MARK SCHEME

**Duration: 1 hour 30 minutes**

**MAXIMUM MARK 70**

Version: 3

Last updated: 15/12/2022

(FOR OFFICE USE ONLY)

**This document consists of 15 pages**

**Crossed Out Responses**

If a student has crossed out a response and written a clear alternative response, then the crossed out response is not marked. If no alternative is given, examiners will give students the benefit of the doubt and mark the crossed out response if it is legible.

**Multiple Choice Question Responses**

When a multiple choice question has only a single, correct response and a student gives two responses (even if one of these responses is correct), no mark will be awarded, as it is not possible to determine which was the first response selected.

**Contradictory Responses**

When a student provides contradictory responses, no mark will be awarded, even if one of the answers is correct.

**Short Answer Questions (usually worth only one mark per response)**

If a student needs to give a set number of short answer responses, but gives more, only the set number of responses will be marked. The response space will be marked from left to right on each line and then line by line until the required number of responses have been marked. The remaining responses will not be marked.

**Short Answer Questions (worth two or more marks)**

If a student is required to provide a description of, say, three items or factors and four items or factors are provided, then marking will be similar to the above example (but downwards).

**Longer Answer Questions**

If a student provides two (or more) responses to a medium or high tariff question which only needs a single (developed) response, and does not cross out the first response, the first response will be marked.

**Levels of response marking**

- a. **To determine the level** – examiners will start at the highest level and work down until they reach the level that matches the answer
- b. **To determine the mark within the level**, they will consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)

Consistently meets the criteria for this level	At top of level
