Working towards ECDL Practice Test 4

Concepts of Information Technology (IT)

1	Which A C	is a 'laptop' or a 'notebook'? A diary or timetable application An electronic organiser	B D	A portable PC A simple word processor		
2	Which A C	is the main factor in the growth of Multimedia computers Modems	f the 'Ir B D	formation Society'? Faster processors Internet		
3	To send e-mail from home you need a computer, a modem and a service provider. What else do you need?					
	A C	Telephone connection Mouse	B D	Browser Printer		
4	Which A C	device would you use to draw sha Scanner Optical Character Reader	apes o B D	n the screen? Mouse Plotter		
5	Which A C	of these tasks is a function of the Scanning a photograph Producing a database report	B	ting system? Copying a file Adding data to a spreadsheet		
6	Why is A C	s it important that you have adequ To avoid back injuries To avoid repetitive strain injuries	В	iting when using a computer? To avoid radiation To avoid eyestrain and headaches		
7	Which A C	of these is an input device? Monitor Scanner	B D	Speaker Plotter		
8	Most o A C	computers are operating using ico Graphical user interface Symbolic user interface	ns and B D	a mouse. What is this system called? Object oriented environment Command line interface		
9	Which A B C D	 B The computer will not function C All unsaved work is lost 				
10	Which A C	of the following devices is used to Keyboard Joystick	o contro B D	ol the software in a games programme? Bar Code reader Light pen		

11	What is the speed of the CPU measure in?					
	А	Bps	B	MHz		
	С	Mb	D	Gb		

- 12 Which of the following devices sends information from the user to the computer?
 - A Keyboard B System unit
 - C Monitor D Printer
- 13 The computer in your office are connected together so staff can share files and printers. What is this arrangement of computers called?
 - A LAN B ISDN C TCP/IP D WAN
- 14 A Library has a database of all its books. There are over 100,000 books and each record has Title, Author, Publisher, ISBN, date and a description. Which of the following is the amount of storage that will be required for the database?
 - A1 byteB1 KilobyteC1 MegabyteD1 Gigabyte
- 15 Which of the following NOT a permanent storage medium?
 - A Hard disk B CD-ROM
 - C RAM D Magnetic tape
- 16 Poor posture at the computer can cause backache and other problems. Which is the best way of avoiding these problems?
 - A Sitting at the recommended distance from the monitor
 - B Making sure your chair is the correct height
 - C Using a mouse to operate programs
 - D Switching off the computer when not in use
- 17 Which of the following is the MAIN advantage of a network system?
 - A Increased speed of operation
 - B Reduces cost
 - C Allows sharing of data
 - D Backs up data
- 18 Which type of software controls the allocation of resources in the computer?
 - A Application software B Operating system software
 - C Browser software D Utility software
- 19 A shareware program is best describe as
 - A ... a program which may be downloaded and used for a trail period, but must be bought afterwards
 - B ... a program developed by a single team and accessible by anyone in the world
 - C ... a program installed on a Web site and executable on any system in the world
 - D ... a free program developed by students

- 20 Computer are used in many libraries. Which of these is NOT a function carried out by the computer?
 - A Date stamping books
 - B Recording loads of books to readers
 - C Issuing classifying books
 - D Producing reports on book loans
- 21 Which of the following is an example of the use of e-commerce on the Internet?
 - A Checking theatre availability
 - B Booking train tickets
 - C Using e-mail
 - D Downloading information
- 22 Health and safety issues are important when using a computer. To avoid risk of injury, which of the following should always be true?
 - A Trailing cables should be secured
 - B Screen savers should be installed
 - C A mouse mat should always be used
 - D Power extension cables should be used
- 23 An order processing system uses a number of tables. Which of the following tables contains personal data?

А	Produce categories table	В	Orders table
\sim			• • • • • •

C Products table D Customers table

24 Which of the following is NOT a function of the Central Processing Unit?

- A Performing calculations B Managing memory
- C Controlling programs D Displaying graphics

25 Which is the best way of protecting data from loss?

- A Make regular backups of the data B Delete all your old files
- C Lock your computer D Change your password
- 26 Games software is most likely to be used....
 - A ... in a college B ... in the home
 - C ... in the workplace D ... in a library

27 Which software would you use to create a mailshot letter?

- A Database B Word Processor
 - C Desk Top Publishing D Presentation Graphics
- 28 There are rules governing the storage and supply of computer based information. What are these rules called?
 - A Data Prohibition Law B Data Protection Act
 - C Data Storage Act D Data Supply Policy
- 29 Which stage in the system life cycle ensures that the computer system will perform as expected?

А	Programming	В	Systems Design
С	Testing	D	Systems Analysis

Database

- 30 Which type of computer is most likely to be used to store a large database shared by a number of users?
 - Mainframe computer В Desk top computer А D Notebook computer
 - С Workstation
- Which of the following systems would improve communication within a company? 31 Electronic mail
 - Office Software А С Project Management
 - В D
- 32 Which device would you use to send a map to a visitor?
 - Telephone А В VDU
 - С D Telex Fax
- 33 Which device could you use for the output of a music file?
 - Microphone Speaker А В
 - С Digitiser D Speech synthesiser

34 Which software would you use for creating a set of slides to be shown to an audience?

- Database Presentation А В
 - С Desk Top Publishing D Spreadsheet
- Which of these statements about Read Only Memory (ROM) is True? 35
 - Application programs can write data to the Read Only Memory А
 - В The contents of the Read Only Memory are not deleted when the computer is switched off.
 - С The operating system is loaded into the Read Only member when the computer is started.
 - D Internet pages are stored in the Read Only Memory while they are being loaded.
- 36 Which of the following is a problem when downloading files from the internet?
 - The files may not be able to be removed А
 - В The display settings on you computer may be changed
 - С The cache memory on your compute may become full
 - D Viruses may be introduced to you computer
