## Mark Scheme (Results)

Summer 2022

Pearson Edexcel International GCSE  
In Geography (4GE1)  
Paper 2 Human geography

## **Edexcel and BTEC Qualifications**

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at [www.edexcel.com](http://www.edexcel.com) or [www.btec.co.uk](http://www.btec.co.uk). Alternatively, you can get in touch with us using the details on our contact us page at [www.edexcel.com/contactus](http://www.edexcel.com/contactus).

## **Pearson: helping people progress, everywhere**

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: [www.pearson.com/uk](http://www.pearson.com/uk)

## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Answer	Mark
<b>1(a) (i)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <p>D It is a source of renewable energy (1)</p> <p>The answer cannot be A (solar power), B (wind power), or C (incorrect).</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>1(aii)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <ul style="list-style-type: none"> <li>• a source of energy that cannot be exhausted (1)</li> <li>• energy that can be used again and again (1)</li> </ul> <p>Accept any other appropriate response.</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>1(b)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <p>C Increasing the use of electric battery technology (1)</p> <p>The answer cannot be A, B or D as these all require increased resource consumption and therefore are not sustainable.</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>1(c)(i)</b>	<p style="text-align: center;"><b>AO2 (1 mark) / AO3 (1 mark)</b></p> <p>Award 1 mark for basic evidence from the figure (AO3) and a further 1 mark for extension through explanation (AO2), up to a maximum of 2 marks.</p> <ul style="list-style-type: none"> <li>• Selling food in the street (1) rather than in a designated market (1).</li> <li>• Stall does not look permanent (1) so it is probably not a designated shop space (1).</li> </ul>	

	<ul style="list-style-type: none"> <li>• There are no signs or labels for the goods being sold (1) which suggests there is no record of sales (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(2)</b>
--	---	------------

Question Number	Answer	Mark
<b>1(c)(ii)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <p>Award 1 mark for a suitable advantage.</p> <ul style="list-style-type: none"> <li>• Often requires less skills/qualifications (1).</li> <li>• Unlikely to pay tax (1).</li> <li>• Requires little investment to set up informal business (1).</li> <li>• Reducing unemployment (1).</li> </ul> <p>Accept any other reasonable response.</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>1(d)</b>	<p style="text-align: center;"><b>AO2 (2+2 marks)</b></p> <p>Award 1 mark for a factor and a further expansion mark, up to a maximum of 2 marks each.</p> <ul style="list-style-type: none"> <li>• Increasing population (1) means that there is a greater demand for energy, e.g. petrol for cars (1).</li> <li>• Economic development can lead to more industry (1) which requires greater use of resources (1).</li> <li>• Awareness of climate change (1) can lead to an increase in demand for renewable energy sources (1).</li> <li>• Increased use of technology (1) leads to greater consumption of energy (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(4)</b>

Question Number	Answer	Mark
<b>1(e)</b>	<p style="text-align: center;"><b>AO1 (1 mark) / (AO3) 2 marks</b></p> <p>Award 1 mark (AO1) for a basic idea and a further 2 marks (AO3) for extension through use of the resource, up to a maximum of 3 marks.</p> <ul style="list-style-type: none"> <li>• Malthus's theory states that population would grow exponentially (1) whereas food production would grow more slowly (linear growth) (1). This would lead to population outstripping food growth (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(3)</b>

Question Number	Answer	Mark
<b>1(f)</b>	<p style="text-align: center;"><b>AO2 (2+2 marks)</b></p> <p>Award 1 mark for a reason and a further expansion mark, up to a maximum of 2 marks each.</p> <ul style="list-style-type: none"> <li>• Good transport connections (1) as companies need good access to road and rail connections to allow a skilled workforce to reach them.</li> <li>• Reliable internet access (1) as many companies rely on this to operate their business (1).</li> <li>• Proximity to a university (1) as they can provide a skilled workforce suitable for the sector (1).</li> <li>• Large area of land available (1) to allow room for growth (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(4)</b>

Question Number	Indicative content
1 (g)	<p style="text-align: center;"><b>AO3 (4 marks)/AO4 (4 marks)</b></p> <p><b>Marking instructions</b></p> <p>Markers must apply the descriptors in line with the general marking guidance and the qualities outlined in the levels-based mark scheme below.</p> <p><b>Indicative content guidance</b></p> <p>The indicative content below is not prescriptive and candidates are not required to include all of it. Other relevant material not suggested below must also be credited. Relevant points may include:</p> <p><b>AO3</b></p> <ul style="list-style-type: none"> <li>• The relative size of secondary sector employment is a good indicator of economic development.</li> <li>• As a country becomes more developed, typically there will be a shift from primary sector employment to more secondary sector employment.</li> <li>• Countries which previously have been dominated by primary sector employment develop the capacity to process raw materials so they can gain more money from their sale and exports, than they would through the sale of raw materials.</li> <li>• In developed countries, as their economy advances there can also be a shift from secondary employment to more tertiary and quaternary employment.</li> <li>• In many developed countries there has been a decline in secondary sector employment as many of these jobs are now outsourced to countries with lower costs.</li> </ul> <p><b>AO4</b></p> <ul style="list-style-type: none"> <li>• Figure 1c shows that different countries have different trends for employment in the secondary sector.</li> <li>• Figure 1c shows that for developed countries such as the UK and the US, there has been a steady decline in the percentage employed in the secondary sector.</li> <li>• Figure 1c shows that Cambodia has experienced a steady rise in secondary sector employment.</li> <li>• Figure 1c shows how Ghana has only more recently experienced a rise in secondary sector employment compared to other countries shown, from around 2013.</li> <li>• Figure 1c shows how China has experienced different rates of growth in the percentage of the secondary sector, with more rapid rise from around 2001-2012.</li> </ul>

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1-3	<ul style="list-style-type: none"> <li>Attempts to apply understanding to deconstruct information but understanding and connections are flawed. An unbalanced or incomplete argument that provides limited synthesis of understanding. Judgements that are supported by limited evidence. (AO3)</li> <li>Uses some geographical skills to obtain information with limited relevance and accuracy, which supports few aspects of the argument. (AO4)</li> </ul>
Level 2	4-6	<ul style="list-style-type: none"> <li>Applies understanding to deconstruct information and provide some logical connections between concepts. An imbalanced argument that synthesises mostly relevant understanding, but not entirely coherently, leading to judgements that are supported by evidence occasionally. (AO3)</li> <li>Uses geographical skills to obtain accurate information that supports some aspects of the argument. (AO4)</li> </ul>
Level 3	7-8	<ul style="list-style-type: none"> <li>Applies understanding to deconstruct information and provide logical connections between concepts throughout. A balanced, well-developed argument that synthesises relevant understanding coherently leading to judgements that are supported by evidence throughout. (AO3)</li> <li>Uses geographical skills to obtain accurate information that supports all aspects of the argument. (AO4)</li> </ul>

Question Number	Answer	Mark
<b>2(a) (i)</b>	<p>C High humidity (1).</p> <p>The answer cannot be A (rainforests are not arid), B (rainforests have high temperatures), or D (these are associated with tundra climate).</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>2(a) (ii)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <ul style="list-style-type: none"> <li>• Plant and animal community covering a large area of the Earth's surface (1).</li> <li>• A large ecological area defined by abiotic factors (e.g. climate/relief/vegetation) (1).</li> </ul> <p>Accept any other appropriate responses.</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>2(b)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <p>D Farming that does not use chemical fertilisers (1)</p> <p>The answer cannot be A (incorrect), B (incorrect), or C (incorrect).</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>2(c)</b>	<p style="text-align: center;"><b>AO2 (1 mark) / AO3 (1 mark)</b></p> <p>Award 1 mark for basic evidence from the from the image (AO3) and a further 1 mark for extension through explanation (AO2), up to a maximum of 2 marks.</p> <ul style="list-style-type: none"> <li>• The machinery is cutting the trees (1) showing how the forest can provide timber (1).</li> <li>• There are piles of tree trunks (1) which could be used to make furniture and other goods (1).</li> </ul>	

	<ul style="list-style-type: none"> <li>The wood being collected by the loggers (1) might be used for firewood (1).</li> </ul> <p>Accept any other appropriate responses.</p>	<b>(2)</b>
--	--	------------

Question Number	Answer	Mark
<b>2(d)</b>	<p style="text-align: center;"><b>AO1 (1 mark)</b></p> <p>Award 1 mark for a suitable advantage identified.</p> <ul style="list-style-type: none"> <li>Higher yields (1).</li> <li>More pest/disease resistant (1).</li> <li>Greater food security (1).</li> <li>Require less use of pesticides (1).</li> <li>They tend to grow faster (1).</li> <li>More tolerable to climatic conditions/more frost resistant/more drought or flood resistant (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(1)</b>

Question Number	Answer	Mark
<b>2(e)</b>	<p style="text-align: center;"><b>AO2 (2+2 marks)</b></p> <p>Award 1 mark for a reason and a further expansion mark, up to a maximum of 2 marks each.</p> <ul style="list-style-type: none"> <li>Farms diversifying their income to include pick your own options and a farm shop (1) to compensate for falling prices for crops and increase profitability of the farm (1).</li> <li>Improving transport connections to remote rural areas (1) to improve access to jobs and services.</li> <li>Switching to organic farming (1) to try and obtain a higher price for crops produced (1).</li> <li>Obtaining grants from the EU to establish businesses in rural areas (1) and increase community sizes (1).</li> </ul>	

	<ul style="list-style-type: none"> <li>Develop tourist attractions on farms e.g. seeing farm animals (1) in order to increase incomes (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(4)</b>
--	---	------------

Question Number	Answer	Mark
<b>2(f)</b>	<p style="text-align: center;"><b>AO1 (1 mark) / (AO3) 2 marks</b></p> <p>Award 1 mark for an identification of a trend and a further 2 marks for extension through explanation or description, up to a maximum of 3 marks.</p> <ul style="list-style-type: none"> <li>There has been a decrease in the percentage of people working in agriculture between 1991-2019 (1). From around 6%-3% in France (1). This may be due to fewer people willing to work in low wage agricultural jobs (1).</li> <li>There has been a decrease in the percentage of people employed in agriculture between 1991-2019 (1) but it is only a small decrease, around 0.2% for the USA (1), because the country has already shifted to more employment in other sectors (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(3)</b>

Question Number	Answer	Mark
<b>2(g)</b>	<p style="text-align: center;"><b>AO2 (4 marks)</b></p> <p>Award 1 mark for initial explanation and an additional 1 mark for development through further explanation or exemplification. Maximum 2 marks for government strategy and maximum 2 marks for NGO strategy.</p> <p>A range of countries and strategies could be chosen.</p> <p>Government</p> <ul style="list-style-type: none"> <li>Investment in infrastructure to improved road access to the more remote areas (1) to ensure crops can reach markets more easily (1).</li> <li>Providing funding for irrigation schemes (1) to try and combat increasing drought conditions (1).</li> </ul> <p>NGOs</p>	

	<ul style="list-style-type: none"> <li>• NGO, Project Chirag providing rural households with solar lighting units (1) to provide power for areas with poor access to electricity (1).</li> <li>• Water Aid provide training for local people to build toilets (1) to improve sanitation facilities (1).</li> </ul> <p>Accept any other appropriate response.</p>	<b>(4)</b>
--	--	------------

Question number	Indicative content
<b>2 (h)</b>	<p style="text-align: center;"><b>AO3 (4 marks)/AO4 (4 marks)</b></p> <p><b>Marking instructions</b></p> <p>Markers must apply the descriptors in line with the general marking guidance and the qualities outlined in the levels-based mark scheme below.</p> <p><b>Indicative content guidance</b></p> <p>The indicative content below is not prescriptive and candidates are not required to include all of it. Other relevant material not suggested below must also be credited. Relevant points may include:</p> <p><b>Factors rural change developing countries</b></p> <p><b>AO3</b></p> <ul style="list-style-type: none"> <li>• There are a range of economic, social and environmental factors that are leading to change in rural areas in developing countries.</li> <li>• In many developing countries rural areas are experiencing labour shortages as people often migrate to cities to look for work with the prospect of higher wages than they could get working on farms.</li> <li>• For some rural areas environmental factors are facilitating greater change. The impacts of climate change are already affecting some areas, with increasing droughts making it more difficult to grow crops. Some farmers are trying to find alternative crops to grow in a changing climate, or for example moving to more drought resistant crops varieties.</li> <li>• There are many organisations that are trying to support changes in rural areas in developing countries. Many NGOs try to support local communities, sometimes through donation of money, equipment or expertise. Where farming methods are still very labour intensive, sometimes the shift to using technology such as tractors can support a shift to more intensive farming which can increase profits and move towards more that subsistence farming.</li> </ul>

	<p><b>AO4</b></p> <ul style="list-style-type: none"> <li>• Figure 2c indicates that NGO activity can facilitate change, sometimes through the donation of machinery which can support increasing crop yields.</li> <li>• Figure 2c suggests that there are labour supply issues as it states that many people have moved to the cities to look for work.</li> <li>• Figure 2c indicates that there are environmental issues facing farmers, with increasing drought conditions making farming more challenging.</li> </ul>
