the time of submission with no further editing permitted.
- Learners may refer to a copy of the proposal during the development and evaluation of their work.

Activity 2: Individual performance

- The recording of each learner must be carried out by the supervising teacher/tutor.
- A single recording must be submitted for each learner.
- The recording must not be edited, amended or manipulated.
- Learners must not be assisted with the performance during the recording.
- The performance must be recorded in front of an invited audience but their presence should not interfere with the clarity of the recording.
- Recordings must be saved in an electronic format (for further details, please refer to the Administrative Support Guide for this unit).

Activity 3: Written evaluation

- The writing up of the evaluation must be carried out under supervised conditions, after the performance. This document must be word processed (up to 1500 words). Word processed documents must be printed out and submitted to Pearson.
- Learners may bring their own notes into the supervised assessment period. The information can contain brief bullet points or mind maps of ideas to be covered but must not include fully-formed sentences or phrases that could be used directly in their response. The notes must not exceed two sides of A4. These must be hard copies and can either be handwritten or word processed.
- Learners may refer to their notes and recording during this time; however teachers/tutors must ensure that all materials learners refer to are the learner's own work.
- All learner work must be completed independently before being authenticated and submitted to Pearson by the teacher/tutor.

Centres should schedule all learners at the same time or supervise cohorts to ensure there is no opportunity for collusion.

Teachers/Tutors should note that:

- Learners must not be given any direct guidance or prepared materials.
- Learners must not be given any support in writing or editing of notes.
- All work must be completed independently by the learner.
- Learner notes must be retained securely by the centre after the supervised assessment period and may be requested by Pearson if there is suspected malpractice.

Maintaining security

- During the supervised assessment sessions, the assessment areas must only be accessible to the individual learners and to named members of staff.
- Learners may bring their own notes into the supervised assessment period. The information can contain brief bullet points or mind maps of ideas to be covered but must not include fully-formed sentences or phrases that could be used directly in their response. The notes must not exceed two sides of A4. These must be hard copies and can either be handwritten or word processed.
- Learners can only access their work under supervision.
- Any work learners produce under supervision must be kept securely.
- Only permitted materials for the set task can be brought into the supervised environment.
- During any permitted break and at the end of the session materials must be kept securely and no items removed from the supervised environment.
- Learner notes related to the task must be checked to ensure length and content meet limitations.
- Learner notes must be retained securely by the centre after the supervised assessment period and may be requested by Pearson if there is suspected malpractice.
- Any materials being used by learners must be collected in at the end of each session, stored securely and handed back at the beginning of the next session.
- Learners are not permitted to have access to the internet or other resources, except their own notes, during the supervised assessment period for the written proposal (Activity 1) and written evaluation (Activity 3).

After the session the teacher/tutor must confirm that all learner work has been completed independently as part of the authentication submitted to Pearson.

The set task is a formal external assessment and must be conducted with reference to the instructions in this booklet and the BTEC Nationals *Instructions for Conducting External Assessments (ICEA)* document to ensure that the preparatory period is conducted correctly so that learners have completed their preparation validly and independently.

Outcomes for submission

- 2 Digital video recording of the individual performance (5-8 minutes) to an invited audience.

The written proposal and written evaluation must be word processed. Word processed documents must be printed out and submitted to Pearson. Any prepared notes must not be submitted with the final outcomes.

It is essential that learner evidence is correctly referenced and submitted: please refer to the Administrative Support Guide for this unit for instructions on how to do this.

Set Task Information

Below is the information on the commissioning body, the theme and the commission. You have a choice of stimulus that must be used when developing the proposal and realising your final performance.

The commissioning body

Answers Through Arts is an organisation dedicated to conflict resolution for young people through the medium of performing arts.

Answers Through Arts is a national company working closely with educational and community stakeholders to support young people. It facilitates a series of regular performances that help foster and support friendly, cooperative and harmonious environments. Accordingly, *Answers Through Arts* has decided to commission a large number of short, solo performances to be delivered as part of a national youth opportunity initiative.

The commission

The *Answers Through Arts* Management Committee is seeking to commission new and innovative, individual performances that can be effectively delivered to young people in educational community settings. These performances need to highlight the theme of **Conflict Resolution** and be in response to one of the two stimuli. They should be in a format suitable for performance in a range of community venues.

Answers Through Arts is keen to elicit works from the dance, acting and musical theatre disciplines, as well as other entertainment disciplines, including circus skills, variety and stand-up comedy.

The performances can target a chosen specific area of conflict resolution and will celebrate how the performing arts can be used as a method of conflict resolution to bring people together and foster tolerance, mutual respect and understanding.

The work may be **devised by the performer** and/or **developed** from existing material such as a script, score or choreographic instruction in order to meet the requirements of the commissioning body.

Target audience

Your performance should appeal to the *Answers Through Arts* Management Committee and young people.

Length of performance

- The solo performance should run for 5-8 minutes in total.
- It should comprise a single performance or several shorter pieces linked together on a continuous recording.

Logistics

- The solo performance should use only a minimum amount of technical resources, e.g. basic lighting, sound, costume and props.
- It should be suitable for performance in a range of community venues.

You must choose **one** of the following:

Stimulus Number One

Let the angry word be answered only with a kiss.
