Unit AF5 – Financial planning process

Instructions to candidates

Read the instructions below before answering any questions

- **Three hours** are allowed for this paper which carries a total of 160 marks.
- You are strongly advised to attempt **all** tasks to gain maximum possible marks. The number of marks allocated to each task is given next to the task and you should spend your time in accordance with that allocation.
- **In this examination you should use the fresh copy of the fact-find provided. You are not allowed to bring into the examination the pre-released copy of the fact-find.**
- **Client objectives are provided overleaf and you should read them carefully before attempting the tasks.**
- Read carefully all tasks and information provided before starting to answer. Your answer will be marked strictly in accordance with the task set.
- You may find it helpful in some places to make rough notes in the answer booklet. If you do this, you should cross through these notes before you hand in the booklet.
- It is important to show all steps in a calculation, even if you have used a calculator.
- If you bring a calculator into the examination room, it must be a silent, battery or solar-powered, non-programmable calculator. The use of electronic equipment capable of being programmed to hold alphabetic or numerical data and/or formulae is prohibited. You may use a financial or scientific calculator, provided it meets these requirements.
- Tax tables are provided at the back of this question paper.
- Answer each task on a new page and leave six lines blank after each task.

Subject to providing sufficient detail you are advised to be as brief and concise as possible, using note format and short sentences on separate lines wherever possible.

CLIENTS' FINANCIAL OBJECTIVES

You have now been able to determine from the information in the fact-find that your clients have the following financial objectives:

Immediate objectives

- To invest a sum of £100,000 from the money Mark holds in BNM bank to provide tax-efficient growth.
- For Kim to save money on a regular basis for Mark's children to help towards their university funding.
- To provide financial security for Mark and Kim in the event of death or illness.

Longer-term objectives

- To provide adequate income in retirement for Kim.
- To ensure that Mark's estate passes to his intended beneficiaries.
- To provide business protection cover for Mark's company in the event of him suffering a serious illness.

Attempt ALL tasks**Time: 3 hours**

1. State **four** benefits and **four** drawbacks to Mark and Kim if they pay adviser fees for the initial and ongoing service:
 - (a) on an hourly cost basis; (8)
 - (b) as a fund-based fee. (8)

2. Identify the additional information you would need to discuss with Mark and Kim in order to advise them on how to meet their:
 - (a) immediate financial objectives; (15)
 - (b) longer-term financial objectives. (15)

3. Mark would like to know more about the risks associated with investments.
Identify the relevant investment risks, excluding market risk, and describe how they apply to the following:
 - (a) his cash deposits held within the BNM bank; (6)
 - (b) his AIM shares. (10)

4. Mark and Kim are concerned about the impact that long-term illness or death will have on their financial situation.
 - (a) Comment on Mark's current situation and identify any weaknesses in his existing protection arrangements if he were to die or suffer a critical illness. (12)
 - (b) Comment on Kim's current situation and identify any weaknesses in her existing income protection insurance policy if she was to suffer a long-term illness or disability. (10)

Questions continue over the page

5. Kim is considering increasing her personal pension contributions and would like to know more about how her existing personal pension plan works.
- (a) Describe the process an adviser could use to ensure there are sufficient funds under Kim's existing personal pension policy to provide her required level of target benefits at her normal retirement date. (8)
- (b) Identify **eight** drawbacks of Kim using her current balanced lifestyle fund. (8)

6. With regard to Mark and Kim's immediate financial objectives:

Candidates will be rewarded for supporting their recommendations with relevant evidence and demonstrating how their recommendations work holistically to meet their clients' objectives.

- (a) Recommend and justify why an Enterprise Investment Scheme (EIS) may be a suitable investment for Mark in respect his of current circumstances and financial objectives. (16)
- (b) Recommend and justify a suitable and tax-efficient investment for the regular savings of £250 per month that Kim would like to invest for Noel and Holly's university education. Kim wants any new investment to be in each child's name and not held in trust. (8)

7. With regard to Mark and Kim's longer-term financial objectives:

Candidates will be rewarded for supporting their recommendations with relevant evidence and demonstrating how their recommendations work holistically to meet their clients' objectives.

- (a) Recommend and justify the actions Mark could take to ensure that his estate passes to his intended beneficiaries at the time of his death. Assume that no further investments or protection policies are to be taken out by Mark. (16)
- (b) Recommend and justify a suitable protection policy to provide business protection cover for Mark's company in the event of him suffering a critical illness. (8)
8. (a) Identify **six** factors that should be taken into account at future reviews for Kim's income protection cover. (6)
- (b) Explain briefly to Mark and Kim why they should have regular review meetings with their adviser. (6)

CAR BENEFIT FOR EMPLOYEES

The charge for company car benefits is based on the carbon dioxide (CO₂) emissions. There is no reduction for high business mileage users.

For 2013/2014:

- Cars that cannot emit CO₂ have a 0% charge.
- The percentage charge is 5% of the car's list price for CO₂ emissions of 75g/km or less.
- For cars with CO₂ emissions of 76g/km to 94g/km the percentage is 10%.
- For cars with CO₂ emissions of 95g/km to 99g/km the percentage is 11%.
- Cars with CO₂ emissions of 100g/km have a percentage charge of 12% and thereafter the charge increases by 1% for every complete 5g/km to a maximum of 35% (emissions of 215g/km and above).

There is an additional 3% supplement for diesel cars not meeting Euro IV emission standards. However, the maximum charge remains 35% of the car's list price.

Car fuel The benefit is calculated as the CO₂ emissions % relevant to the car and that % applied to a set figure (£21,100 for 2013/2014) e.g. car emission 100g/km = 12% on car benefit scale. 12% of £21,100 = £2,532.

1. **Accessories** are, in most cases, included in the list price on which the benefit is calculated.
2. **List price** is reduced for capital contributions made by the employee up to £5,000.
3. **Car benefit** is reduced by the amount of employee's contributions towards running costs.
4. **Fuel scale** is reduced only if the employee makes good **all** the fuel used for private journeys.
5. **All car and fuel benefits** are subject to employers National Insurance Contributions (Class 1A) of 13.8%.
